1. Neighborhood Benefit/Support (0–60 points)

Please explain how the project will address a recognized safety need (especially with school kids or other vulnerable populations) and result in a positive and lasting neighborhood benefit (e.g., creates an important neighborhood pedestrian or bicycle connection):

This crossing is on a school walk route and is used by kids walking to elementary and middle school. High school kids also need to cross this street to get to and from their bus stop. Many pedestrians use this crossing. It also provides access to Spinney Homestead playfield and playground.

This proposal went out to the majority of Highlands residents via Nextdoor and email. (75% of our households are on Nextdoor and additional households are on email.) No one had any concerns.

Were adjacent neighbors who will be impacted by the project contacted (e.g., street lights)? Yes No

Is there support for the project within the neighborhood (e.g., businesses, schools, and PTAs)? Yes No

Note: Please attach letters, emails, or a petition of support for your project.

2. Community Benefit/Support (0–30 points)

Please explain how the project benefits people outside of the neighborhood (e.g., creates a community-wide connection):

This crossing connects to the NE 100th Street overpass to North Rose Hill.

Is there broad community support for the project outside the neighborhood (e.g., businesses, schools, and PTAs, and community groups)? Yes No We did not contact these groups.

Note: Please attach letters, emails, or a petition of support for your project.
