

Addendum # 1

City of Kirkland Kirkland Transportation Mode Split Survey (Job# 44-22-PW) Answers to Questions

Q: Do you all have a list of employers that fit the criterion referenced in the RFP? [*“employers with more than 50 employees, 10 to 50 employees, less than 10 employees, and Kirkland residents.” / “CTR-affected employees, TMP sites, and employees who do not work at CTR-affected sites or sites with TMPs”*]

A: The City will be able to provide lists of worksites affected by Washington’s Commute Trip Reduction law and worksites with Transportation Management Plans (TMPs). Dependent on privacy requirements, we will also be able to provide lists of employers that fall within different ranges of numbers of employees, or at least the approximate quantity of employers that fall within those ranges. For example, we can provide an alphabetized list of employers which have 100 or more full time equivalent employees, according to the self-reported data in our business licensing database.
