

Notes from March 20 Evergreen Hill Association Meeting	Theme area 1	Theme area 2	Theme area 3
Environmental impact statement needed - SEPA. A) Parking, noise, light, traffic, etc.	Vegetation and ecosystem	Parking & traffic	Noise
Neighborhood nature of park. Community has invested in volunteer projects.	Neighborhood park	Community consultation & involvement	
Is balance possible? Details matter.	Accessibility	Neighborhood park	
Impact on park due to growth, open play is important, heavily used today.	Vegetation and ecosystem	Passive space	Programming of use
Only three meetings for neighborhood planning.	Community consultation & involvement		
No community consultation, when did park type change?	Community consultation & involvement		
South end water	Water		
Don't want other neighbors, gangs, or homelessness.	Accessibility		
Turning it into a regional draw.	Accessibility	Programming of use	
Already overloaded but now it will be scheduled.	Programming of use		
Low-income kids: where will they go?	Accessibility		
Process was a surprise - why no early master plan, why wasn't community involved in decision.	Community consultation & involvement	Park design	
Vision is to have more field access.	Sports facilities		
Any plans to purchase park properties for neighborhood?	Community consultation & involvement	Property rights	
Hazen Hills Park: no development, has turned into a local dog park.	Dogs	Park design	
North park closes at dusk, quiet.	Hours of use	Noise	
Community Park - Stay beyond dusk, when do they go home? Hours of use, respect the park, "It's my backyard," other neighbors coming to the park. We don't want them.	Hours of use	Accessibility	
There will be an increase in activity later at night.	Hours of use		
Proximity of users to park.	Accessibility		
Older groups/kids hanging out longer.	Hours of use		
Where will they park? Parking garage?	Parking & traffic		
Litter, maintenance, clutter, noise, crime.	Waste management	Noise	Crime
Have you seen how the park is used now? Lots of open play.	Passive space		
Tired of cleaning up after Parks Department (along fence, etc.)	Waste management		
Opportunity beyond footprint of turf to improve entire park.	Turf	Park design	
Fence? What time are lights on?	Fencing	Lighting	
Entrance on the West and South side. A) Easements: who do they belong to?	Entrances	Property rights	
Don't affect our sledding hills.	Winter activities		
Bowl was intentional.	Park design		
Parking? They already park down street.	Parking & traffic		
Cottonwood trees: branches are dangerous/falling	Vegetation and ecosystem		
Park is fine the way it is.	Park design		
We all love the park.	Park design		
Chemicals coming off of the synthetic turf.	Turf	Vegetation & ecosystem	
Equity of ballfield/turf fields is the goal. Can they balance who gets access?	Accessibility	Programming of use	Sports facilities
Pea patch/picnic shelter/tree management are opportunities.	P-patch	Picnic facilities	Vegetation and ecosystem
Develop Kamiakin acreage.	Park design
