Funded Transportation Projects

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	ST 0006 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL STREET PRESERVATION PROGRAM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Preservation of roadway system with various techniques including overlay, slurry seal, crack seal and others. The Public Works Department is responsible for approximately 245 miles of asphalt streets throughout the City. The annual program ensures maintenance of this infrastructure and reduces costly repairs resulting from total road failure.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project description changed to reflect additional miles of asphalt street throughout the City and project cost changed to reflect available funding.

2013 TO 2018**

PROJECT #	ST 0006 002
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL STREET PRESERVATION PROGRAM, ONE TIME PROJECT		
PROJECT LOCATION	NE 85th Street from I-405 to 132nd Avenue NE	PROJECT START	PROJECT STATUS
		2014	Modified Project

DESCRIPTION/JUSTIFICATION

The grind, patch, modification of wheelchair ramps and overlay of NE 85th Street (formerly SR 908) at the conclusion of intersection, roadway and other improvements associated with CIP projects NM 0051, ST 0075, TR 0078, and TR 0080. Funds became available through the Washington State Department of Transportation (WSDOT) as a result of the recent jurisdictional transfer of SR 908 from WSDOT to the City of Kirkland.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project start date changed from 2012 to 2014 for coordination with on-going and future capital improvements within the NE 85th Street corridor.

PROJECT #	ST 0006 003
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	STREET MAINTENANCE AND PEDESTRIAN SAFETY PROJECT		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

A voter approved levy funded annual project to meet City Council Goals for dependable infrastructure, balanced transportation, neighborhoods, public safety, and financial stability. Specific projects to be included consist of: 1.) Preventative street maintenance through repair and resurfacing (\$2.7 M), 2.) Pedestrian safety through enhancements to Kirkland crosswalks, the installation of new ADA ramps and the providing of various improvements addressing transit, pedestrian, bicycle and other neighborhood transportation safety issues (\$150 K), and, 3.) Project funding (\$150 K) available as City matching funds for state and federal Safe Routes to School grants.

PROJECT #	ST 0057 001
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 120TH STREET ROADWAY EXTENSION (EAST SECTION) - PHASE II		
PROJECT LOCATION	NE 120th Street alignment between Slater Avenue NE and 124th Avenue NE	PROJECT START	PROJECT STATUS
		2011	Modified Project

DESCRIPTION/JUSTIFICATION

Install up to 44-foot (curb to curb) roadway with planter strip and concrete sidewalk, new traffic signal at 124th Avenue NE/NE 120th Street, and signal modifications at Slater Avenue NE/NE 120th Street. This is a Phase II project to acquire right-of-way and construct the improvements as grant and/or other funds have become available.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Total costs changed from \$6,402,600 to \$7,357,000 due to updated cost estimate and increased right-of-way costs.

POLICY BASIS	PRIOR YEAR(S) BUDGET TO ACTUALS	METHOD OF FINANCING (%)

PROJECT TITLE	NE 120TH STREET ROADWAY EXTENSION (EAST SECTION) - PHASE II
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last four to five months, traffic using 124th Avenue and Slater Avenue may experience delays due to construction activity. Adjacent businesses will also experience noise, dust, and equipment impacts.</i>
Community economic impacts	<i>This new roadway will vastly improve traffic circulation in the Totem Lake area and improve exposure to adjacent businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Pedestrian and bicycle facilities to be constructed with the project will encourage non-SOV mobility. Emergency access to surrounding areas will be improved.</i>
Responds to an urgent need or opportunity	<i>During the development of the Infinity car dealership, the City was given first options on purchasing property needed for this new roadway.</i>
Feasibility, including public support and project readiness	<i>Adjacent businesses (Infinity of Kirkland and Verizon) have been involved with preliminary design of the project. The project will require significant facility construction near Slater Avenue, including walls to retain the roadway.</i>
Conforms to legal or contractual obligations	<i>The project will be designed and constructed to comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will continue pedestrian and bicycle facilities planned for Slater Avenue NE and along 132nd Avenue NE/NE 120th Street east of the project.</i>
Implications of deferring the project	<i>The right of way adjacent to Infinity of Kirkland is subject to a 1996 agreement whereby the City agreed to purchase right of way within 10 years at a pre-determined value. In the event the 10 years pass, the additional cost of the right of way could exceed \$230,000.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Totem Lake, North Rose Hill</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 1,600 feet of bicycle, sidewalk; 6,000 vpd <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	JUANITA DRIVE CORRIDOR STUDY		
PROJECT LOCATION	Juanita Drive Corridor	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

A corridor study/master plan to guide future capital improvement construction phases for Juanita Drive. The purpose of the Study is to evaluate existing conditions and recommend a prioritized set of improvements for the Juanita Drive Corridor. Goals for the corridor will be set consistent with established City goals and policies. A substantial public involvement process will be integral to the development of the Study's end product. Improvements will be focused on: bicycle and pedestrian facilities, safety, drainage, signing, marking, lighting, and geometric conditions such as hills, curves and intersections.

PROJECT TITLE	ANNUAL CONCURRENCY STREET IMPROVEMENTS		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

This project provides for the construction and re-construction of City roadways to meet concurrency needs to help the City attain the 2022 level of service standards established in the Comprehensive Plan. Candidate projects under this annual program include: ST 0059 - 124th Ave NE Roadway Improvements (North Section), ST 0063 - 120th Ave NE Roadway Improvements with others as deemed appropriate.

