## 05 53 Metal Gratings *(05 50)*

### 05 53 13 Bar Gratings *(05 53)*

### 05 53 13 00-0001 Welded Grating *(05 53 13)*

Note: Sizes are for height and width of bearing bars. Welded grating is open grid grating which has bearing bars and cross bars locked in place by resistance welding, or conventional hand welding. Resistance welded grating is produced on precise automated production equipment by combining hydraulic pressure with a powerful electric current to fuse - electroforge - the cross bar and bearing bar into a single rigid panel.

### 05 53 13 00-0002 Steel, Welded Grating *(05 53 13 00-0001)*

Note: Bearing bars at 1-3/16" on-center, crossbars at 4" on-center, bolted or tack welded, unpainted steel, and in all sizes.

| | | | | |
|---|---|---|---|---|
| 05 53 13 00-0003 | SF | 3/4" x 1/8" Steel, Welded Grating | 8.11 | 1.03 |

## 05 53 13 00-0017 Pressure Locked Grating *(05 53 13)*

Note: Sizes are for height and width of bearing bars. Pressure locked grating is an open grid grating which is an assembly of tight-fitting, slotted bearing bars and cross bars, interlocked together. The permanent locking of the bars is accomplished by slotting the bearing bars with a wider 'dovetail' shape at the bottom of the slot. The bearing bar slot is usually 1/2 the depth of the cross bar. The cross bars are slotted to a depth slightly less than half its depth. When the bars are pressed together under hydraulic pressure, the cross bar material is forced into the 'dovetail' shape of the bearing bar notch, forming a strong, rigid unit.

## 05 53 13 00-0018 Steel, Pressure Locked Grating *(05 53 13 00-0017)*

Note: Bearing bars at 1-3/16" on-center, crossbars at 4" on-center, bolted or tack welded, unpainted steel, and in all sizes.

### 05 53 13 00-0044 Swage Locked Grating *(05 53 13)*

Note: Sizes are for height and width of bearing bars. Swage locked grating is an open grid grating where bearing bars are pre-punched to receive a cross bar without penetrating or cutting the top surface of the bearing bar. The cross bar is then inserted through the pre-punched hole and deformed by swaging or squeezing under hydraulic pressure to permanently lock the bars in place.

### 05 53 13 00-0045 Steel, Swage Locked Grating *(05 53 13 00-0044)*

Note: Bearing bars at 1-3/16" on-center, crossbars at 4" on-center, bolted or tack welded, unpainted steel, and in all sizes.

### 05 53 13 00-0064 Riveted Grating *(05 53 13)*

Note: Riveted grating is an open grid grating where bearing bars are pre-punched to receive a solid round rivet. Crimp/lacing bars are pre-punched as well and then formed into a reticulated shape. Bearing bars and crimp bars are then assembled and clamped in place by rivets which are cold driven under hydraulic pressure to permanently lock the assembly together.

### 05 53 13 00-0065 Steel, Riveted Grating *(05 53 13 00-0064)*

Note: 1" clear opening, bolted or tack welded in place, unpainted steel, all sizes.

## 05 59 Metal Specialties *(05 50)*

### 05 59 65 Metal Chain *(05 59)*

| | | | | |
|---|---|---|---|---|
| 05 59 65 00-0001 | | Alloy Steel Chain, Self Colored, Cut Length *(05 59 65)* | | |
| | | Note: Includes all connecting links, double clevis mid-Links, slip or grab hooks, or shackles as required. | | |
| 05 59 65 00-0002 | LF | 3/16" Diameter Alloy Steel Chain, Cut Length, Self Colored | 5.32 | 0.90 |
| | | *For Plastic Dipped, Add* | *0.53* | |
| 05 59 65 00-0003 | LF | 1/4" Diameter Alloy Steel Chain, Cut Length, Self Colored | 6.89 | 1.20 |
| | | *For Plastic Dipped, Add* | *0.67* | |
| 05 59 65 00-0004 | LF | 3/8" Diameter Alloy Steel Chain, Cut Length, Self Colored | 10.86 | 2.40 |
| | | *For Plastic Dipped, Add* | *0.91* | |
| 05 59 65 00-0005 | LF | 1/2" Diameter Alloy Steel Chain, Cut Length, Self Colored | 17.42 | 4.05 |
| | | *For Plastic Dipped, Add* | *1.40* | |
| 05 59 65 00-0006 | LF | 5/8" Diameter Alloy Steel Chain, Cut Length, Self Colored | 29.40 | 6.86 |
| | | *For Plastic Dipped, Add* | *2.36* | |
| 05 59 65 00-0007 | LF | 3/4" Diameter Alloy Steel Chain, Cut Length, Self Colored | 41.27 | 9.62 |
| | | *For Plastic Dipped, Add* | *3.30* | |
| 05 59 65 00-0008 | LF | 7/8" Diameter Alloy Steel Chain, Cut Length, Self Colored | 56.34 | 12.02 |
| | | *For Plastic Dipped, Add* | *4.85* | |
| 05 59 65 00-0009 | LF | 1" Diameter Alloy Steel Chain, Cut Length, Self Colored | 81.58 | 16.02 |
| | | *For Plastic Dipped, Add* | *7.43* | |
| 05 59 65 00-0010 | LF | 1-1/4" Diameter Alloy Steel Chain, Cut Length, Self Colored | 132.84 | 24.04 |
| | | *For Plastic Dipped, Add* | *12.71* | |

