Project Update: Sidewalk Design Continues
Elementary School Walk Route Enhancement

October 2010

Open House
Tuesday, November 9th
3:00-5:30pm
Meet on site: 110th Avenue NE east side of the street (if it is raining we will bring an open tent structure to stand under).
If you are unable to meet at this time, please call the number below for a special meeting with the engineer.

Planning Design Construction Complete

- Safe School Walk Routes
- Continuous Sidewalk Facilities
- Pedestrian Safety Education

October 25, 2010 Update: The field survey work is complete. Adjacent residents are invited to meet with the Project Engineer to review the preliminary design and provide feedback to be taken into account prior to finalizing the construction drawings.

Project Overview: The City has been awarded a State grant to construct walk route enhancements at seven Lake Washington School District Elementary School locations. The grant addresses the top priority route at each public elementary school and proposes to connect sidewalks, construct curb and gutter and make storm drainage improvements. Education and enforcement along School Walk Routes is also part of the grant.

Why: The project focuses on pedestrian safety by providing children a safe, healthy alternative to riding the bus or being driven to school. These projects will help close the gap in the pedestrian facilities linking neighborhoods to their elementary schools.

Where: East side of 110th Avenue NE; from NE 116th Street leading into the northwest school entrance. See map on reverse side.

When: The project is currently in the design phase. As part of the design, field survey has been completed by the City’s consultant PACE Engineers, Inc. Sidewalk construction is scheduled for summer 2011, and expected to be complete before school starts in the fall of 2011.

What to Expect: In order to identify potential issues and plan for the construction phase, adjacent residents are invited to an informal open house to review the plans and talk directly to the project engineer on November 9th from 3:00 to 4:30 on site. For those who are unable to meet at this time (picked because of daylight), please call the number below to arrange a special meeting with the engineer.

How You Can Help: Your cooperation is greatly appreciated and will help make this project successful. If you have any questions or concerns please contact us.

Thank you in advance for your patience and cooperation as we make improvements to your neighborhood. Please contact us should you have any questions or concerns. We will keep you updated as the design phase progresses. For the latest project information, go to: http://www.ci.kirkland.wa.us/depart/Public_Works/Capital_Improvements.htm