REASON FOR MODIFICATION (WHERE APPLICABLE)

An updated priority ranking of the individual projects within the description above. Project timing and costs have been updated. Total project cost changed from \$4,050,000 to \$2,029,900, which reflects available remaining funds after funded projects are identified.

PROJECT TITLE	CROSSWALK UPGRADE PROGRAM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Existing Project

DESCRIPTION/JUSTIFICATION

Install crosswalk improvements at various locations throughout the City. Improvements will include upgrades to existing crossing facilities or construction of new facilities. This program began in 1996 and has been funded every 2 years from current revenue; in the event that other sources become available (such as grants from the Transportation Improvement Board) they will be used to supplement funding levels. Community input into the City's Comprehensive Plan and Active Transportation Plan identified the need for improved pedestrian crossing in the City's pedestrian system.

PROJECT TITLE	CROSSWALK UPGRADE PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minor during construction.</i>
Community economic impacts	<i>Improved pedestrian routes will promote increased safe foot traffic and reduce dependence on vehicular traffic.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Create pedestrian-friendly atmosphere by providing crosswalk upgrades that could reduce potential risk to pedestrians.</i>
Responds to an urgent need or opportunity	<i>Community input has identified the desire for additional pedestrian facilities throughout the City.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high; impacts are dependent upon location and degree of improvements, but project does not present significant difficulties.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Depending on the location selected, these upgrades will link to other sidewalk improvements.</i>
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	CROSS KIRKLAND CORRIDOR TRAIL (INTERIM)		
PROJECT LOCATION	Former Burlington Northern Santa Fe Rail Corridor right-of-way, between south City limits and a point in the north part of the City, near Totem Lake.	PROJECT START	PROJECT STATUS
		2012	Modified Project

DESCRIPTION/JUSTIFICATION

Construct a multiuse recreational trail within the Kirkland segment of the Cross Kirkland Corridor right-of-way between the South Kirkland Park and Ride and Totem Lake. The compacted gravel path would be constructed generally on the existing rail bed. Existing rails will be removed to accommodate the new trail.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved to funded as per City Council at their August 7, 2012 meeting, with 2012 start date. Total project cost changed from \$3,000,000 in the preliminary CIP to \$3,600,000 due to updated cost estimate. Project received \$3,041,000 in grant funding. Funding for the Cross Kirkland Corridor was recommended by the Park Funding Exploratory Committee (PFEC) funded by the levy approved by voters in November 2012. Staff also continues to seek additional funding through various grant opportunities for future development of the corridor.

PROJECT TITLE	CROSS KIRKLAND CORRIDOR TRAIL (INTERIM)
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Very limited disruption to current operations. Some noise and activity not normally present along Eastside Rail Corridor right-of-way adjacent to residential homes.</i>
Community economic impacts	<i>Provides Class I separated pathway connecting many parts of Kirkland and neighboring cities north and south of Kirkland.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Separated pathway will decrease interaction between pedestrian/bicycle and vehicular traffic. This project will provide a corridor for alternate forms of transportation than SOV.</i>
Responds to an urgent need or opportunity	<i>Helps fulfill annual increase in pedestrian facilities needed to meet the adopted level of service as set forth in the Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>It will be innovative in that a right-of-way agreement will have to be negotiated with Eastside Rail Corridor on an active track. Public support is mixed, however, much involvement has taken place.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed in compliance with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>Follows Vision 2020.</i>
Benefits to other capital projects	<i>This project will tie together many other "feeder" non-motorized facilities along the route.</i>
Implications of deferring the project	<i>Delays the construction of an important and trend-setting element of the non-motorized network.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 5.7 miles of ped/bike facilities <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	CROSS KIRKLAND CORRIDOR MASTER PLAN		
PROJECT LOCATION	Former Burlington Northern Santa Fe (BNSF) Railroad Corridor right of way between south and (approximate) north City limits.	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

The project is part of a larger effort to develop the Cross Kirkland Corridor (former BNSF corridor) as a public asset for future transportation purposes. Stretching almost the full length of the city, its physical location provides unmatched potential for connecting land uses important to Kirkland residents. Program funds will be used to develop and complete a Master Plan and Implementation Program. Development of the corridor is envisioned to include facilities for pedestrians and bicycles, and in the future, transit. Consistent with the Draft Scope of Work approved by City Council (August 7, 2012), the Master Plan will further identify and refine how the corridor should be developed and will set the stage for moving the Cross Kirkland Corridor to the next phase of development. Funding for the Cross Kirkland Corridor was recommended by the Park Funding Exploratory Committee (PFEC) funded by the levy approved by voters in November 2012.

PROJECT TITLE	PARK LANE PEDESTRIAN CORRIDOR ENHANCEMENTS		
PROJECT LOCATION	Park Lane from Lake Street to Kirkland Transit Center at 3rd Street	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

Aged and failing sidewalks along this corridor due to tree roots that have impacted the sidewalk panels between Lake Street and Main Street are a continuous maintenance issue. With development of the new Downtown Transit Center on Third Street by Sound Transit and a focus on enhancements along this pedestrian connection, this project will implement a new design standards along the corridor after an extensive public process. Additionally, the existing tree canopy which is a valued commodity along this corridor will be evaluated and possible solutions to the urban trees will be developed. This is a Phase 2 Project following a Phase 1 Pre-design and temporary sidewalk repair completed in 2010.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from Unfunded due to receipt of \$739,000 DOE grant funding with Project start in 2013. Project total cost changed from \$1,300,000 to \$2,238,900 with updated cost estimate produced in conjunction with an application for a new State Pedestrian and Bike Safety Grant Program. The final list of recipients for the State grant will be announced on December 15, 2012.

