		21 to up.....	\$160.00 for the first 20 and \$40 per each 20 additional devices or fraction thereof

CITY OF KIRKLAND FIRE ALARM SYSTEMS - SUBMITTAL REQUIREMENTS

A permit is required prior to installation or revision of a fire alarm system. A completed City of Kirkland Fire Protection Permit Application and three (3) complete sets of plans shall be submitted for approval. The submittal MUST include those items from the following list that pertain to the design of the system.

1. Name of job and job address (including room or suite number if a tenant improvement).
2. Working plans drawn to an indicated scale, on sheets of uniform size, with a plan of each floor.
3. Floor layout showing all rooms and beams, soffits, etc, that might affect detector placement or spacing, including accurate measurements.
4. Identification of each room or space, e.g. guest room, mechanical room, lunchroom, office, conference room, etc.
5. The location of each system component using an appropriate symbol.
6. Explanatory notes or legend to lend clarity to the plan and identify manufacturer and model number of each alarm component used.
7. A wiring schematic clarifying type and size of wiring.
8. Zoning when applicable.
9. Copy of the installation instructions and manufacturer's specifications for all equipment and devices.
10. Battery and voltage drop calculations for compatibility.
11. Name, telephone number, and contractor license number of the installing company.
12. In general, the plans should indicate only information and equipment relating to the fire alarm system. Plans containing large amounts of extraneous information, such as plumbing or mechanical information, which make the fire alarm plans difficult to read, may be returned to the fire alarm company for revision prior to review and approval.

Fire Sprinkler Systems – Submittal Requirements:

- Fire Sprinkler Systems Submittals shall be in accordance with section 14.1.3 of the 2002 Edition of the NFPA 13.
- It is not necessary to pay for the permit at the time of submittal.
- The fire plans examiner will review the drawings and assess the appropriate fee based on the information provided on the plans.
