

## Addendum # 2

### Consulting Services for Residential Recycling Collection Events (Job # 68-22-PW) RFP Questions and Answers

**Question:** In reviewing your RFP, I have a question about funding of the proposed materials collected in 2024. From your RFP, I see your list of materials below.

Items to be collected/services to be offered at each event:

Material	User Fee
CFC Appliances (refrigerators, freezers, air conditioners, dehumidifiers)	X
Mattresses/Box Springs	X
Propane Tanks – Residential and Camping	X
Porcelain Toilets/Sinks/Tubs	X
Latex Paint	X
Confidential Paper Shredding	
Expanded polystyrene blocks (Styrofoam), packing peanuts	X
*Batteries (AAAA, AAA, AAA, A, C, D cell, rechargeable, and cell phone)	
*Batteries (Lead Acid) – Car, truck, boat, and motorcycle	
*Used Oil/Filters/Antifreeze	
Scrap wood/bulky yard debris (limit two loads per resident)	
Scrap Metal, Appliances, Electronic Equipment	
Tires	X

I see your funding sources as:

#### **Budget**

The total project budget is comprised of a grant funds available from the 2023-2024 King County Solid Waste Division Waste Reduction and Recycling Grant, the 2023-2024 Hazardous Waste Management Program Grant, and the Ecology Local Solid Waste Financial Assistance Grant. The total maximum project budget is \$107,000 based upon available grant funding as designated by the City for the events in grant agreements. The Consultant shall not exceed the City's project budget but may submit a budget proposal less than \$107,000.

#### **Project Funding Sources:**

<i>Funding Source:</i>	<b><u>2023</u></b>	<b><u>2024</u></b>
King County Waste Reduction and Recycling Grant	\$16,000	N/A
Local Hazardous Waste Management Program Grant	\$21,500	\$21,500
Ecology Local Solid Waste Financial Assistance Grant	<u>\$16,000</u>	<u>\$32,000</u>
Total	\$53,500	\$53,500

As you know, when using DOE funds, there is a matching requirement of 25%. Your 2024 budget falls within that limit. Typically though, the KC Health Department funds pay for moderate risk waste and does not support the collection of solid waste items. It is my understanding that the KC Health Department will not pay the matching portion of items such as paper shredding, scrap metal, Styrofoam, scrap wood, and tires. Without using funds from the KC WRR grant in 2024, are you planning to collection the solid waste items listed above in 2024?

**Answer:** We plan on using Department of Ecology LSWFA funds for those solid waste items in 2024. The City will be providing required grant matching funds.