PROJECT TITLE	ANNUAL NONMOTORIZED PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, pedestrians, adjacent residents and drivers using this roadway will experience typical construction impacts and delays.</i>
Community economic impacts	<i>Will encourage non-motorized forms of transportation.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high.</i>
Conforms to legal or contractual obligations	<i>Specific projects will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? <i>No</i> Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT #	TR 0083 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	100TH AVENUE NE/NE 132ND STREET INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	Intersection of 100th Avenue NE/NE 132nd Street	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

Restripe the northbound to eastbound right-turn lane to a combination of shared through and right-turn. Construct a 250 foot northbound receiving lane on the north leg of the intersection. Extend the westbound left and right turn lanes 500 feet. This candidate project will result in improvements to allow the intersection to maintain a level of service less than the required 1.4 volume to capacity ratio. The Intersection Initiative recommends adding a southbound to westbound right-turn lane to improve capacity. This is a candidate project included as a component of the Annual Concurrency Traffic Improvements Program Project, TR 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from unfunded due to funding availability. Total Project cost changed from \$2,991,000 to \$3,201,000 due to updated cost estimate. Project is on the city's concurrency list, and a viable grant candidate.

PROJECT LOCATION	NE 132nd Street, 120th Avenue/124th Avenue NE in Totem Lake	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

Implementation of ITS upgrades at 15 intersections formerly on King County's network (six of which are located in the newly annexed area) to integrate them into Kirkland's Phase I ITS (presently under design) and implementation of ITS improvements at 11 signals located at NE 132nd Street and 120th Avenue - 124th Avenue NE corridors to connect these in the Phase I ITS project. Includes system engineering analysis, design, plans and specifications for the procurement and construction/installation of ITS devices such as controllers, cabinets, detection, CCTV and other related devices and for the fiber optic communication system that will allow devices to communicate to Kirkland's central traffic management facility presently under design.

PROJECT TITLE	KIRKLAND CITYWIDE SAFETY AND TRAFFIC FLOW IMPROVEMENTS		
PROJECT LOCATION	Central Way/NE 85th St, Lake St to 132nd Ave NE; NE 124th St, 100th Ave NE to Willows Road; and LWB/Market St/100th Ave NE, Northup WY to NE 145th	PROJECT START	PROJECT STATUS
		2013	Existing Project

DESCRIPTION/JUSTIFICATION

Improvements to safety and traffic flow on Kirkland's main arterial corridors through signal timing optimization, signal interconnection enhancements and communication improvements. The optimized signal timing will include updating parameters for vehicle and pedestrian change intervals through the development of new signal timing plans for AM, PM and Noon peak periods, for up to 32 signalized intersections. The Project will also enhance signal interconnection and improve communication with the NE 124th Street ITS corridor.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from unfunded due to receipt of grant funding, with new start year of 2013.

PROJECT #	ST 0055 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	98TH AVENUE NE BRIDGE PROJECT		
PROJECT LOCATION	98th Avenue NE crossing of Forbes Creek	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

This project calls for the replacement of the 98th Avenue bridge due to its seismic vulnerability. The exact location and appearance as well as traffic distribution during construction would be determined in the pre-design report. The seismic vulnerability analysis completed for this bridge indicated that the center pier supports will fail, causing the collapse of the bridge. This is a critical link in a major north/south corridor. The seismic vulnerability assessment of the 98th Avenue bridge (Forbes Creek Bridge) indicated that to decrease the probability of structural collapse, seismic retrofit measures are necessary at several key locations. As a more immediate remedy, retrofit measures including the installation of a horizontal strut, soil anchors and drilled shafts at key locations may be considered as a viable alternative with significant cost savings.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Title and description changed to be consistent with 2012 grant application.

PROJECT TITLE	118TH AVENUE NE ROADWAY EXTENSION
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minimal impacts due to roadway construction. Signal construction at the intersection with NE 116th Street may lead to minor traffic delays.</i>
Community economic impacts	<i>Improved circulation in and around the Totem Lake area may lead to higher patronage of local businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Sidewalks added with the project will provide more opportunities for non-SOV transportation such as walking.</i>
Responds to an urgent need or opportunity	<i>Significant development and congestion in and around the Totem Lake area have the potential to jeopardize the Comp Plan adopted LOS.</i>
Feasibility, including public support and project readiness	<i>Significant retaining walls will be required with the project; surrounding residents will be involved in the design and layout of the project configuration.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed in accordance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Works in combination with a number of other street improvements and Interstate 405 widening to increase capacity in Totem Lake area.</i>
Implications of deferring the project	<i>Continued congestion in and around Totem Lake business district</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Totem Lake</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	120TH AVENUE NE ROADWAY IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Construction will cause interruptions to normal business for periods. Some substantial disruptions may occur during certain phases of construction.</i>
Community economic impacts	<i>Project will improve the major access to Evergreen Hospital/Totem Lake area from the south.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Provides increased pedestrian crossing opportunities at median islands and provides bicycle lanes.</i>
Responds to an urgent need or opportunity	<i>This project was identified in the Totem Lake Plan and was determined to be essential to the success of the mall redevelopment.</i>
Feasibility, including public support and project readiness	<i>Results of the Totem Lake Study (both land use and desired transportation improvements) will have important implications for this project.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed in accordance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Works in combination with a number of other street improvements, including the NE 128th Street/I-405 Overpass, to increase capacity in Totem Lake area. Will serve the future transit center planned for this area.</i>
Implications of deferring the project	<i>Development in the area; expansion of Evergreen Hospital, etc. continue to cause a need for a fully developed transportation system. Deferring the project will continue this problem.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Totem Lake</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes</i> How does the project conform to such references? <i>Project is identified on the 20-year list/map</i> Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	120TH AVENUE NE/TOTEM LAKE PLAZA ROADWAY IMPROVEMENTS		
PROJECT LOCATION	120th Avenue NE: from Totem Lake Blvd to north of the Totem Lake Mall; Totem Lake Plaza: from Totem Lake Blvd to the eastern end of the Totem Lake Mall	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

