

Free tools + resources for your business.

City of Kirkland offers the following free services and resources to help businesses reduce their impact on the environment and save money.

Recycle, Compost, Reduce Waste

Services to help you recycle better:

- › Site assessment to review and improve how you recycle
- › Right-size container sizes and pickup frequency
- › On-site staff training
- › Information to help you understand City policies:
 - › Plastic bag restrictions
 - › Required recycling capacity

Resources to help you recycle better:

- › Signs and bin labels — custom signs available for front-of-house
- › Deskside recycling bins
- › Compost, recycle and trash slim jims
- › Free food scrap compost service for qualifying properties
- › Staff training materials

Prevent Water Pollution

Services to help you protect local waters from pollution:

- › Storm drain markers for parking lots to remind staff and visitors that storm drains flow directly to local waterbodies
- › Stickers for outdoor waste containers to remind staff to keep dumpster lids closed
- › Spill kits to clean leaks and spills and prevent costly cleanup
- › Rain-wise landscape rebates for qualifying properties
- › Pollution prevention information

Resources to help you prevent sewage backups:

- › Restroom signs to keep non-flushables out of the toilet
- › Information to help you understand fat, oil, and grease (FOG) requirements
- › Poster of best management practices for handling FOG

Travel Better

Services to encourage alternate transportation:

- › Consultation about starting an alternative transportation program at your business
- › Poster and materials to inform your staff about transportation incentive programs
- › Personalized commute planning service for employees
- › ORCA small business transit subsidy to reduce cost of providing bus passes to staff

Save Water

Resources to help you use water efficiently:

- › Accessories to make your bathroom faucets more efficient and test for toilet leaks
- › Signs for sink areas to report leaks and conserve water

Free Marketing For Your Business
