## **Background Information**

The City of Kirkland is located on the eastern shore of Lake Washington. It is a suburban city, surrounded by other suburban cities and pockets of unincorporated King County. The city is near several major transportation routes including Interstate 405, State Route 520, and Interstate 5. These routes connect the city economically and socially to the greater Seattle area.

At the time of incorporation in 1905, the City of Kirkland's population was approximately 530. The current estimated population is 92,517. Kirkland is the twelfth largest city in the State of Washington and the sixth largest in King County.

Since its incorporation, Kirkland has grown in geographic size to eighteen square miles - approximately twenty times its original size. This growth occurred primarily through the consolidation of the cities of Houghton and Kirkland in 1968, the annexations of Rose Hill and Juanita in 1988 and the annexation of North Juanita, Finn Hill, and Kingsgate areas in 2011.

Kirkland operates under a Council-Manager form of government. The City Council is the policy-making branch of Kirkland's government and consists of seven members elected at large to staggered, four-year terms. The Mayor is elected from within the Council. The City Council is supported by several advisory boards and commissions and the City Manager. The City Manager is appointed by the City Council and serves as the professional administrator of the organization, coordinating its day-to-day activities.

## **Purpose and Background**

The City of Kirkland is seeking proposals from qualified individuals or firms to develop and conduct travel surveys to assess mode split. The surveys shall provide mode split data for employees and residents in the City of Kirkland overall and two subareas – Downtown Kirkland and the Totem Lake Urban Center. The estimated cost of this project is \$50,000 to \$80,000. This program will be funded with state grant money. Surveys shall be carried out February to March 2023, to be consistent with Kirkland's previous mode split survey performed in February and March 2018.

## **Performance Schedule**

Surveys shall be carried out February to March 2023, to be consistent with Kirkland's previous mode split survey performed in February and March 2018. The final report shall be submitted by July 2023.

## **Scope of Work**

This RFP is for conducting a mode split travel survey of residents and employees in the City of Kirkland. In addition to mode split, the study will measure commute frequency, distance, origin/destination, and commute behaviors. The survey will provide commute data for the entire City of Kirkland, Downtown Kirkland, and the Totem Lake Urban Center.

Sampling shall be done for employers with more than 50 employees, 10 to 50 employees, less than 10 employees, and Kirkland residents. To help facilitate the survey, gift cards will be available for data collection.

The mode split report shall compare the current mode split with the 2018 Kirkland mode split report (see Attachment B). The mode split report shall also compare CTR-affected employees, TMP sites, and employees who do not work at CTR-affected sites or sites with TMPs (Transportation Management Plans).

The consultant will meet with City staff at least twice prior to the carrying out of the survey to allow City staff to give input on the survey's design and implementation. This will ensure that the findings are as useful as possible for various transportation initiatives like Kirkland's Transportation Master Plan update (due in 2024), Commute Trip Reduction programs and compliance, and the Bellevue-Kirkland-Redmond Travel Model.