120th Avenue NE currently separates the upper and lower Totem Lake Mall campus providing access to Evergreen Hospital and is the more heavily used of the two major north/south arterials through Totem Center. Roadway improvements planned on 120th Ave NE will include treatments such as landscaping, reconstruction of the street alignment and on-street parking, all of which will improve pedestrian comfort and safety and eliminate vehicular conflicts using the numerous driveways along the corridor. In addition to traffic calming measures, new pedestrian facilities will be installed along the west side of the roadway and a new signal will be constructed at the intersection of the new Totem Lake Plaza. However, until the mall redevelopment occurs this project will remain in the unfunded category.

PROJECT TITLE	120TH AVENUE NE/TOTEM LAKE PLAZA ROADWAY IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, temporary detours and traffic control will be in place. Depending on the final configuration, driveways along the corridor may be consolidated or closed leading to a change in traffic patterns; business patrons will need to modify current travel patterns.</i>
Community economic impacts	<i>This measure was identified in the Totem Lake Plan with the explicit intent of improving pedestrian comfort and access, while tying the upper and lower malls together. The intent of the project is to improve the business opportunity in this area.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will improve pedestrian and vehicular circulation and lead to less potential safety issues.</i>
Responds to an urgent need or opportunity	<i>The Totem Lake Plan centers around improvements in this area.</i>
Feasibility, including public support and project readiness	<i>Supported by the Totem Lake Plan, does not present significant design or construction related issues.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed to professional and legal standards.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Redevelopment of the Totem Lake Mall will improve the financial ability for the City to fund other projects.</i>
Implications of deferring the project	<i>Potential for increased accidents, business impacts and increased cost. Potential loss of CERB grant funding if not undertaken in a timely manner..</i>

PROJECT LOCATION	East leg of 100th Ave NE & NE 132nd Street intersection to the west terminus of DOT I-405 interchange/intersection improvements.	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

The addition of landscaped median islands, the repair of concrete sidewalks, and the overlay and restriping of NE 132nd Street, between 100th Ave NE and I-405 to provide 5-foot bicycle lanes and improved pedestrian access along a portion of the NE 132nd Street Corridor, as outlined within the NE 132nd Street Roadway Masterplan Study completed in 2008. The improvement will help the City attain the 2022 level of service standards established in the Comprehensive Plan.

PROJECT TITLE	116TH AVENUE NE (SOUTH SECTION) NON-MOTORIZED FACILITIES – PHASE II		
PROJECT LOCATION	NE 40th Street to NE 60th Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install pedestrian and bicycle facilities along the 116th Avenue NE corridor between NE 60th Street and the Bellevue city limits. Phase I of this project installed five foot bikelanes between the Houghton Park and Ride and NE 60th Street. Phase II of this project received \$275,000 in Federal Congestion Mitigation Funding in 2006, which combined with the City's local match of \$44,300 and will allow the design to be updated and prepared to seek construction funding. Funding in previous years totals \$469,000.

PROJECT TITLE	116TH AVENUE NE (SOUTH SECTION) NON-MOTORIZED FACILITIES – PHASE II
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, anticipated to last four months, traffic will experience possible delays and congestion along 116th Avenue while traffic control is utilized.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians, horses, and bicycles.</i>
Responds to an urgent need or opportunity	<i>The project will contribute to achieving federal clean air standards in the Seattle/Tacoma area by encouraging alternative modes of transportation.</i>
Feasibility, including public support and project readiness	<i>The project has been designed based on significant public input.</i>
Conforms to legal or contractual obligations	<i>Construction will be in compliance with legal and professional guidelines.</i>
Responds to state and/or federal mandate	<i>The Federal Clean Air Act mandated certain air quality standards. The Seattle/Tacoma area has been classified as a non-attainment area and this project is intended to contribute to achieving required standards.</i>
Benefits to other capital projects	<i>The bike facilities will connect with bike lanes recently completed along NE 70th Street and with pedestrian/bicycle I-405 overpasses at NE 60th Street and NE 80th Street. Equestrian facilities will support the network of trails in and around the Bridle Trails State Park.</i>
Implications of deferring the project	<i>Continued sub-standard shoulders along 116th Avenue for equestrian /pedestrian/bicycle travel.</i>

PROJECT TITLE	NE 52ND STREET SIDEWALK		
PROJECT LOCATION	108th Avenue NE to Lake Washington Boulevard	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Widening and minor realignment of NE 52nd Street west of Cross Kirkland Corridor; the installation of concrete retaining wall and concrete curb, gutter and sidewalk along the north side. The existing storm drainage system will be completed and improvements will be made to the street crossing at the Cross Kirkland Corridor. NE 52nd Street provides the only east/west access between 108th Avenue NE and Lake Washington Boulevard and NE 68th Street to NE 38th Street. Various developments have completed approximately 20% of the improvements, but pedestrians must use the pavement and some sections of shoulder for travel.

PROJECT LOCATION	NE 90th Street between Costco Parking Lot and Slater Avenue NE over I-405 to 116th Ave NE	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Construct pedestrian and bicycle bridge across I-405. The bridge will be approximately 12 feet wide (WSDOT requirement), 400 feet long, and include approaches on the west and east end. The bridge will connect the Highlands neighborhood with commercial areas east of I-405 and provide an alternate route for bikes/peds crossing I-405 that currently utilize NE 85th Street. Both the North Rose Hill and South Rose Hill neighborhood plans support the goals of this project to provide bike/ped facilities through this area.

Amount of public disruption and inconvenience caused	<i>During construction, freeway traffic on I-405 will have possible impacts due to staging of support structures. Construction of east approach will impact Costco parking lot.</i>
Community economic impacts	<i>Will provide non-motorized link between neighborhoods and link Highlands with NE 85th Street commercial area.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will alleviate need for non-motorized traffic to travel along NE 85th Street corridor under I-405.</i>
Responds to an urgent need or opportunity	<i>Follows the non-motorized goals as set forth in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>The construction of this bridge will present significant engineering and construction challenges, including coordination with WSDOT.</i>
Conforms to legal or contractual obligations	<i>This pedestrian/bicycle facility will be designed and constructed in compliance with professional and legal requirements/guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will contribute to the establishment of the overall ped/bike network for Kirkland.</i>
Implications of deferring the project	<i>Continued use of congested, high volume arterial (NE 85th Street) for bicycle and pedestrian travel.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Highlands, North Rose Hill</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 500 feet of ped/bike facilities <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	CRESTWOODS PARK/EASTSIDE RAIL CORRIDOR PED/BIKE FACILITY
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, pedestrians who currently use the existing gravel path and informal stairway would be required to use other routes.</i>
Community economic impacts	<i>Will provide significant non-motorized link between neighborhoods, Kirkland Jr. High, and Crestwoods Park.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Encourage non-motorized transportation, improve existing pedestrian route, and diminish potential conflicts with Eastside Rail Corridor.</i>
Responds to an urgent need or opportunity	<i>Follows goals established in the 2001 Non-Motorized Transportation Plan.</i>
Feasibility, including public support and project readiness	<i>The construction of these improvements would pose significant challenges due to slopes, grades, and Eastside Rail Corridor. Would require coordination with Eastside Rail Corridor.</i>
Conforms to legal or contractual obligations	<i>The improvements would be designed and constructed to comply with professional and legal requirements/guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will provide key link in overall ped/bike network, including I-405 overpass at NE 100th Street.</i>
Implications of deferring the project	<i>Continued use of steep pathway by pedestrians, including erosion of hillside, potential for conflicts with BNSFRR.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Highlands, Norkirk</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	93RD AVENUE NE SIDEWALK		
PROJECT LOCATION	East side of 93rd Avenue NE from Juanita Drive north to NE 124th Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install approximately 1,100 feet of concrete curb, gutter and five-foot planter strip with street trees along 93rd Avenue NE in areas that do not currently have sidewalk. In locations with steep slopes behind the new sidewalk, aluminum handrail, or vinyl-coated chain link fence will be required, and ADA compliant wheelchair ramps will also be required in existing sidewalk. This project will also require the acquisition of right-of-way at the southeast corner of the intersection of 93rd Avenue NE and NE 124th Street to allow the required roadway configuration, sidewalk, and wheelchair ramps. This is a candidate project included as a component of the Annual Nonmotorized Program Project, NM 8888.

PROJECT TITLE	93RD AVENUE NE SIDEWALK
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last two months, pedestrians, adjacent residents, and drivers using 93rd Avenue NE will experience construction impacts and delays.</i>
Community economic impacts	<i>Improved pedestrian routes will promote increased foot traffic and potentially more use of local businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Pedestrian-friendly facilities will promote more people to use alternate forms of travel especially to nearby Juanita Beach Park with various activities.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's overall Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high; impacts to apartment complexes by the removal of adjacent landscape screening will need to be mitigated.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will connect the completed NE 124th Street sidewalk with major pedestrian facilities that are under design along Juanita Drive.</i>
Implications of deferring the project	<i>Continued pedestrian use of roadway and gravel shoulder.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>South Juanita</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	NE 100TH STREET BIKELANE		
PROJECT LOCATION	NE 100th Street Ped/Bike overpass at Slater Avenue NE to 132nd Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install five-foot wide Class II (striped) bike lanes along the existing roadway. Improvements will require asphalt widening and modification to existing concrete curb and gutter along the project length and will provide for bike lanes in both the eastbound and westbound direction. Project will complete a critical link in non-motorized facilities between North Rose Hill and Lake Washington. The NE 100th Street Ped/Bike overpass at I-405 is located immediately to the west of this project. This is a candidate project included as a component of the Annual Nonmotorized Program Project, NM 8888.

