CITY IMPROVES SIDEWALK ACCESS FOR ALL TRAVELERS PG. 7

Kirkland
AN ACCOUNTABILITY REPORT OF THE STREETS LEVY

On the RISE
Pavement conditions are improving. The Streets Levy is a major reason why. PG. 14

Rock, oil & labor
Kirkland explores solutions for the rising costs of contracted street maintenance. PG. 10
WHAT THE LEVY ACHIEVES

Kirkland’s residents approved the Streets Levy in 2012 to better protect their street network and improve pedestrian safety. For six years, the Levy has been funding projects that accomplish this.

STREET PRESERVATION *(paved and/or preserved 91 lane-miles of streets)*

The fundamental goal of the Streets Levy is to keep Kirkland’s street network in good condition. It achieves this by increasing the lane-mileage the City can repave and preserve every year. In its first six years, levy-funds have helped the City repave approximately 28 lane-miles of arterials and protect 63 lane-miles of residential streets. The Street Preservation Program has completed 29 percent of the 20-year goal in five years. See Pages 4 & 5.

SCHOOL WALK ROUTES *(helps improve established school walking routes)*

An extensive public participation process in 2001 resulted in a list of 38 priority walk routes, with the goal of completing the list by 2020. See Page 17.
Passage of the Streets Levy came with an ambitious promise: Replace 32 damaged in-pavement crosswalk flashers with Rapid Flashing Beacons, and then install 18 more.

Six years in, the levy has paid for the installation of 21 sets of Rapid Flashing Beacons—42 percent of the 20-year goal.

Private development and two other City of Kirkland programs—the Capital Improvement Program and the Neighborhood Safety Program—have paid for the installation of another 26 Rapid Flashing Beacons throughout the city.

The Neighborhood Safety Program has helped Kirkland improve safety for walking and bicycling by funding 45 projects aimed at making walking and bicycling more feasible for more people. The Neighborhood Safety Program also funds the implementation of neighborhood traffic control devices to slow traffic on residential streets. Kirkland also leverages its overlay program to improve bicycling safety. See Pages 7-15.
ANOTHER **15.45 LANE MILES**

The levy funded 3.26 of the 5.5 lane-miles Kirkland repaved in 2018 and 5.7 of the 9.9 lane-miles of residential streets it slurry sealed in 2018.

The Levy helped Kirkland add five to eight years of life in 2018 to 9.9 lane-miles of neighborhood roads in the Kingsgate Neighborhood.

The levy also helped Kirkland repave 5.5 lane-miles on sections of five arterials. Those five streets are:

- 90th Ave. NE (NE 134th St. to NE 139th St.)
- Sixth Street (Ninth Ave. to 12th Ave.)
- Fifth Street (Central Way to Ninth Ave.)
- NE 80th St./116th Ave. NE
- Second St. S./First & Third aves. S.

**LEGEND**  Refer to legend on Page 5 for more details

- Streets repaved with 2018 levy and City funds
- Streets slurry sealed with levy funds in 2018
PROGRESS CONTINUES

By 2032, the levy is on track to preserve 240 lane-miles of neighborhood roads and repave 90 lane-miles of arterials.

Kirkland’s residents approved an ambitious set of goals in 2012 when they passed the levy: seal every eligible neighborhood road; repave 90 lane-miles of arterials; repair potholes; and reduce long-term maintenance costs for roads. This map tracks progress toward achieving those goals.

LEGEND

- Streets repaved in 2018
- Streets repaved in 2017
- Streets repaved in 2016
- Streets repaved in 2015
- Streets repaved in 2014
- Streets repaved in 2013
- Neighborhood/collector roads sealed with slurry seal since 2013
- Cross Kirkland Corridor
THE BENEFIT OF early ACTION

As road conditions decline, the costs to repair roads skyrocket. The levy is helping Kirkland preserve roads before this happens.

