IV BACKGROUND

The City of Kirkland Fire Department (the City) operates seven (7) EMS transport units; each is cross staffed with a fire unit. Transport units are staffed by firefighter/EMT-B crews, and collectively, they complete approximately 2,500 BLS-emergency transports annually. The City does not provide inter-facility BLS transport services, and advanced life support (ALS) transports are provided with full funding from the King County Medic One system at no charge.

Patient care reports (PCR) are currently completed on paper prior to transfer of patient care. When the crew returns to the station, a run report/Patient care record is created in Zoll-RMS and the paper PCR is referenced under the same incident number. The City is currently implementing an electronic patient care records (EPCR) system utilizing ESO Solutions services and tablet PCs. Implementation is expected to be complete within six (6) months.

V SCOPE OF SERVICES

This section outlines minimum contract requirements for billing, collection, financial, and analytical services. Minimum requirements are listed here; however, the City of Kirkland is open to alternatives to meet the requirements described below.
