DETERMINATION OF NON-SIGNIFICANCE (DNS)

Case No.: SEP17-00051         DATE ISSUED: December 21, 2018

Project Name: GOAT HILL OUTFALL

Project Location: 9000 block of NE 116th Place and NE Juanita Drive, and a portion of the northwest corner of Juanita Beach Park.

Project Description: Construction of a new storm pipe ranging in size from 18-inches to 30-inches in diameter, two (2) flow splitters and a “bubble-up” outfall structure, outfitted with a debris cage.

Proponent: Aaron McDonald, City of Kirkland

Project Planner: Sean LeRoy, Planner

Lead Agency: City of Kirkland

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency.

☑ This DNS is issued using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS.

Date: December 18, 2018
Adam Weinstein, Planning & Building Director

☑ There is no administrative appeal period for this DNS (KMC 24.02.230(a))

Distribute this notice with a copy of the Environmental Checklist to:
