Chapter I: General RFP Information

OBJECTIVE OF THIS RFP

The purpose of this RFP is to solicit proposals to recommend and assist in the upgrade or replacement of a Parking Management Equipment. We will consider proposals from single vendors or from multiple vendors working as a team. The ideal vendor(s) will have experience in implementing parking management system solutions in businesses and/or local government agencies of similar size to Kirkland, and in larger agencies.

BACKGROUND

THE CITY OF KIRKLAND

The City of Kirkland is located just across Lake Washington from Seattle, Washington, and just north of Bellevue with some contiguous borders. Kirkland is the second largest city on the eastside of Lake Washington, and the twelfth largest in the State of Washington. Our population is approximately 84,680.

KIRKLAND’S CURRENT PARKING PROGRAM

The City of Kirkland operates a complex parking system, which can be identified in two types of zones: commercial and residential. The commercial zones with city-managed parking include Totem Lake Center, Juanita Village and Downtown Kirkland. Totem Lake Center & Juanita Village both operate with time restricted on-street parking restrictions and no off-street parking managed by the City. Downtown Kirkland contains on-street parking and off-street parking lots managed by the City. The remainder of the City is made up of residential zones which operate with on-street call-based parking restrictions.

The three city owned parking lots, all located in Downtown Kirkland, includes; Lakeshore Plaza, Lake & Central, and the Municipal Garage. The Lakeshore Plaza parking lot which contains approximately 121 parking stalls is located adjacent to Marina Park in Downtown Kirkland. Lakeshore operates with time restrictions before 5PM and charges an hourly fee between 5PM and 9PM, Monday through Saturday. The Lake & Central parking lot contains approximately 59 parking stalls and is located at the intersection of Lake St & Central Way. Lake & Central charges an hourly fee between 9AM and 9PM, Monday through Saturday. The Municipal parking garage contains approximately 343 parking stalls and is located beneath the Kirkland Library at the intersection of Kirkland Ave & 3rd St. The Municipal garage contains three different zones of parking: library only parking, hourly restricted public parking, and permit only parking between 9AM and 5PM, Monday through Saturday.
Chapter I: General RFP Information

The City currently manages one Residential Parking Zone (RPZ) located in the Juanita Neighborhood in north Kirkland. This RPZ is managed using a permit display system with no fees.

The Kirkland Police Department’s Traffic Unit operates with two full-time Parking Enforcement Officers (PEO). The PEO’s patrol Totem Lake Center, Juanita Village but primarily operate in Downtown Kirkland.

CITY OF KIRKLAND CURRENT PARKING SYSTEMS

Parking Ticket Handheld Equipment: The PEO’s currently use AutoISSUE parking ticket handheld equipment by Duncan Technologies (version 2.62). The handhelds are 12 years old and routinely malfunction and need servicing. We also can no longer order replacements because of the age of the units.

Parking tickets created on the AutoISSUE handhelds are integrated with the Administrative Office of the Courts Judicial Information System (JIS) to reduce ticket data-entry. This is done through the VRV Court Parking Ticket Transfer interface maintained by CodeSmart, Inc.

Parking Enforcement License Plate Reader System: The PEO vehicles are equipped with an AutoVu License Plate Reader (LPR) software client (version 6.3.139.7), and hardware. The LPR system employs a camera and GPS technology to record vehicle license plates, location, length of time in parking space and license plate lists for wanted/stolen vehicles and permitted vehicles. The current LPR system is a client/Server application, with Genetec’s Security Center Server (version 5.3.SR4) on the server and uses a Microsoft SQL relational SQL Server 2012 Standard – 64-bit.

Pay Parking Lot Paystations: The parking lots with parking fees are equipped with Cale MPC terminal paystations which are currently unable to integrate with the handheld equipment or mobile payment options. The current paystations use a pay-and-display method of paid parking. The desire is to move to a pay-by-plate method of paid parking.

Mobile Pay Parking Solution: The City recently signed an agreement with PayByPhone to provide mobile payment options for our parking lots, and we are in the process of implementing the service. Due to our inability to connect the handheld equipment with any mobile payment options, the PEO’s currently carry an additional mobile device to be able to review mobile payment purchases.
REQUESTED SERVICES

We are looking for a firm or partnered set of firms to provide the City with equipment pricing and implementation services to replace or have the ability to work with our existing vendors to integrate the current system and provide a whole package;

- Parking Ticket Handheld Equipment including integration with the Administrative Office of the Court JIS system.
- Pay Parking Lot Paystations
- Integration with all components of the Parking Management systems including: Parking Ticket Handheld Equipment, existing Parking Enforcement License Plate Reader System, Pay Parking Lot Paystations and Pay-by-Phone mobile payment option.

