REPEAL ZONING CODE INTERPRETATION

NUMBER	REPEALING	EFFECTIVE DATE	APPEAL PERIOD
14-2	Inter. 12-1	4/25/2014	NA

Ordinance 4437, adopted on March 18, 2014 and effective on April 25, 2014 included Zoning Code amendments that codify interpretation 12-1. A description of this interpretation and the reason for repeal follows:

Inter. 12-1 (KZC 115.43.5.a) CONCERNING DEVIATIONS FROM GARAGE REQUIREMENTS FOR DETACHED DWELLING UNITS IN LOW DENSITY ZONES discusses the situation where the location of a preexisting improvement can be considered in evaluating proposed deviations from garage requirements in low density zones. Ordinance 4437 amends this section to incorporate this modification criterion into the code. Therefore, the interpretation is no longer necessary and is repealed.
