MEMORANDUM

To: Kurt Triplett, City Manager

From: Sara Shellenbarger, Recreation Manager
John Lloyd, Deputy Director
Lynn Zwaagstra, Director

Date: April 20, 2021

Subject: 2021 Spring and Summer Recreation Fee Notification

RECOMMENDATION

City Council receive the 2021 spring and summer recreation program list and fee schedule. By approving the consent calendar, Council acknowledges receipt of the fee notification. Due to ongoing COVID-19 impacts, fee changes are minimal except as described later in the memo.

BACKGROUND DISCUSSION

In accordance with financial policy and historical practice, Parks and Community Services conducted a cost recovery study throughout 2018. The goal of a cost recovery study is to articulate and illustrate a comprehensive resource allocation philosophy and fiscal policy to ensure a sustainable system into the future by using tax revenues and fees in the most appropriate ways.

One outcome of the cost recovery study was a fiscal policy, adopted through Resolution **R-5347, Attachment A**, in December 2018. This resolution discussed the philosophical foundation of cost recovery, which included an articulated rationale for assessing fees. In accordance with this fiscal policy Parks and Community Services was directed to provide transparency on fees and charges by notifying the City Council of anticipated fee changes with the semi-annual publication of the recreation program guide. Below is the relevant text:

"The Department may employ incremental periodic fee increases, typically annually, as a best practice in the parks and recreation industry to help keep up with increasing expenses. Smaller, more frequent increases are less impactful on program participants than larger increases that occur less frequently. When substantial changes are necessary, they may be implemented over a reasonable period of time.

The Department will provide transparency on fees and charges for programs and services by notifying the City Council of anticipated changes prior to the semi-annual publication of the recreation program guide. Fee schedules will be posted on the City's website and other designated publicity media. The Department shall utilize key user groups and the

City's Park Board to engage the community and obtain feedback on fees, partnership and policy implementation."

Due to the tenuous situation with the COVID-19 pandemic, a recreation program brochure was not produced for the 2021 spring and summer season. Instead, all programs are cataloged online at www.KirklandParks.net so that adjustments can be made in case safety guidelines require changes to programs.

An aggregated list of fees for recreation programs offered in the spring and summer of 2021 can be found in **Attachment B**. Additionally, current facility rental and use rates can be found in **Attachment C**.

During the Council discussion regarding R-5347 and fee transparency, providing the semi-annual fee updates as part of the consent calendar was determined by the Council as the preferred option. The Council saw the consent agenda as an efficient way to provide the fee update without requiring multiple presentations to the Council. Any Councilmember who has a question about a particular fee change may also pull the item from consent and ask for more information. The use of consent for fee notification will continue to be the practice for all future minor fee adjustments (as described below) unless the Council desires a different method.

Minor fee adjustments for programs and services occur routinely with each program planning cycle. There are a few primary reasons for these changes, outlined below.

1. Due to calendar days/dates, some programs have a different number of sessions than the previous year. For example, last year's yoga class may have been 8 sessions, but this year's class is 7 sessions since one class day falls on a holiday.
2. A program changed from being instructed by a contractor to an in-house instructor, or vice versa.
3. Significant change in instructor salary, position classification or supplies needed for a program.
4. Fee charged for program or service was above or below market rate for the region.

Due to their nature, minor fee adjustments are typically not listed individually, but below is one item of note:

- Picnic shelter and picnic area rental rates were increased in accordance with market rates and to be aligned with the added value of various amenities at each site, such as access to waterfront or a shade structure over the picnic area, in addition to capacity. Rates are included on **Attachment C**.

Significant fee adjustments are occasionally proposed through the biennial or mid biennial budget cycle to fund needed resources. These proposals are brought to the Council separately through the legislative and/or budget processes and are not included in the notification. There are no significant fee adjustments to report at this time, however, it should be noted that athletic field fees began a scheduled incremental increase in 2021.