The successful candidate will provide pricing for all upgraded PEO equipment hardware and software with at least two years of service support, as well as assist with hardware and software installation, and knowledge transfer to City staff. Any new features will be priced separately.

Pricing to replace current paystations with pay-by-plate capabilities, and PayByPhone Inc. software will also be provided as part of the response.

Note: The successful candidate will be required to sign the City’s Non-Disclosure Agreement (see Attachment B).

DELIVERABLES

The following deliverables are to be provided by the Proposer. Additional deliverables may be identified during the initial meetings between the Proposer and the City.

- Project Management services and project plan
- Parking Management System Upgrade Plan
- Specifications for all hardware and software components. Licensing, warranty and support contracts for all hardware and software components.
- Professional services that include, but are not limited to setting up the integration of the handheld equipment, the AOC JIS system, the paystations with paybyphone Inc services, as well as, training and knowledge transfer for City staff on new processes, support and troubleshooting of system and equipment management.

- Note: cutover will require a side-by-side or parallel implementation so that the current system remains in service during the upgrade process.

COOPERATIVE PURCHASING

RCW 39.34 allows cooperative purchasing between public agencies (political subdivisions) in the State of Washington. The City of Kirkland does not accept any responsibility for purchase orders issued by other public agencies.

PROPOSAL PREPARATION

General Information

It is important that all bidders read this section carefully. Failure to comply with these instructions may result in your proposal being removed from consideration by the City.

Proposers must prepare proposals using a word processor and electronic versions of the forms provided in Chapter II of this RFP. The City of Kirkland is using a “forms-based” approach to this procurement. This will allow all the bids received to be compared in a meaningful (i.e., “apples-to-apples”) way. The RFP contains, in addition to the General RFP Information, a series of Response Forms.

PROPOSAL SUBMISSION

The following provides specific instructions for submitting your sealed proposal.

Due Date: Sealed Proposals must be received by the Purchasing Agent no later than January 10th, 2017, at 3 p.m. (Pacific Time). Late proposals will not be accepted nor will additional time be granted to any Proposer unless it is also granted to all Proposers. Proposals sent by email must be time stamped as received by Kirkland’s system by 3:00 p.m. We prefer that proposals be submitted by email. Emailed proposals should include “Proposal Job #53-16-PW” in the subject line and be addressed to: purchasing@kirklandwa.gov (Emailed proposals must be in MS Word or PDF format and cannot exceed 20MB). All proposals and accompanying documentation will become the property of the City and will not be returned.

Number of Copies: If submitting a paper proposal, the original plus four (4) copies of all proposals in printed form must be submitted in a sealed envelope or box with the following words clearly marked on the outside of the envelope, “Parking Equipment Upgrade or Replacement RFP.” The vendors name and address must be clearly indicated on the envelope.

The City will not accept facsimile.

EVALUATION PROCEDURES

The RFP coordinator and other staff will evaluate the submitted proposals.

The evaluators will consider how well the proposed solution meets the needs of the City as described in the Proposer's response to each requirement and form. It is important that the responses be clear and complete so that the evaluators can adequately understand all aspects of the proposal. The evaluation process is not designed to simply award the contract to the lowest cost Proposer. Rather, it is intended to help the City select the Proposer(s) with the best combination of attributes, including price, based on the evaluation factors. The City reserves the right to require that a subset of finalist Proposers make a presentation to a selection team.

FORM 3: HANDHELD REQUIREMENTS

[Using the form provided as Form 3, complete the Requirements document following the instructions provided on the form. Each item should have a ranking and a specific qualitative comment about how the software supports the requirement. Vendors should not modify the document format, font or layout in their response.

This section includes the Requirements to be evaluated in this RFP. This document will become Form 3 of your RFP response. Use the electronic format provided with this RFP package. This is not a comprehensive list of all of the City’s requirements, but includes the key requirements that will be used to evaluate the RFPs and will be included as part of the signed contracts. Each item has been provided a ranking of R, I, N or E. A ranking of “R” indicates a feature is preferably Required, “I” indicates the feature is Important to the final decision, a ranking of “N” indicates the feature would be Nice to Have in a solution, and a ranking of “E” represents areas to Explore in the overall solution. Software applications that are missing a significant number of required features and technology preferences may be eliminated from consideration.

Vendors must provide a rating for every item for Core Modules. If the requirement does not pertain to the proposal being submitted, enter “N/A”. In addition, each line item should include a brief explanation of how the required item is supported. Do not modify the format, font, numbering, etc. of this section. If a submitted RFP includes blank responses the document may be considered in violation and rejected. Vendors are encouraged to respond by either providing a response to requirements based on Vendor-offered solutions, or by identifying third party partnership solutions.

These are additional instructions included in the form for vendor response and vendor rating system:

1) Vendor Response

<tbody>
<tr>
<td>3P</td>
<td>Supported with third party software (i.e. software not directly owned or controlled by the vendor submitting the proposal).</td>
</tr>
<tr>
<td>C</td>
<td>Customization is required to meet the requirement (e.g. changes to the underlying code must be made; a new table must be created; etc.) This causes additional upgrade work in order to implement new versions or upgrades.</td>
</tr>
<tr>
<td>F</td>
<td>Future functionality: Supported in the next release of the software.</td>
</tr>
<tr>
<td>N</td>
<td>Not supported.</td>
</tr>
</tbody>
</table>

2) If the vendor responds with 3P, C, or F, the vendor must provide additional information in the comments column:
Chapter II: Required Proposal Response Forms

5. If the Proposer has had a contract terminated for default during the past five years, all such incidents must be described. Termination for default is defined as notice to stop performance due to the Proposer's nonperformance or poor performance; and the issue was either (a) not litigated or (b) litigated, and such litigation determined the Proposer to be in default.

In the space provided, submit full details of all terminations for default experienced by the Proposer during the past five years, including the other party's name, address, and telephone number. Present the Proposer's position on the matter. The City will evaluate the facts and may, at its sole discretion, reject the proposal if the facts discovered indicate that completion of a contract resulting from this RFP may be jeopardized by selection of the Proposer.

If no such terminations for default have been experienced by the Proposer in the past five years, declare so in the space provided.

If the Proposer has had a contract terminated for convenience, nonperformance, non-allocation of funds, or any other reason which termination occurred before completion of the contract during the past five years, describe fully all such terminations, including the name, address, and telephone number of the other contracting party.

A Proposer response that indicates that the requested information will only be provided if and when the Proposer is selected as the apparently successful Proposer is not acceptable. Restricting the Proposer response to include only legal action resulting from terminations for default is not acceptable.

PROPERTY OF THE CITY OF KIRKLAND

All materials (including, for example, proposals) submitted in response to this RFP shall become the property of the City of Kirkland. Selection or rejection of a proposal does not affect this.

RFP AMENDMENTS

The City reserves the right to change the schedule or issue amendments to the RFP at any time. The City also reserves the right to cancel or reissue the RFP.

PROPOSER’S COST TO DEVELOP PROPOSAL

Costs for developing proposals in response to the RFP are entirely the obligation of the proposer and shall not be chargeable in any manner to the City.

become part of the contract that is negotiated between the City and the successful Proposer.

**CITY TAXATION**

The contractor awarded said contract will be required to purchase a City of Kirkland Business License.

CONSENT TO PROCEDURE

Proposers, by submission of materials marked “CONFIDENTIAL”, acknowledge and agree that the City will have no obligation to advocate for nondisclosure in any forum and has no liability whatsoever to any Proposer for the disclosure of any material or record of any kind when that disclosure is in accordance with applicable law or in accordance with an order of a court of competent jurisdiction. applying applicable law entered by the King County Superior Court or a Washington appellate court. ACQUISITION AUTHORITY

This RFP and acquisition are authorized pursuant to RCW 39.04.270.
CONTRACT AWARD AND EXECUTION

♦ The City reserves the right to make an award without further discussion of the proposal submitted. Therefore, the proposal should be initially submitted on the most favorable terms the Proposer can offer. It is understood that the proposal will become a part of the official file on this matter without obligation to the City.

♦ The general conditions and specifications of the RFP and as proposed by the City and the successful Proposer's response, as amended by agreements between the City and the Proposer, will become part of the Professional Services Agreement, Attachment C, which the Proposer will be required to sign. Additionally, the City will verify Proposer representations that appear in the proposal. Failure of the Proposer's products to meet the mandatory specifications may result in elimination of the Proposer from competition or in contract cancellation or termination.

♦ The Proposer selected as the apparently successful Proposer will be expected to enter into a contract with the City.

♦ If the selected Proposer fails to sign the contract within five (5) business days of delivery of the final contract, the City may elect to cancel the award and award the contract to the next-highest-ranked Proposer.