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minimal disruption along the project during construction. Construction activities will be confined to minor concrete curb and gutter relocation and striping.</i>
Community economic impacts	<i>Will improve non-motorized transportation alternatives.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will provide for dedicated bicycle facility where currently bicyclists are forced to use vehicular travel way for biking.</i>
Responds to an urgent need or opportunity	<i>The need for improved bike facilities throughout Kirkland has been identified in neighborhood meetings and in the City's overall Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support is high and project presents only minor design and construction challenges</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will allow bicyclist to better utilize the NE 100th Street ped/bike overpass at I-405.</i>
Implications of deferring the project	<i>Continued use of vehicular travel lanes for bicyclists.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>North Rose Hill, Totem Lake</i> Is there a specific reference to this project or land use in the immediate vicinity? PROJECT TITLE	FORBES VALLEY PEDESTRIAN FACILITY		
PROJECT LOCATION	Highlands, Norkirk, South Juanita and Forbes Valley Areas	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

In 1991, a landscape architecture and planning firm was hired to prepare a master plan for development of a public trail through the Forbes Valley connecting the 100th Street Trail, Crestwoods Park, Juanita Bay Park, and Juanita Beach Park. Through a series of public open houses, Parks Board and City Council meetings and community input, it was determined that the originally envisioned trail through the Forbes Valley would instead be added to the City's non-motorized facility list as a sidewalk adjacent to Forbes Creek Drive and be constructed by Public Works. The limits will be determined during preliminary design.

		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install 770 feet of concrete curb, gutter, sidewalk and planter strip for trees. This could possibly be done in conjunction with redevelopment activities with the I-405 widening project. This route is heavily used by Lake Washington High School students and others that use the Houghton Park and Ride Lot.

PROJECT TITLE	116TH AVENUE NE SIDEWALK (SOUTH ROSE HILL)
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction traffic will experience possible delays and congestion along 116th Avenue while traffic control is utilized.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians and bicycles.</i>
Responds to an urgent need or opportunity	<i>Follows the non-motorized goals as set forth in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>This project will be designed based on public input and DOT requirements.</i>
Conforms to legal or contractual obligations	<i>This project will encourage alternate modes of transportation that enhance air quality.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Connects with sidewalk completed on NE 75th Street.</i>
Implications of deferring the project	<i>Continued pedestrian use of shoulder for travel along 116th Avenue NE.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>South Rose Hill</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes - ERH-7</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 770 feet of sidewalk <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 104TH STREET SIDEWALK
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, pedestrians, adjacent residents and drivers using this roadway will experience typical construction impacts and delays.</i>
Community economic impacts	<i>Will encourage non-motorized forms of transportation.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high.</i>
Conforms to legal or contractual obligations	<i>The project will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>North Rose Hill</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 1700 lf <input checked="" type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	19TH AVENUE SIDEWALK
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last two months, pedestrians, adjacent residents and drivers using 19th Avenue will experience construction impacts and delays.</i>
Community economic impacts	<i>Provides a separate walking surface for increased safety and access to walking to Kirkland Junior High.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Pedestrian-friendly facilities will promote more people to use alternate forms of travel.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's overall Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high: impacts to residents by the removal of adjacent landscaping will need to be mitigated.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Connects with existing Market Street sidewalk.</i>
Implications of deferring the project	<i>Continued pedestrian use of roadway.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Norkirk</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	JUANITA-KINGSGATE PEDESTRIAN BRIDGE AT I-405		
PROJECT LOCATION	Across I-405 at NE 140th Street or NE 145th Street	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Originally planned by King County DOT at NE 145th Street, a bridge at this location provides a non-motorized connection across I-405 with other wooded trail enhancements and roadway infrastructure improvements at the intersection of NE 145th Street and 114th Avenue NE; it serves to link Windsor Vista and Kingsgate Parks.

As an alternative, a bridge at NE 140th Street will connect Robert Frost Elementary and Helen Keller Elementary, as well as Edith Moulton and Kingsgate Parks.

Either location will serve to connect neighborhoods, pedestrians and bicycles of North Juanita and Kingsgate/Evergreen Hill where, currently, pedestrians have to make crossings at NE 132nd or NE 160th Streets.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	KIRKLAND WAY/EASTSIDE RAIL CORRIDOR ABUTMENT/INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	Intersection of Kirkland Way and the Cross Kirkland Corridor crossing	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

The project as currently anticipated will provide for a new railroad undercrossing along Kirkland Way which will allow installation of five-foot sidewalks as well as bike lanes on the north and south side of Kirkland Way. In addition, the clearance between the new roadway surface and the railroad bridge will be increased to alleviate frequent damage by passing vehicles. Site distance and intersection geometrics will also be addressed by the project. The non-motorized facilities along Kirkland Avenue/80th Street ped/bike overpass connect to a regional non-motorized route and the lack of facilities at Cross Kirkland Corridor crossing prevents a continuous route to downtown Kirkland. This project ranks high on the Ad-Hoc evaluation criteria. Due to potential change in use of the corridor by King County's acquisition, solutions to this intersection may be modified in future CIPs.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	KIRKLAND WAY/EASTSIDE RAIL CORRIDOR ABUTMENT/INTERSECTION IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Construction will significantly impact regular train service on the Eastside Rail Corridor line as well as those motorists using Kirkland Way. Kirkland Way has an estimated average daily trips of 5,000 - 8,000 vehicles per day (1998).</i>
Community economic impacts	<i>Will provide for improved non-motorized facilities which connect to the Central Business District. Potentially lower incidence of vehicular insurance claims.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Sidewalks and bikelanes along this section of Kirkland Way will provide safer passage; site distance and clearance improvements will reduce potential for vehicular conflicts.</i>
Responds to an urgent need or opportunity	<i>Increased popularity and emphasis on non-motorized transportation increases likelihood of injury.</i>
Feasibility, including public support and project readiness	<i>Design and construction of the facility will be difficult due to the lack of alternate routes for trains and vehicles.</i>
Conforms to legal or contractual obligations	<i>The design standards will be established by Eastside Rail Corridor and construction will entail significant coordination and authorization with Eastside Rail Corridor.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will continue non-motorized facilities identified as Kirkland Avenue Sidewalk (NM-0002).</i>
Implications of deferring the project	<i>Potential for vehicle and/or non-motorized user conflicts, however with recent acquisition by King County, the entire BNSFRR corridor is likely to be utilized as a non-motorized facility and would change the possible solutions at this intersection.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Everest, Moss Bay</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? PROJECT TITLE	LAKE WASHINGTON BOULEVARD HOV QUEUE BYPASS		
PROJECT LOCATION	Southbound Lake Washington Boulevard onto westbound SR-520 at the south Kirkland city limits	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

