New York City, New York

INDOOR RECREATION

A VARIETY OF PROGRAMS FOR ALL AGES AND ALL SEASONS

INDOOR RECREATION

A VARIETY OF PROGRAMS FOR ALL AGES AND ALL SEASONS

1. How satisfied are you with Kirkland's public indoor recreation facilities?

2. A wide array of activities exist today – from sports courts, to aquatics, to fitness, to walking/running. What recreation opportunities are missing?

3. Are there specific ages or age groups that need access to additional programs? What types of activities/programs should be available to them?

OUTDOOR RECREATION

PARKS, PLACES AND SPACES FOR ACTIVE LIFESTYLES

EXISTING ASSETS

youth playfields
Emerson High Field

dog park
Jasper's Dog Park

swimming pool
Peter Kirk Park

playgrounds
Houghton Beach Park

baseball + softball fields
Peter Kirk Park

waterfront docks

- Principal Arterials
- Minor Streets
- Highways

OUTDOOR RECREATION

PARKS, PLACES AND SPACES FOR ACTIVE LIFESTYLES

1. How satisfied are you with your neighborhood's parks? How about other Kirkland parks that you visit?
2. Is there a demand for more park space in your neighborhood? Where?
3. What other types of outdoor activities or park uses should Kirkland provide? What is missing? What is needed?
4. Are today's parks sufficient to keep our growing population healthy, active and engaged in 2035? How should the park system serve a changing Kirkland?
5. What are your top priorities for Kirkland's parks, facilities and amenities?

E

CONSERVATION

GROWING A GREEN LEGACY FOR THE FUTURE

1. Why do you value Kirkland's natural areas? As a place to hike or walk? Part of a great view? For their contributions to wildlife and stormwater quality?
2. How important is it to acquire and preserve lands as natural areas compared with other uses of parkland and City resources?
3. Have you participated in natural area restoration through Green Kirkland or other restoration opportunities? What would make you want to participate if you haven't already?
4. What do you want kids to remember about growing up in Kirkland?

E

GREEN LINKAGES

CONNECTING TO KIRKLAND'S PARKS

1. What streets or other rights of way do you use to access or get between parks?

2. What are the key routes you *would* take, but don't because of access restrictions or other concerns?

3. Where are the missing links?

4. What improvements to streets would encourage you to walk or bike more frequently?
