MEMORANDUM

To: Houghton Community Council
From: David Godfrey, Transportation Engineering Manager
Date: January 17, 2014
Subject: Transportation Master Plan and Cross Kirkland Corridor

RECOMMENDATION

1. Review the January 7, 2014 City Council agenda packet (see link below) on the Transportation Master Plan (TMP) and receive a brief presentation and overview of the process.
2. Receive a brief presentation on the status of the Cross Kirkland Corridor (CKC) interim improvements and master plan. Materials for review are available on the CKC website (see link below).

BACKGROUND DISCUSSION

Note: The purpose of this agenda item is to update the Community Council on these two important projects. Only about 20 to 30 minutes is available so there is not adequate time at this meeting (January 27) to get into much detail. Please let staff know if you would like to devote more time on a future agenda to either topic.

Transportation Master Plan (TMP) – The City Council received an update on the TMP at their January 7, 2014 study session. Please review the [City Council packet](#) that includes draft goals for the Transportation Element of the 2035 Comprehensive Plan.

Cross Kirkland Corridor (CKC) – The Interim Trail improvements described on the [CKC website](#) are underway. Work on the Draft CKC Master Plan is also proceeding. This will establish key elements of a regional paved trail and a potential regional transit pathway along the corridor. At the January 27 meeting, staff will have updated materials to share in preparation for a February 4 City Council Study Session.