This project will add approximately 500 feet of southbound HOV travel lane to Lake Washington Boulevard between the buffer zone of Cochran Springs Creek and the City of Bellevue at SR-520. The project will relocate existing pedestrian facilities, reconfigure the existing traffic signal at the intersection, and will require acquisition of commercial property currently occupied by a cold storage/meat packing facility. This project will require an interlocal agreement with the City of Bellevue and considerable coordination with the Washington State Department of Transportation. These improvements will allow the intersection to maintain a level of service less than the required 1.4 volume to capacity ratio.

PROJECT #	TR 0091 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 124TH ST/124TH AVE NE INTERSECTION IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction anticipated to last 6-8 months, minor traffic and pedestrian detours and delays can be anticipated.</i>
Community economic impacts	<i>Improvements to this intersection are required to sustain development in the Totem lake area including expansion of Evergreen Hospital.</i>
Health and safety, environmental, aesthetic, or social effects	<i>The improvements will incorporate improved railroad crossing arms and be designed to minimize vehicular conflicts.</i>
Responds to an urgent need or opportunity	<i>Concurrency for surrounding development activity may not be reached if the improvements are not installed.</i>
Feasibility, including public support and project readiness	<i>Project requires acquisition of costly commercial real estate and will present significant design and construction challenges</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to comply with professional and legal guidelines and requirements.</i>
Responds to state and/or federal mandate	<i>Concurrency under the Growth Management Act requires that sufficient facilities be constructed to handle growth.</i>
Benefits to other capital projects	<i>Will improve vehicular level of service in the Totem Lake area in conjunction with other planned improvements in the six-year CIP.</i>
Implications of deferring the project	<i>Continued escalation of costs, potential for the City to not meet concurrency requirements.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Totem Lake, North Rose Hill</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: City maintains less than 1.4 V/C at intersection <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	NE 116TH STREET/124TH AVE NE NORTHBOUND DUAL LEFT TURN LANES		
PROJECT LOCATION	South leg of intersection	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

This project will reconstruct the south leg (124th Ave NE) of the intersection to allow for two northbound left-turn lanes from 124th Ave NE to NE 116th Street. It will require signal modifications and lane reconfiguration. Due to projected traffic volume increases at this intersection, and in order to remain consistent with a maximum volume to capacity ratio of 1.4, the improvements must be constructed.

PROJECT TITLE	NE 116TH STREET/124TH AVE NE NORTHBOUND DUAL LEFT TURN LANES
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, anticipated to last three to four months, traffic impacts and delays are anticipated. Pedestrian facilities that are impacted during construction will be coordinated with transit operations.</i>
Community economic impacts	<i>Intersection improvements will allow continued commercial and residential growth consistent with the Puget Sound Regional Council growth projections thereby leading to the continued prosperous development of Puget Sound.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Congestion resulting from poorly designed transportation systems lead to poor air quality, driver frustration, and possible traffic accidents.</i>
Responds to an urgent need or opportunity	<i>Will be required by the City's planning horizon of 2022.</i>
Feasibility, including public support and project readiness	<i>Intersection improvements at strategic locations throughout the City are favored over additional capacity through the addition of travel lanes that may be more of an impact to neighborhoods. The design and community outreach that will take part with this project will attempt to address local resident and business concerns during construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to meet professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>The Growth Management Act requires that communities develop concurrent development of infrastructure to meet growth; this project allows that concurrency for the transportation network.</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>City will not meet concurrency goals established for the 2022 transportation network.</i>

PROJECT TITLE	NE 132ND STREET/124TH AVENUE NE INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	Intersection of NE 132nd Street/124th Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Extend existing eastbound left turn lane to 500 feet and add a second 500 foot eastbound left turn lane. Widen and restripe east leg to match west leg, widen and restripe north leg for 1,000 feet to provide 2 northbound through lanes with 1 southbound left turn lane and 1 southbound through/right turn lane. Restripe south leg to match north leg; these improvements will allow this intersection to maintain a vehicular level of service less than the required 1.4 volume to capacity ratio. Project is subject to anticipated funding through development activities and related revenues.

PROJECT TITLE	6TH STREET AND CENTRAL WAY INTERSECTION IMPROVEMENTS PHASE 2		
PROJECT LOCATION	6th Street and Central Way	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Install multiple upgrades to the existing signalized intersection. Phase I was completed in 2011, and resulted in signal improvements, water main upgrade, concrete roadway, pedestrian and bicycle lane improvements, and illumination at the intersection of 6th Street and Central Way. Phase II will result in a new signature "Gateway" to the Central Downtown area of Kirkland, and frontage improvements on 6th Street, additional travel lanes, a bicycle lane, and pedestrian improvements. This project is seeking external funding, and will complement TR 0104 (6th Street & 4th Avenue Intersection Improvements).

