

**Addendum #1**  
**Geotechnical Report Peer Review**  
**Request for Qualifications**  
**Job #37-18-PV**

**Notices:**

The RFQ for Geotechnical Report Peer Review is hereby amended with the modifications listed below.

The City of Kirkland has modified project 37-18-PB from a Request for Proposals to a Request for Qualifications. As the selection will now be qualification based, the language below has been removed from the Request for Qualification.

**Modify solicitation from Request for Proposals to Request for Qualifications:**

~~Rate and Service Structure~~

~~Hourly Rate and project responsibilities shall be provided for all staff members on the qualified firm team. If additional charges are assessed for mileage, indicate charge per mile. Also detail any minimum hourly requirements. Otherwise, this rate should be all-inclusive.~~

~~Qualified Firm Selection Criteria~~

~~Qualified firms will be evaluated based on the completeness of the proposal, experience in providing the requested services, qualifications of the individual and/or team, availability, and anticipated costs.~~

Addendum issued on September 21, 2018.