**Condition:** A few superficial cracks  
**Treatment:** Slurry seal  
**Cost:** $3,400/city block

**Condition:** Linear & “alligator cracks”; rutting  
**Treatment:** Crack seal/resurface  
**Cost:** $49,000/city block

**Condition:** Extensive “alligator cracks;” potholes  
**Treatment:** Reconstruct  
**Cost:** $165,000/city block
Every year, the City of Kirkland improves sidewalk access for those who travel by wheelchair, with the aid of a white cane or other forms of mobility- or sight-assistance. Kirkland’s Street Preservation program has rebuilt 408 curb ramps since 2013, when the first year Streets Levy funds became available. The levy has paid for 169 of them.

In 2018, the Streets Levy paid for the reconstruction of 35 curb ramps. This is part of a long-term effort to ensure all travelers can safely ascend and descend each of Kirkland’s nearly 4,000 curb ramps.

Fundamental to that effort is mounting a tactile warning strip, which is often the only clue a vision-impaired traveler is entering a traffic zone. For those who travel by wheelchair, having a landing at the top of the curb ramp—a flat space to turn—can make the difference between traveling safely on a sidewalk or unsafely in the street.
SUGGEST-A-PROJECT

Residents suggested more than a third of the projects included in the Capital Improvement Program’s list of funded transportation projects.

Kirkland residents have suggested more than 1,000 projects since 2011, when Kirkland leaders unveiled an interactive map that invites the public to contribute ideas. More than a third of those suggestions are in the 2017-2022 Capital Improvement Program. That list includes the design of 100th Avenue Northeast and the design of the Totem Lake Connector Bridge on the Cross Kirkland Corridor, Neighborhood Safety Program Projects, School Walk Routes, and the Lakefront Pedestrian and Bicycle Improvements. The list also includes bicycle greenways and pedestrian and bicycle safety improvements along Juanita Drive.

WHAT RESIDENTS SUGGEST

- **24%** DRIVE
- **58%** WALK
- **6%** Maintenance
- **24%** BIKE
- **2%** OTHER
- **3%** PARKS

Search “suggest a project” on [www.kirklandwa.gov](http://www.kirklandwa.gov)
TAKING SUGGESTIONS

The Streets Levy is funding resident’s Suggest-A-Project ideas through the Neighborhood Safety Program.

The Neighborhood Safety Program has built all of the 45 approved projects that residents first requested since 2014 through the Suggest-A-Project interactive mapping system.

The 2018 levy helped fund two 2018 projects:

- Rapid Flashing Beacons on NE 70th Street at 120th Ave; and
- Partial funding of the Radar Speed Signs on Kirkland Way.

LEGEND

Green icons indicate levy-contribution to the respective project.

- RFB = Rapid Flashing Beacons
- Crosswalk
- Connection to CKC trail
- Left-turn pocket
- Bike improvement
- Reflective pavement marking
- Extruded curb or walkway
- Intersection improvement
- Speed radar sign
- Cross Kirkland Corridor
Construction begins this summer on the Totem Lake Gateway—a street and sidewalk restoration project that will revitalize some of the sections of Totem Lake Boulevard and 120th Avenue Northeast that surround The Village at Totem Lake. Most of this project’s design and construction is funded by a $4.83 million grant the City of Kirkland won in November 2017 from the Transportation Improvement Board. Acquiring these kinds of grants is one of the opportunities Kirkland’s leaders are pursuing to prevent the rising cost of asphalt from inhibiting the City’s continuous effort to maintain its street network.

“The City is also leveraging partnerships with private developers and relying more than ever
on its own streets division to pave shorter sections of roadway,” said Kirkland Public Works Director Kathy Brown.

Asphalt prices in the Puget Sound region are bending sharply upward this year, due largely to escalating oil prices and strong demand for asphalt and labor.

The Washington State Department of Transportation, for example, will be using an estimated 1.3 million tons of asphalt this year.

Regional demand for labor shows up in the form of contractors’ ever-escalating project bid prices.

Paving a typical street in 2013, for example, cost approximately $17,000 per city block. “That street would have required minimal structural patching,” said George Minassian, Kirkland’s streets engineer. In 2019, paving that same city block would cost roughly $49,000.

This cost difference does not account for the more intensive work the City’s overlay program has been performing in the last few years.

