

Rubber Sidewalk Material Salvage Opportunity

The City of Kirkland, Public Works Department is seeking a vendor/contractor/municipality who would be interested in salvaging rubber sidewalk materials (Approx. 1,670 sq. ft.) that are located at the Public Works Maintenance Center. (915 -8th Street, Kirkland 98033)

We have received your contact information and would like to invite you to a site visit that is scheduled on August 31, 2016 at 9 A.M. at the above address to view the materials for your salvage consideration. The city of Kirkland is interested in seeking re-sale/reuse of the rubber sidewalk materials.

Bids for purchase are to be submitted by **3:00 pm Pacific Time on September 7, 2016**. Bids are to be submitted as email attachments to purchasing@kirklandwa.gov or can be mailed/delivered to City of Kirkland, Attn: Purchasing Agent, 123 5th Ave, Kirkland, WA 98033.

Interested agencies/companies will be required to provide the City with a Certificate of Insurance naming the City as an additional insured to enter the property and pick up the materials. The Commercial General Liability insurance shall be written with limits no less than \$1,000,000 for each occurrence and \$2,000,000 general aggregate. The Automobile Liability Insurance must have a minimum combined single limit for bodily injury and property damage of \$1,000,000 per accident.

Please confirm if you will attend the site date given above. Contact the Public Works Department at 425-587-3900.

Selection of interested party will be based on availability to perform the pick-up of materials, with no cost to the city and the highest offer for the materials. The vendor must also comply with the insurance requirements listed above. Preference will be made to a user of the salvaged materials for Kirkland community re-use and can identify the specific location. An example may be a use at a community garden or education center.

Thank you for your consideration of this opportunity to salvage materials which supports our goal of waste diversion and sustainable practices in construction.
