

Debt Service Funds account for the payment of general obligation bond principal and interest from governmental resources and the payment of special assessment bond principal and interest from special assessment levies when the City is obligated in some manner for the payment.

GENERAL GOVERNMENT DEBT SERVICE FUNDS

There are three types of debt generally issued by the City for general government purposes:

- **Unlimited Tax General Obligation (UTGO) Bonds** represent debt that was approved by voters for a specific purpose. In this case, citizens have agreed to levy property taxes to repay the debt generally over a twenty-year period.
- **Limited Tax General Obligation (LTGO) Bonds** (also called Councilmanic Bonds) can be issued with approval of the City Council. The debt is repaid from general revenues of the City.
- **Local Improvement District (LID) Bonds** represent debt that is repaid by the property owners who benefited from the capital improvement through annual assessments paid to the City. LIDs are formed by the City Council after a majority of property owners agree to the assessment.

The City's debt management policies provide guidelines for the appropriate use of debt. The complete policies are contained at the beginning of this document in the Fiscal Policies. Some key debt management policies include:

- *City Council approval is required prior to issuance of debt.*
- *The City will only use debt to finance capital improvements that cannot be financed through current revenues. The City will not use debt to finance current operations, non-capital furnishings, supplies, or personnel.*
- *Bonds will be issued for a period not to exceed the useful life of the asset being financed.*

- *The City will conduct a thorough analytical review before issuing debt and maintain a good credit rating at all times.*
- *The City's outstanding debt will remain within the limits stated in the City's fiscal policies.*
- *The City will use refunding bonds (refinancing) to restructure current outstanding debt when sufficient savings can be realized from lower interest rates.*

When the City issues debt, a thorough review of the City's financial condition is completed by bond rating agencies. Based on their findings, the bonds are given a rating. The City's bond rating is a reflection of its creditworthiness and affects the cost to the City of issuing debt. There are two rating agencies – Standard and Poor's (S&P) and Moody's Investor Service – that rate Kirkland's bonds. As of January 2003, the City's ratings were AA (S&P) and Aa2 (Moody's).

Once bonds are rated, the City enters the bond market to secure the necessary funding. Occasionally, the City will conduct an "over-the-counter" sale where City staff sell bonds directly to Kirkland residents. The proceeds (cash) received from selling the bonds are placed in a capital projects fund to account for the cost of constructing the capital improvement. Separate funds have been created to track the principal and interest payments for limited, unlimited, and LID bonds. Each year a sufficient amount of revenue is budgeted and placed in each fund to pay the annual principal and interest due.

Debt service funds are used to account for principal and interest payments used for the retirement of long-term debt. Debt is used by the City as a means of financing capital improvements. By extending the repayment of debt over the anticipated useful life of the improvement, the cost of an improvement can be more equitably spread among the citizens who benefit from the improvement. Bonds are sold and the proceeds (cash) are used to pay for the construction of capital improvements. The bonds are repaid over a period of time from taxes, fees, or other revenue sources dedicated for that purpose.