PROJECT TITLE	6TH STREET AND CENTRAL WAY INTERSECTION IMPROVEMENTS PHASE 2
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Pedestrian and vehicle traffic disruption during construction of individual projects.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Congestion resulting from poorly designed transportation systems lead to poor air quality, driver frustration, and possible traffic accidents.</i>
Responds to an urgent need or opportunity	<i>Will be required by the City's planning horizon of 2022.</i>
Feasibility, including public support and project readiness	<i>Intersection improvements at strategic locations throughout the City are favored over additional capacity through the addition of travel lanes that may be more of an impact to neighborhoods. The design and community outreach that will take part with this project will attempt to address local resident and business concerns during construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to meet professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>The Growth Management Act requires that communities develop concurrent development of infrastructure to meet growth; this project allows that concurrency for the transportation network.</i>
Benefits to other capital projects	<i>Will improve vehicular level of service in the downtown area in conjunction with other planned improvements in the six-year CIP.</i>
Implications of deferring the project	<i>City will not meet concurrency goals established for the 2022 transportation network.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Moss Bay, Highlands</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? <i>No</i> Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	KIRKLAND INTELLIGENT TRANSPORTATION SYSTEM IMPLEMENTATION, PHASE II (CITY WIDE)		
PROJECT LOCATION	Various locations	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Project includes initiatives identified in adopted Kirkland ITS Strategic plan not addressed in Phases I or IIC . Goal is to reduce arterial travel time and accident rates and provide access to I-405 and the rest of the City. It will implement ITS improvements and integrate Phase I and IIC ITS corridors to ensure compatibility with Central Traffic Management, Communication and Traveler's Information Systems. Project will standardize, upgrade and integrate traffic signals and other ITS devices along arterial corridors to allow traffic monitoring, traffic data collection and better traffic management, all vital to City's goals for Totem Lake Urban Center. Its measures include signal interconnection, traffic signal equipment upgrades such as video detection, CCTV, controller cabinet assemblies, service cabinets, system loops/data collection stations, fiber optic communication to/from City's proposed TCC (Traffic Control Center). Additional intersections may also be included in order to complete the ITS strategic plan.

PROJECT TITLE	KIRKLAND INTELLIGENT TRANSPORTATION SYSTEM IMPLEMENTATION, PHASE II (CITY WIDE)
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Temporary traffic and pedestrian delays during testing of installed system which is anticipated to last 1-2 months.</i>
Community economic impacts	<i>This project will allow the City to improve the transportation level of service and reduce intersection congestion.</i>
Health and safety, environmental, aesthetic, or social effects	<i>N/A</i>
Responds to an urgent need or opportunity	
Feasibility, including public support and project readiness	<i>Project will not require the acquisition of private property.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed to meet legal and professional requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Completing network system will allow for remote monitoring and communication of signal systems.</i>
Implications of deferring the project	
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	KIRKLAND INTELLIGENT TRANSPORTATION SYSTEM IMPLEMENTATION, PHASE IIB (TOTEM LAKE URBAN CENTER)		
PROJECT LOCATION	NE 132nd Street, 120th Avenue/124th Avenue NE in Totem Lake	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Implementation of ITS upgrades at 9 intersections formerly on King County's network (6 of which are located in the newly annexed area) to integrate them into Kirkland's Phase I ITS (presently under design) and implementation of ITS improvements at 11 signals located at NE 132nd Street and 120th Avenue/124th Avenue NE corridors to connect these corridors to the City's new Traffic Management Center, Communication and Traveler's Information System constructed in the Phase I ITS project. Includes system engineering analysis, design, plans and specifications for the procurement and construction/installation of ITS devices such as controllers, cabinets, detection, CCTV and other related devices and for the fiber optic communication system that will allow devices to communicate to Kirkland's central traffic management facility presently under design.

PROJECT TITLE	SLATER AVENUE NE TRAFFIC CALMING - PHASE 1		
PROJECT LOCATION	Slater Avenue from 100th Street NE to NE 112th Street	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION	
Construct traffic calming measures along Slater Avenue. Measures include constructing a traffic circle at NE 105th Street, two curb bulbs at NE 108th Place, and a mid-block raised crosswalk and two curb bulbs at NE 112th Place. In addition, an activated emergency vehicle beacon will be installed at NE 100th Street if further study deems it necessary.

PROJECT TITLE	SLATER AVENUE NE TRAFFIC CALMING - PHASE 1
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction pedestrians and drivers using Central Way will experience minimal construction impacts and delays; additionally, during construction it is anticipated that available parking will be disrupted as the project is built.</i>
Community economic impacts	<i>Improved pedestrian routes will promote increased safe foot traffic and reduce dependence on vehicular traffic.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Create pedestrian-friendly atmosphere by providing upgrades that could reduce potential risk to pedestrians crossing Central Way.</i>
Responds to an urgent need or opportunity	<i>Community input has identified the desire for additional pedestrian facilities throughout the City. The improvements along the south side of Central Way were originally described in the Central Way corridor improvement project adopted by Council in 2005.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will supplement similar improvements constructed on the north side of Central Way with ST-0074. (Central Way Improvements)</i>
Implications of deferring the project	<i>N/A</i>
