MEMORANDUM

To: Park Board

From: Jeff Rotter, Parks Maintenance Supervisor
Kevin Ball, Office Technician

Date: December 31, 2013

Subject: Marina Park Moorage and Boat Launch Presentation

Recommendation:

That the Park Board receive a presentation on a proposed increase in fees for moorage and boat launch use at Marina Park.

Background Information:

The Kirkland Marina is one of the jewels of the City. The marina hosts thousands of people each year, it is home to multiple commercial and tour vessels, and provides a portal to the City for visitors and business commerce.

Following the 2013 boating season, staff determined that the City's marina-related fees needed consideration of updating. Fees for moorage and boat launch were last increased in 2008.

Current moorage fees are based on various size groupings, instead of per-foot pricing, and can appear to be inequitable. As a result, virtually every boat is charged a different rate; smaller boats pay more per foot for moorage and power, than larger boats – often times twice as much.

Additionally, staff research has revealed that Kirkland's current moorage and boat launch fees are considerably below the market rate for the area. The current average for marinas with daily moorage is \$1.37 per foot; Kirkland's fees average \$0.60 per foot. With the proposed increases, the City's moorage fees would remain 45% lower than those at surrounding marinas and boat launch fees would remain below the area average for residents and non-residents by 45% and 25% respectively.

Moorage Fees

Current rates and fee structure

Vessel Length	Monday - Thursday	Fri., Sat., Sun., Holidays & Special Events
0' to 20'	\$8	\$12
21' to 30'	\$9	\$14
31' to 34'	\$14	\$17
35' to 40'	\$17	\$20
41' to 50'	\$20	\$24
51' to 60'	\$27	\$32
61' to 74'	\$32	\$40
75' to 99'	\$40	\$50
100' +	\$76	\$90
Power Charge	\$10	\$14
Additional fees required for power		

Proposed rates and fee structure

Vessel Length	Daily Moorage Rate	Additional Power Fee*
0' to 39'	\$0.75/foot	\$5
40' +	\$0.75/foot	\$10
*Charged for powered slips		

Boat Launch Fees

Current rates

Boat Launch Access Card Fees	
Registration Fee (one time)	\$10
Kirkland Resident	\$35
Non-Resident	\$70
Single Day Pass	\$18
Three Day Pass	\$32
Commercial Rate	\$200

Proposed rates

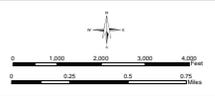

Boat Launch Access Card Fees	
Registration Fee (one time)	\$10
Kirkland Resident	\$50
Non-Resident	\$100
Single Day Pass	\$20
Three Day Pass	\$35
Commercial Rate	\$200

By updating the fee structure and increasing the rates, the City would be brought in-line with local marina standards, create equity in per-foot moorage fees, provide better financial forecasting, and allow additional funds for ongoing maintenance and improvements to the City's docks. The modest fee increases shown on the above tables are conservatively estimated to generate an additional \$56,000 in revenue annually.

Subject: January Staff Update

RECREATION DIVISION

- Recreation staff have been working with the GIS division in the Information Technology department to create comparison maps that show home addresses of our participants for the past five years. Two pages are attached to the staff update showing registration by neighborhood for 2009 and for 2013. Not only has registration increased in the last five years, as seen in the table below, but so has participation by residents of the newer neighborhoods.

Year	# of Unique Addresses	# of Registered Services
2009	2,514	8,231
2013	3,170	13,554

Youth Basketball and Aquatics

- Youth basketball games begin the weekend of January 11th at Kamiakin and Kirkland Middle Schools. Each of the 44 teams will play eight games on Saturdays and continue to practice twice a week at local elementary schools within the Lake Washington School District through mid-March.
- Youth basketball referees have been hired to officiate at the Saturday games. Referees attended training on December 14th where teams volunteered to play in practice games providing the opportunity for the refs to get hands-on experience prior to the season.
- With the desire to be more involved in the Kirkland community, the City of Kirkland and Northwest University Basketball began a partnership this basketball season. Northwest University Men's and Women's basketball coaches lead a free coaches' clinic for City of Kirkland volunteer coaches, teaching new skills, techniques and drills. Volunteer coaches found the training extremely valuable and appreciated learning new tools to use at practice

Sports and Fitness

- Christine Maloney has been hired to take over as the yoga instructor in the Move It! fitness program. Christine has been trained on Yinyasa style yoga and has experience teaching youth and adults. Her first class day will be January 8th. Welcome Christine!
- The winter adult sports season will begin the week of January 6th. Participation numbers have held steady but interest and number of wait-listed teams has grown. There are currently a total of six teams on the waitlist. Staff would like to include them in the league but due to the lack of gym space and time, the City cannot accommodate them. The deficiency of gym time within the Lake Washington School District has been an issue for a few years but this is the first time that the department has had so many teams on the waitlists.
- Sport staff is gearing up for spring registration. Volleyball and dodgeball registration will begin on January 6th and spring and summer softball will be available on February 3rd. Over the next few

weeks staff will focus on local marketing to spread the word and encourage local business and residents to join this spring. In addition, the popular pee wee soccer league will begin registration in February. Staff are expecting a large number of parents to register their children for the league.

Peter Kirk Community Center

- The PKCC Advisory Board welcomed four new members during their December meeting; the new members will officially begin their terms in January.
- The Peter Kirk Community Center's annual Holiday D 'Lights celebration took place on December 13th. Nearly 100 seniors participated in this favorite yearly event. The meal was sponsored by Aegis Lodge and Aegis Kirkland again this year.

MAINTENANCE DIVISION

Athletic Fields

- The 2014 first-season allocation meeting is scheduled for January 14th at the Maintenance Center. All current applicants are invited to attend.

Notes from the Field

- The Peter Kirk restroom project is coming along. Progress has been slow but the site is starting to take shape with the recent installation of tile, flooring, sinks, toilets and lighting. In early January, the facility will receive partitions and painting. Pictures to come in February.
- During the winter months, staff focuses on projects, training and maintenance in preparation for the next summer. The Horticulture & Natural Areas teams have been going through each park doing catch-up work in the landscape beds weeding, cleaning, mulching and pruning. The Ballfield division has been working on fence repair, drainage and finishing up the turf renovations. The Support team has been spending time keeping the rental properties in good order with work on plumbing, wiring and appliances. Additionally, they will perform some painting at the pool and other tasks preparing for the summer season.
- Staff handled the first snow event of the season very well and received nice feedback from the Fire department on the response. It is always nice to hear from the internal customers as well.

GREEN KIRKLAND PARTNERSHIP

- A thank-you email was sent out to all Green Kirkland volunteers expressing appreciation for the impact that all volunteers make on Kirkland's natural areas, whether they volunteer once or multiple times a year.
- As of January 1st, Ina Penberthy is employed as the Green Kirkland Partnership's On-Call Environmental Outreach Specialist. Ina has done excellent work as an intern, initially hired to work on the Kirkland component of Forterra's federal grant and initially paid through Forterra's grant. The department is pleased that Ina will be continuing part-time work on GKP technical projects/tasks.
- Green Kirkland staff continue to work with Green Kirkland Stewards and partners to finalize the 2014 restoration plans for all active parks. All Stewards have turned in the plans for their parks and throughout January GKP staff will be adding to and approving the plans.
- On December 14th, 22 volunteers gathered at the North Juanita Open Space to plant over 100 trees and shrubs. Volunteers came from the surrounding neighborhood and from the International School's Environmental Club. As the grass continues to grow and new native plants are put in the cleared areas, neighbors' excitement about the Open Space increases. Thanks to Parks Maintenance for their continued collaboration on this project.
- On December 2nd, 8 volunteers from the City Church Intern program volunteered at Juanita Heights where they moved 10 cubic yards of mulch from the street into the park. While mulch moving provided a great workout for all participants, it also kept volunteers warm as snow fell from the sky.

- The following table summarizes Green Kirkland Partnership events and other activities conducted by volunteers in November. It includes event volunteers and ongoing volunteers (ongoing field and administrative work).

MEMORANDUM

To: Park Board

From: Tim Werner, Parks Maintenance Supervisor
Jason Filan, Park Operations Manager

Date: January 3, 2014

Subject: North Juanita Open Space Update

Recommendation:

That the Park Board receive an update on the status of improvements made at the North Juanita Open Space.

Background:

Following the Park Board's direction in June, 2013, to proceed with improvements to the North Juanita Open Space, staff and neighborhood volunteers have made considerable progress in restoring the natural areas at site. Some of the highlights include:

- Removal of Invasive plants – Goats, machinery and, most importantly, a lot of hard work by dedicated neighbors and volunteers have transformed this once over-grown blackberry patch into a restoration site in progress.
- Site Survey – A survey was completed that identifies the property's boundaries.
- Restoration beginnings – Through a couple of volunteer events this fall, 165 native plants and shrubs have already been planted. In addition, the lawn areas have been seeded and are showing growth.

Currently, staff is working with a few younger neighborhood volunteers on a survey project while they earn their Girl Scout Silver Badge. The project will involve the girls going door-to-door gathering feedback on the neighborhood's preferences on play area features.

Approximately \$15,000 in funding remains available to invest into the play area. From the feedback received by the participating Girl Scouts, a play area recommendation will be presented to the Park Board in spring.

Concurrent with the Girl Scouts' neighborhood survey project, staff will present a couple of site layout options for the Board to consider at its January meeting.

From: Michael Cogle, Deputy Director

Date: January 3, 2014

Subject: Parks, Recreation and Open Space Plan Update

Recommendation

That the Park Board receives a briefing on the update to the PROS Plan.

Background

At your January meeting, staff will update the Board on the PROS Plan Update process, including upcoming key milestones and public events.

Tentatively, the Park Board and City Council are scheduled to hold a joint study session to review a draft Plan on April 1st. Please add this meeting to your calendars.

MEMORANDUM

To: Park Board

From: Jennifer Schroder, Director

Date: January 3, 2014

Subject: Juanita High School Pool Status

Recommendation

That the Park Board receives an update on planning for possible replacement of the swimming pool at Juanita High School.

Background

At your January meeting, staff will update the Board on planning for possible replacement of the Juanita Aquatic Facility. The City Council is scheduled to review the topic at a study session on Tuesday, January 21st.

In addition, staff will be attending a public presentation by Wave Aquatics at the Lake Washington High School auditorium beginning at 5:30 p.m. on Tuesday, January 7th. Wave Aquatics will present their plan for a new aquatics center at that time.
