MEMORANDUM

To: Planning Commission

From: Joan Lieberman-Brill, AICP, Senior Planner
Adam Weinstein, AICP, Deputy Planning Director

Date: October 30, 2018

Subject: Public Hearing - 2018 City Initiated Comprehensive Plan Amendments,
File Number CAM18-00363

Staff Recommendation

Conduct a public hearing to consider public comment on the 2018 City initiated amendments to the Comprehensive Plan and Zoning Map and make a recommendation to the City Council for their final decision. These amendments will be considered by the City Council immediately following the adoption of the biennial budget and 2019-2024 Capital Improvement Program at their December 11, 2018 City Council meeting.

Background

The Planning Commission (PC) and Houghton Community Council (HCC) held study sessions on this cycle of amendments on August 23 and August 27, respectively. Follow these links to the [August 23 Planning Commission meeting video](#) and the [August 27 Houghton Community Council meeting audio](#). Background information on the proposed amendments is provided in the staff memorandums prepared for the PC and the HCC. Follow these links to view the memorandums [Parts 1 -3 of the Aug 23 PC packet](#) and [Parts 1-3 of the Aug 27 HCC packet](#). (The only difference between the two memorandums is that Capital projects in Houghton's jurisdiction are highlighted on page 4 of the memorandum prepared for HCC.) The HCC had no substantive comments on the proposed amendments at their study session.

The 2018 amendments include Capital Facilities Plan (CFP) updates resulting from changes to funding or timing of existing capital projects, project completion, or the addition of new projects; a rezone of one recent park property acquisition; the replacement of existing geologically hazardous area maps to reflect recent adoption of updated Zoning Code Chapter 85 Critical Areas: Geologically Hazardous Areas regulations; and several minor housekeeping amendments that are not policy related.

At the Planning Commission study session, Commission members requested that a disclaimer be added to the geologically hazardous areas maps to acknowledge that verification is required to determine the boundaries of a hazardous area. This disclaimer

would be similar to the statement on the Kirkland Sensitive Areas Map for wetlands, streams and lakes, and has been added to all maps in Attachment 4.

All amendments are in the attachment section of this memorandum and are summarized below:

Proposed Amendments

This year's annual update includes:

1. **Amendments to the Capital Facilities Element** are necessary because the Growth Management Act requires that the CFP be reconciled annually with the 6 year Capital Improvement Program. The amendments will bring the CFP Project Tables CF-5 through CF-10 into consistency with the 2019 -2020 biennial budget and the 2019-2024 Capital Improvement Program scheduled for approval this December. Attachment 1 to this memorandum contains the revised Project Tables that will replace the current versions. Attachment 2 is a summary of the proposed changes to all CFP Tables between 2017 and 2018. Any additional modifications between now and December will be incorporated into the adopting ordinance.
2. **Park property land use redesignation and rezone** are proposed on two parcels to bring their land use designation and zoning classification into consistency with their intended use. The two parcels, comprising about 0.5 acres of undeveloped and forested open space, will be added to the **Juanita Heights Park** in the Finn Hill Neighborhood. Attachment 3 is a map of the parcels.
3. **Amendments to each neighborhood chapter and the Environment Element** are proposed to replace existing Geologically Hazardous Areas Maps with new ones that were adopted as part of amendments to the Critical Areas: Geologically Hazardous Areas Chapter 85 Zoning Code regulations. These amendments were adopted to ensure the regulations reflect Best Available Science. The new geographic data is represented on two new maps: landslide susceptibility (areas susceptible to landsliding based on steepness of slope and strength of geologic materials) and liquefaction potential (areas that have deposits that could liquefy in the event of earthquake shaking). Attachment 4 contains the new neighborhood and citywide landslide susceptibility and liquefaction potential maps.
4. **Miscellaneous technical updates with no policy implications**
 - Transportation Element - map amendment adds street names to the Street Classification and State Routes Map (Figure T-15) for context and clarification (see Attachment 5).

- Introduction Chapter - text amendment corrects the date of the Juanita, Finn Hill and Kingsgate (JFK) annexation, which was 2011, not 2001 (see Attachment 6).

Decisional Criteria for Amending the Comprehensive Plan

The following Factors to Consider in Approving an Amendment to the Comprehensive Plan, found in Zoning Code Section 140.25, must be considered when reviewing City initiated amendment requests (the summarized analysis of each factor is in italics, below):

1. The effect upon the physical, natural, economic, and/or social environments.

Approval of amendments to the Capital Facilities element to reflect the adopted 6-year 2019-2024 CIP and biennial budget will, in general, mitigate demands on public services. Environmental impacts are addressed in State Environmental Policy Act (SEPA) review documents prepared for the CIP.

2. The compatibility with and impact on adjacent land uses and surrounding neighborhoods.

The park rezone will be consistent with the intended park use.

3. The adequacy of and impact on public facilities and services, including utilities, roads, public transportation, parks, recreation, and schools.

The revised CFP will help ensure that infrastructure keeps pace with growth, and that funds for major capital projects are allocated accordingly.

4. The quality and location of land planned for the proposed land use type and density.

The proposed rezone will bring the zoning and land use of park property into consistency with the intended use.

5. The effect, if any, upon other aspects of the Comprehensive Plan.

The proposed amendments to the Plan have been reviewed to ensure internal consistency.

The city may amend the Comprehensive Plan only if it finds that the following Criteria found in Zoning Code Section 140.30 are met:

1. The amendment must be consistent with the Growth Management Act (GMA).
2. The amendment must be consistent with the countywide planning policies
3. The amendment must not be in conflict with other goals, policies, and provisions of the Comprehensive Plan.

4. The amendment will result in long term benefits to the community as a whole, and is in the best interest of the community.
5. When applicable, the proposed amendment must be consistent with the Shoreline Management Act and the City's adopted shoreline master program.

These amendments reconcile the CFP with the revised 2019-2024 Capital Improvement Plan and biennial budget. The amendments will be in the best interest of the community because, among other things, they fund the acquisition of additional land to expand Juanita Heights Park. In addition, Amendments to add new geologically hazard area maps bring the Plan into consistency with GMA requirements for critical areas policies to meet best available science.

SEPA

The requirements of the State Environmental Policy Act of Chapter 43.21C RCW and Chapter 197-11 WAC have been met by issuance on October 11, 2018 of a SEPA Addendum to the 2035 Comprehensive Plan Environmental Impact Statement (EIS).

Next Steps

- December 11, 2018 City Council adoption
- January 2019 Houghton Community Council final approval
