## **City Background Information**

The City of Kirkland is located on the eastern shore of Lake Washington. It is a suburban city, surrounded by other suburban cities and pockets of unincorporated King County. The City is near several major transportation routes including Interstate 405, State Route 520, and Interstate 5. These routes connect the City economically and socially to the greater Seattle area.

At the time of incorporation in 1905, the City of Kirkland's population was approximately 530. The current estimated population is 92,110. Kirkland is the twelfth largest city in the State of Washington and the fifth largest in King County.

Since its incorporation, Kirkland has grown in geographic size to eighteen square miles - approximately twenty times its original size. This growth occurred primarily through the consolidation of the cities of Houghton and Kirkland in 1968, the annexations of Rose Hill and Juanita in 1988 and the annexation of North Juanita, Finn Hill, and Kingsgate areas in 2011.

Kirkland operates under a Council-Manager form of government. The City Council is the policy-making branch of Kirkland's government and consists of seven members elected at large to staggered, four-year terms. The Mayor is elected from within the Council. The City Council is supported by several advisory boards and commissions and the City Manager. The City Manager is appointed by the City Council and serves as the professional administrator of the organization, coordinating its day-to-day activities.

## **Purpose of Request**

The City of Kirkland ("City") is seeking a qualified consultant to conduct a study to review and evaluate potential changes to City tax policy in response to projected budget shortfalls. The City is interested in how new revenue options would impact the estimated tax burdens of the Kirkland community, including residents and businesses and those who work in the City.

The City of Kirkland's financial forecast projects a General Fund deficit in future budget cycles that grows on an ongoing basis. This is in large part due to a structural imbalance between the cap on growth in the City's largest single General Fund revenue source, property tax, and the growth in costs for salaries, benefits and other services. This is a common problem among Washington cities and something that has been resolved in prior budget cycles through cost savings, voter approved levies and one-time revenue sources. In discussion for the 2021-2022 budget cycle, City Council directed staff to assess available revenue options to help close this gap in a **sustainable and equitable** way.

Early analysis from City of Kirkland staff highlighted a limited number of revenue options available to the City. With these revenue options as a starting point, this request seeks to find a qualified consultant who can identify and assess available revenue options.

The estimated funding available for this work is \$100,000 to \$150,000 and the timeline anticipates initial results and analysis in May and final report delivery on July 15, 2022.

## **Performance Schedule**

- Provide complete data requests within two weeks of contract signing
- Establish regular schedule for reporting and updating City staff
- Provide preliminary results and report to Council at the May Council retreat, during the week of May 23-27, 2022.
- Provide timeline and key delivery milestones for a final report to be delivered to the City by July 15, 2022.

1. Establish a proposed process and approach with department leadership.
2. Calculate tax burdens born by a range of representative taxpayers in the city, including:
  - Shifts in tax burdens over time;
  - How current tax burdens in Kirkland compared to those in peer jurisdictions; and
  - Overall contributions made by Kirkland's households and businesses (viewed as groups) to the city's tax revenue streams.

  - a. Expanded or increased parking fees
  - b. Restructured or increased business license fees
  - c. Transportation Benefit District
  - d. School zone safety cameras
  - e. Changing the cost recovery target of development fees
4. Evaluate the sustainability impacts of each new revenue option, including:
  - a. The total amount of annual revenue across multiple years
  - b. The anticipated stability of revenue, including expected increases or decreases over time
  - c. The impact of each new revenue option on total revenue compared to the status quo (current revenue structure with no changes)
5. Evaluate the equity impacts of each new revenue option, including:
  - a. The impact of new revenues on different populations in Kirkland. Using demographic data for race, income level, and other socioeconomic indicators, determine the cost of each new revenue on different communities.
  - b. Identify the legal constraints and opportunities for mitigating equity impacts for each new revenue source
  - c. The impact of new business revenue based on business size and number of employees
  - d. The impact of each revenue option on the City's equity goals
  - e. The impact of each new revenue option on racial and socioeconomic equity compared to the status quo (current revenue structure with no changes).
6. Evaluate any changes over time based on projections for each revenue source.
7. Provide results of analysis by May 1, 2022 to allow staff time to review information ahead of the Council presentation between May 22-27, 2022.

8. Identify any other changes to the City's tax structure that could be made to enhance equity and sustainability.
9. Prepare final report and findings for presentation at full City Council meeting, including consultant led presentation. The final report will be presented to the City Council at the Council meeting.
