

Potential Walkability scores March 18, 2011

Factor (within 1/4 mile crow flight)	Explanation	Nodes			
		Houghton	Bridle Trails	Rose Hill	Downtown
<b>Number of businesses</b>	More businesses generally implies more destinations. This number does not depend on type or size of businesses.	113	54	113	313
<b>Street Centerline miles</b>	More streets means more opportunities for connectivity and better walkability	3.48	2.88	3.05	5.28
<b>Fraction of streets with sidewalks complete on at least one side</b>	Indicates the amount of sidewalk completion.	82.7%	56.4%	51.5%	75.3%
<b>Fraction of "barrier" streets</b>	Barrier streets are those where a marked crosswalk alone would not be adequate to provide a crossing.	21.5%	8.7%	24.6%	9.1%

These factors will be scored and weighted, but more nodes need to be evaluated to determine appropriate scores.