CITY OF KIRKLAND SCHEDULE OF LONG TERM DEBT

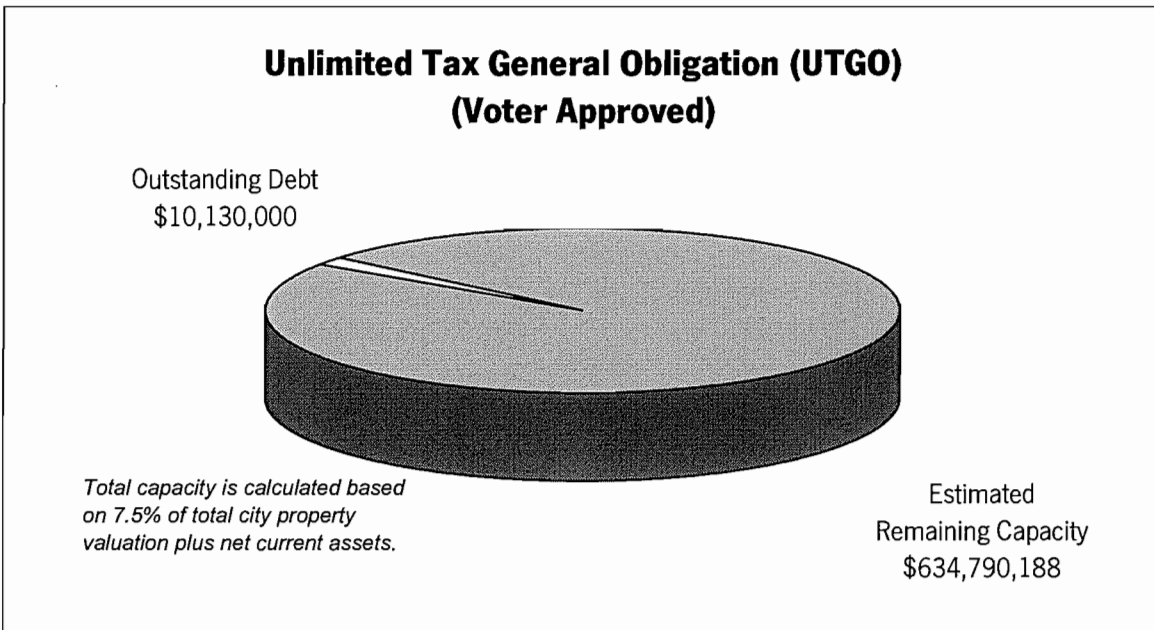

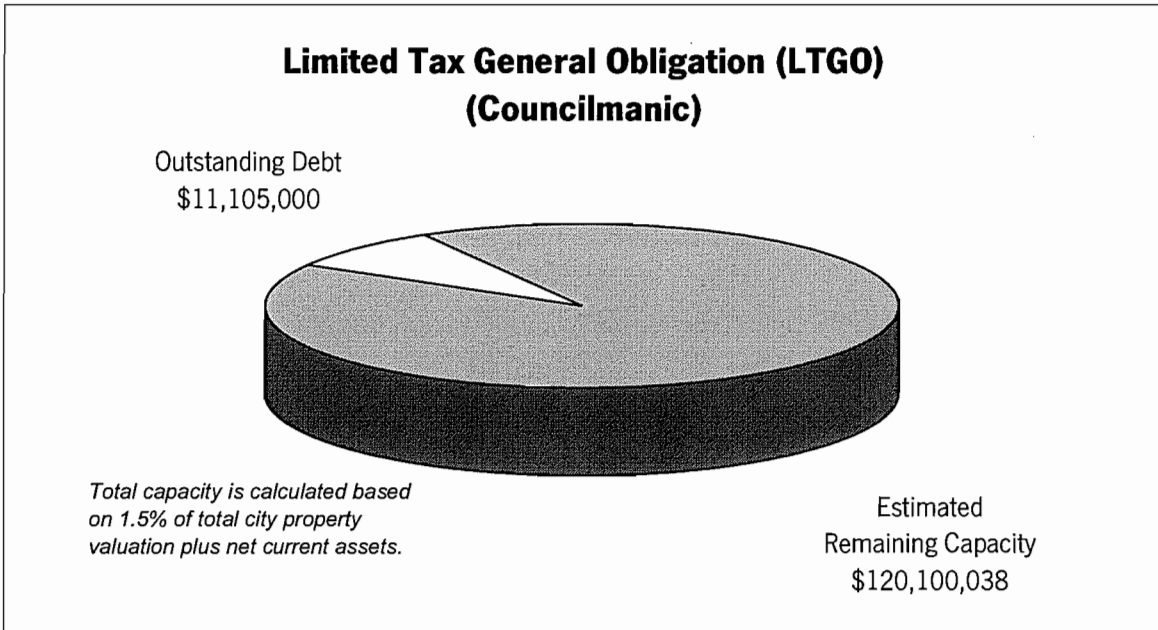

The City uses long term debt to finance the cost of large capital improvements. Councilmanic debt is repaid from general revenues. Voter approved debt is retired from property tax increases put in place for the life of the bond issue. Revenue bonds are repaid from water/sewer utility rates. The following schedule identifies current outstanding long-term debt.

CITY OF KIRKLAND DEBT CAPACITY

Washington State law imposes limitations on the total amount of debt that a city can have outstanding. This is calculated based on the combination of a percentage of total assessed property valuation plus the net of current assets and liabilities. This comprises the City's "Debt Capacity" at any one time. The following graphs compare the total estimated capacity available to the City's indebtedness:
