Keep **F**ats, **O**ils & **G**rease
Out of Your Drain!

123 5th Ave.,
Kirkland, WA 98033
(425) 587-3900

What Can I Do?

Following a few simple steps, you can help prevent sewer backups and spills:

Siga estos pasos para ayudar a evitar cañerías obstruidas y derrames de las alcantarillas:

- 1.** Pour cold fats, oils and grease into a covered, disposable container and throw it into your garbage. Never pour fats, oil, or grease down sink drains or toilet. **COOL IT, CAN IT & TRASH IT.™**

Coloque las grasas y los aceites frios en un contenedor desechable y con tapa y tirelo a la basura. Nunca tire las grasas en los drenajes de su casa.

- 2.** Soak up spilled oils and grease with an absorbent material such as paper towels or kitty litter and throw into your garbage.

Absorba las grasas y los aceites restantes con un material absorbente como servilletas de papel y tirelos junto con su basura.

- 3.** Before you wash dishes, scrape food scraps, fats, oils and grease into your garbage. To avoid odors and bugs, consider using a paper bag or biobag to collect the food waste before putting it in the food or yard waste cart.

Antes de lavar los platos, tire los restos de alimentos, grasas y aceites en la basura.

- 4.** Use sink strainers to catch any remaining food waste while washing dishes.

Utilice coladores para fregaderos al lavar los platos para atrapar los restos de comida restantes.
