(NMC1360000 – Job # 57-22-PW)
November 4, 2022**

Answers to questions received by 5:00PM on November 2, 2022:

Q1: Please confirm the project is intended to be constructed in the summer of 2023.

Answer: Because of this project's small size, we are anticipating a design period of approximately 6 months. This would put the construction NTP in summer of 2023. The construction schedule and environmental permits will likely mean substantial completion in 2024.