“In the last few years, we have been addressing streets that require more structural patching, which can be expensive,” Minassian said.
The Streets Levy in 2018 paid for a set of Rapid Flashing Beacons in South Rose Hill—indicated by the orange pedestrian symbol on the corresponding map. Kirkland’s capital improvement program funded two other sets of Rapid Flashing Beacons. Those are indicated by the red pedestrian symbols on the corresponding maps.

- NE 70th St at 120th Ave. NE
- Lake Wash. Blvd at NE 59th Street
- 124th Ave NE and NE 95th Place

The table on page 16 includes these projects.

The City of Kirkland—and its partners—have installed 47 sets of Rapid Flashing Beacons since 2012, when residents approved the Streets Levy. The levy funded 21 of those and contributed funds to three others.
PROGRESS TOWARD THE GOAL

By 2033, the levy will have paid for 50 Rapid Flashing Beacons throughout the City.

With its Complete Streets Ordinance, school walk routes, Rapid Flashing Beacon Initiative, and crosswalk flag program, Kirkland has asserted its commitment to walkability. The voter-approved Levy allows the City to improve safety at 50 crosswalks by 2033. This map shows Kirkland’s completed Rapid Flashing Beacons, as well as the planned locations of future levy-funded Rapid Flashing Beacons.

- ◼ Rapid Flashing Beacons built by others (3 RFBs)
- ◼ Rapid Flashing Beacons built prior to the levy (10 RFBs)
- Cross Kirkland Corridor
MAKING IT ALL POSSIBLE

The levy allows Kirkland to complete pedestrian safety and street preservation projects that it would not otherwise be able to pursue. In 2018, the levy empowered Kirkland to pave 5.5 lane-miles of arterials, preserve 9.9 lane-miles of neighborhood roads, stripe 18 crosswalks and improve sidewalk access at 63 curb ramps with the Street Preservation Program.

*The City of Kirkland will build four other priority sidewalks in 2019. See story on next page.*
Kirkland’s leaders are focused this year on completing the final six of 38 priority school walk routes identified in 2001 by a joint panel of leaders from the neighborhoods, the City, and the Lake Washington School District.

The City constructed two of those priority walk routes in 2018—the sidewalk along 108th Avenue Northeast, from Northeast 112th Street to Northeast 116th Street, as well as the sidewalk along 94th Avenue Northeast, from Northeast 124th Street to Northeast 128th Street.

Meanwhile, City engineers are nearing completion on the design of the remaining four other school walk route segments and will complete them in 2019.
Some local governments, including Kirkland, use a measure called the Price of Government calculation to help define a range of affordability for government services. The Price of Government is the sum of all taxes, fees and charges collected by the City, divided by the aggregated personal income of its constituents.

Many jurisdictions aim for a range of five to six percent. At four percent, Kirkland’s Price of Government is well below that range.

The Streets Levy accounts for less than 1.5 percent of Kirkland residents’ property taxes, and yet it pays for more than half of the City’s Street Preservation Program. The Capital Improvement Program pays for the other half—and that half includes Kirkland’s Streets Maintenance Division, which is responsible for smaller, more urgent jobs.

Property tax is one of the largest of Kirkland’s nine primary sources of revenue. It helps support the General, Street and Park levy funds. It accounts for nearly one-fifth of the City’s General Fund. State law limits Kirkland to an annual increase of its regular property tax levy by the implicit price deflator—a measure of inflation—or by one percent, whichever is less. State law also allows for new construction. Voters can give Kirkland authority to exceed this limit, which they did November 6, 2012, when they passed the street and park levies.
Alternate Formats: Persons with disabilities may request materials in alternative formats. Persons with hearing impairments may access the Washington State Telecommunications Relay Service at 711. Title VI: It is the City of Kirkland’s policy to ensure full compliance with Title VI of the Civil Rights Act of 1964 by prohibiting discrimination against any person on the basis of race, color, national origin or sex in the provision of benefits and services resulting from programs and activities. Any person who believes his/her Title VI protection has been violated, may file a complaint with the City of Kirkland. To request an alternate format or for questions about Kirkland’s Title VI Program Coordinator at 425-587-3011 or titlevicoordinator@kirklandwa.gov.
