

## **2013 – 2015 Planning Work Program**

The Planning Work Program establishes the tasks, schedule and staffing levels for the City's major long range planning projects. The work program identifies the major projects over a three year time period – however, the primary focus is on the tasks to be undertaken in the first year.

The work program is reviewed annually by the Planning Commission and a recommendation by the Commission is made to the City Council – typically at a joint meeting between the Commission and the Council. In 2013 the meeting was held on February 19, 2013. For more information on that meeting click on the following link: [Joint Meeting](#).

The Council considers the recommendation and then adopts the work program with revisions as appropriate by resolution. The current 2013-2015 Planning Work Program was adopted by the City Council on March 19, 2013 (Resolution R-4969).
