Background Information

The City of Kirkland is located on the eastern shore of Lake Washington. It is a suburban city, surrounded by other suburban cities and pockets of unincorporated King County. The City is near several major transportation routes including Interstate 405, State Route 520, and Interstate 5. These routes connect the City economically and socially to the greater Seattle area.

At the time of incorporation in 1905, the City of Kirkland's population was approximately 530. The current estimated population is 92,175. Kirkland is the thirteenth largest city in the State of Washington and the sixth largest in King County.

Since its incorporation, Kirkland has grown in geographic size to eighteen square miles - approximately twenty times its original size. This growth occurred primarily through the consolidation of the cities of Houghton and Kirkland in 1968, the annexations of Rose Hill and Juanita in 1988 and the annexation of North Juanita, Finn Hill, and Kingsgate areas in 2011.

Kirkland operates under a Council-Manager form of government. The City Council is the policy-making branch of Kirkland's government and consists of seven members elected at large to staggered, four-year terms. The Mayor is elected from within the Council. The City Council is supported by several advisory boards and commissions and the City Manager. The City Manager is appointed by the City Council and serves as the professional administrator of the organization, managing, coordinating, and overseeing its day-to-day activities.

Purpose and Background

The NMC129 Pedestrian Safety Improvements – Downtown and NE 124th Street project includes installation of HAWK pedestrian beacon signals, bulb-outs, median extensions, lighting and signal improvements, striping, and rechannelization at various locations along Central Way in downtown Kirkland and NE 124th Street in the Juanita neighborhood.

Both Central Way and NE 124th Street experience a high number of motorized and non-motorized daily trips through these corridors. NE 124th Street connects Interstate 5 to the Juanita neighborhood. Central Way connects Interstate 5 to downtown Kirkland and the marina.

The City and community worked closely in addressing a need for improvements in safety and walkability in these two neighborhoods. The intersection of Central Way and Market Street in particular has experienced accidents involving pedestrians in the past year, one of which was a fatality. The scope of work is being closely coordinated with both the 2020 Neighborhood Safety Program and Central Way Preservation projects, as the former will install safety improvements on Central Way in Summer 2021, and the latter will make repairs to the roadway following this project. LDC is prime consultant on both aforementioned projects. This project will also replace the existing Rapid Flashing Beacons on NE 124th St with HAWK beacons near the North Kirkland Community Center.

This \$1.655M project is funded through a combination of both federal Highway Safety Improvement Program funds and local matching dollars. Inclusion of federal funding will require

the successful firm to adhere to design and documentation requirements consistent with the funding sources.

Scope of Work

In general, the selected consultant is expected to develop Plans, Specifications, and Estimates (PS&E) for the above referenced project. The scope of work may include the following:

1. Investigate the project area and gather information and records necessary for engineering design. This may require multiple meetings and site visits with City staff, and coordination with third parties. Perform topographic survey and identify all existing utilities to prepare a project base map. All work is located within public right-of-way; it is anticipated that no other property rights will be needed.
2. Prepare 30 and 75 Percent Plans, Specifications, and Estimate of the selected design option for the City to review. The design shall adhere to City of Kirkland, State and Federal standards. The City adopts the most current version of the WSDOT Standard Specifications and Amendments modified by the City's Special Provisions.
3. Prepare a final submittal packet for construction – the Contract Documents, to include the Final Approved Plans, Specifications, Proposal, Contract, WSDOT Amendments, Special Provisions, and required appendices, conforming to the City's standard format.
4. Permitting support: Identify and prepare all necessary federal, state and local permit applications needed for the design (excluding construction-related permits), including NEPA/SEPA determination. It is anticipated that city reviews will include Shoreline Management Area and full drainage report.
5. A lighting analysis at Central Way and Market Street is included in this scope to determine what, if any, improvements are needed to bring this intersection into compliance.

Project Schedule

The project is intended to be constructed in the summer of 2022.