### 05 59 69 Metal Panels *(05 59)*

| | | | | |
|---|---|---|---|---|
| 05 59 69 00-0001 | | Woven And Welded Wire Cloth *(05 59 69)* | | |
| | | Note: Excludes frame and fastening to frame. See CSI section 05 05 21 00-0004 for spot welding. | | |
| 05 59 69 00-0002 | | Plain Steel Woven And Welded Wire Cloth Panels *(05 59 69 00-0001)* | | |
| 05 59 69 00-0003 | | 2" Square Wire Spacing *(05 59 69 00-0002)* | | |

| 07 05 13 00-0005 | EA | >3 To 4 SQ, Mobilization Of Crew For Small Quantity Of Roof Work | 229.98 | |

## 07 10 Dampproofing and Waterproofing *(07)*

Note: The following tasks are for application to vertical (walls and foundations) surfaces. For horizontal (flat) surfaces apply the appropriate modifier to reduce the labor cost (where listed). Waterproofing is the treatment of a surface or structure to PREVENT the passage of water under hydrostatic pressure. Dampproofing is the treatment of a surface or structure to RESIST the passage of water in the absence of hydrostatic pressure.

### 07 11 Dampproofing *(07 10)*

#### 07 11 13 Bituminous Dampproofing *(07 11)*

## 07 22 Roof and Deck Insulation *(07 20)*

### 07 22 16 Roof Board Insulation *(07 22)*

Note: Use these items for specified related installations with systems per CSI section 07 50 00. Items are for single layer of panels attached per FM I-90 requirements. Types are stock sizes set in cold applied adhesive. Apply modifiers for specified alternate attachment.

07 22 16 00-0001 Rigid Board Roofing Insulation *(07 22 16)*

Note: Use these items for specified related installations with systems per CSI section 07 50 00. Items are for single layer of panels attached per FM I-90 requirements. See CSI section 07 22 16 00-0466 for demolition of insulation board.

07 22 16 00-0002 Cold Adhesive Applied Rigid Board Roofing Insulation *(07 22 16 00-0001)*

### 07 22 16 00-0222 Rigid Board Tapered Roofing Insulation *(07 22 16)*

Note: Includes tapered board and filler board required to maintain slope starting at 1/2" minimum thickness. Excludes base layer of board, if required. Average thickness and average R-value of tapered system excludes thickness and R-value of base layer insulation and/or cover board. See CSI section 07 22 16 00-0466 for demolition of insulation board.

### 07 22 16 00-0223 Cold Adhesive Applied Rigid Board Tapered Roofing Insulation *(07 22 16 00-0222)*

### 07 22 16 00-0224 Cold Adhesive Applied, Tapered Polyisocyanurate Board *(07 22 16 00-0223)*

Note: Includes polyurethane adhesive.

