Sensitive Area Boundaries
The boundaries of the sensitive areas displayed on this map are approximate. Field verification of all sensitive areas is necessary in order to properly determine exact boundaries. Additional sensitive areas that have not been mapped may be present on a development proposal site.

Bald Eagle Nesting Sites
The Washington Department of Fish and Wildlife (WDFW) makes no guarantee concerning the data's content, accuracy, completeness, or the results obtained from queries or use of these data. WDFW makes no warranty of fitness for a particular purpose, no representation as to the quality of any data, and assumes no liability for the data represented here. These data do not represent exhaustive inventories, but are compilations of existing knowledge from field biologists that are updated periodically as knowledge improves. This data should be used cautiously because they are not exhaustive, and are subject to change. When conducting projects or planning for fish and wildlife, please consider using additional information gathered from field investigations and consultations with WDFW or other professional biologists.

If you have questions about specific sites, or would like to report an update in nesting activity or nest condition, please contact the Bald Eagle Management biologist in your county.

Primary Basins – The following basins, as shown on the Sensitive Areas Map: Juanita Creek, Forbes Creek, South Juanita Slope, Yarrow Creek, and Carillon Creek.

Secondary Basins – The following basins, as shown on the Sensitive Areas Map: Moss Bay, Houghton Slope A, Houghton Slope B, and Kirkland Slope.