### 07 22 16 00-0225 Cold Adhesive Applied, 1/8" Slope, Tapered Polyisocyanurate Board *(07 22 16 00-0224)*

| | | | | |
|---|---|---|---|---|
| 07 22 16 00-0226 | SF | 2.25" Average Thickness (12.8 Average R-Value), 1/8" Slope, Tapered Polyisocyanurate Board, Cold Adhesive Applied | 4.07 | |
| | | *For 25 PSI Compressive Strength, Add* | *0.30* | |
| 07 22 16 00-0227 | SF | 2.75" Average Thickness (15.7 Average R-Value), 1/8" Slope, Tapered Polyisocyanurate Board, Cold Adhesive Applied | 5.48 | |

### 07 41 13 00-0029 Standing Seam Roofs *(07 41 13)*

Note: Includes all profiles of vertical leg and batten style standing seam roofing. Includes all clips, neoprene closures, metal closures, battens, tape sealer, tube sealant, fasteners, vent material, panel starters and cleats. Based on Garland R-Mer Clad or R-Mer Seam architectural roofing, R-Mer Loc architectural/structural roofing, and R-Mer Span structural roofing. Architectural roofing requires a solid substrate and underlayment, requires a minimum 3:12 pitch, and includes a 20 year no dollar limit warranty. Architectural/structural roofing does not require a solid substrate or underlayment, requires a minimum 3:12 pitch, and includes a 25 year no dollar limit warranty. Structural roofing does not require a solid substrate or underlayment, requires a minimum 1/4" per foot slope, and includes a 25 year no dollar limit warranty.

### 07 41 13 00-0030 Galvanized Steel Standing Seam Concealed Fastener Roofing *(07 41 13 00-0029)*

Note: All steel is galvanized G90 rated or galvalume®. Factory paint finish is Kynar 500®, Hylar 5000® or equal polyvinylidene fluoride (PVDF) finish.

## 07 52 Modified Bituminous Membrane Roofing *(07 50)*

### 07 52 13 Atactic-Polypropylene Modified Bituminous Membrane Roofing *(07 52)*

Note: Includes all standard manufacturers' colors including white for granule and smooth surfaced cap sheets and flashing. See CSI section 07 51 13 00-0001 for additional components such as concrete primers, cant strips, surfacing, walkway boards, demolition and warranties.

### 07 52 13 11 Cold Adhesive Applied Atactic-Polypropylene-Modified Bituminous Membrane Roofing *(07 52 13)*

#### 07 52 13 11-0001 Cold Adhesive Applied Atactic-Polypropylene (APP) Modified Bituminous Membrane Roofing *(07 52 13 11)*

Note: Includes fiberglass and/or polyester reinforcement. Includes applying cold adhesive and embedding the membrane. Includes heat welding side and end laps when required.

#### 07 52 13 11-0002 Cold Adhesive Applied, Atactic-Polypropylene (APP) Modified Bitumen Roofing Base, Ply And Cap Sheets *(07 52 13 11-0001)*

## 07 53 Elastomeric Membrane Roofing *(07 50)*

Note: Includes 10 year warranty. All warranties are no dollar limit to include material, equipment and labor. Excludes concrete primer, insulation, slip sheets, wood nailers, cant strips, coping removal and reinstallation, gravel stop, walkway pads and drainage devices. See CSI section 07 26 13 00-0000 for wood deck building paper.

## 07 54 Thermoplastic Membrane Roofing *(07 50)*

Note: Includes 10 year warranty. All warranties are no dollar limit to include material, equipment and labor. Excludes concrete primer, insulation, slip sheets, wood nailers, cant strips, coping removal and reinstallation, gravel stop, walkway pads and drainage devices. See CSI section 07 26 13 00-0000 for wood deck building paper.

### 07 54 19 Polyvinyl-Chloride Roofing *(07 54)*

#### 07 54 19 00-0001 Reinforced Polyvinyl Chloride (RPVC) Roofing Membranes *(07 54 19)*

Note: Includes polyester fabric reinforcement and hot air welding of seams. RPVC membranes meet or exceed all of the requirements of ASTM D4434 Type III.

# 08 13 Metal Doors *(08 10)*

Note: Includes machining for all hardware. Excludes frames, finish hardware. See CSI section 08 70 00 00-0000 for finish hardware.

## 08 13 13 Hollow Metal Doors *(08 13)*

### 08 13 13 13 Standard Hollow Metal Doors *(08 13 13)*

Note: Hollow Metal Doors are full flush, fabricated from cold rolled steel conforming to ASTM A1008, honeycomb core, interlocking mechanical vertical edge seam, with epoxy baked-on primer. Galvanized steel doors are fabricated from a carbon steel sheet that has been coated with zinc on two sides by the continuous hot-dip process. Hollow Metal Doors are organized by the following levels: 20 Gauge, Level 1 Standard Duty; 18 Gauge, Level 2 Heavy Duty; 16 Gauge, Level 3 Extra Heavy Duty; 14 Gauge, Level 4 Maximum Duty.