A 6-year plan to increase athletic field fees was presented to the Council at the March 17, 2020 Study Session, to align the City of Kirkland's athletic field fee structure with market rates and cost recovery goals. The fee increases began in the spring 2021 season with users already renting fields at the new rates (see **Attachment C**). Per the 6-year fee proposal, rate increases are planned through 2025.

At the February 16, 2021 Council meeting, Parks and Community Services director Lynn Zwaagstra presented and received authorization to re-open parks, recreation and some special event programs and services, which included a 50 percent discount to all users for athletic field rental fees for the first season of 2021. Full rates for fees will resume in the second season of 2021 (autumn).

Attachment A
RESOLUTION R-5347

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF KIRKLAND
ESTABLISHING A FISCAL POLICY FOR THE DEPARTMENT OF PARKS
AND COMMUNITY SERVICES UTILIZING TAX REVENUES
SUPPLEMENTED BY FEES, CHARGES AND OTHER IDENTIFIED
SOURCES TO HELP RECOVER COSTS IN SUPPORT OF A SUSTAINABLE
SYSTEM THAT MEETS COMMUNITY PARKS AND RECREATION NEEDS.

1 WHEREAS, establishment of a fiscal policy for the Department of
2 Parks and Community Services ("Department") is an extension of
3 current City of Kirkland ("City") fiscal policies adopted with the biennial
4 budget and consistent with previous Department cost recovery studies
5 completed in 1999, 2002 and 2005; and
6

7 WHEREAS, the goal of the fiscal policy is to help ensure a
8 sustainable parks and recreation system into the future by responsibly
9 using tax revenues as well as fees, charges and other identified sources
10 (e.g. grants, donations and commercial sponsorships) in support of
11 carrying out the Department's mission with the goal of meeting the
12 community's health, wellness and recreation needs; and
13

14 WHEREAS, the use of fees, charges and other alternative
15 revenue sources will allow for provision of some services that might not
16 otherwise be possible based on tax revenues alone; and
17

18 WHEREAS, the use of fees, charges and other alternative
19 revenue sources provides financial resources to keep up with growing
20 costs and to help make possible the expansion of services to keep up
21 with growing demand; and
22

23 WHEREAS, the fiscal policy will help residents, businesses and
24 users of the parks and recreation system by providing a formal,
25 transparent, and equitable policy basis for the use of taxes, fees,
26 charges and alternative revenue sources to provide the parks and
27 recreations system assets, programs and services; and
28

29 WHEREAS, the fiscal policy will also help staff establish and
30 achieve financial targets that utilize efficiencies and cost saving
31 measures as well as revenue generation, thereby helping maximize tax
32 revenue support for those service areas identified by the City Council as
33 foundational to community needs and interests, in part by better
34 matching payments for services with the recipients of those services.
35

36 NOW, THEREFORE, be it resolved by the City Council of the City
37 of Kirkland as follows:

38 Section 1. The City Council supports and hereby adopts the
39 following fiscal policy for the Department of Parks and Community
40 Services.

- 41
- 42 i. This fiscal policy is established to help ensure a sustainable parks
43 and recreation system that will meet the community's health,
44 wellness and recreation needs now, and into the future.
- 45
- 46 ii. A sustainable parks and recreation system requires use of both
47 revenue generation and efficiency measures to contribute to the
48 Department's cost recovery level and establish the level of
49 service provided to the community.
- 50
- 51 iii. The Department provides a basic level of programs and services
52 to the public that are fully funded utilizing tax revenues. In
53 addition, the use of fees, charges and other revenue sources
54 (e.g. grants, donations and commercial sponsorships) to recover
55 costs is considered a responsible and necessary means to
56 supplement tax revenues to help ensure a sustainable system.
- 57
- 58 iv. In establishing fees and charges, the Department will determine
59 the direct and indirect costs of providing services and establish
60 goals to recover those costs. The appropriate level of cost
61 recovery will be based on an assessment of who is benefiting
62 from the programs and services provided, along a spectrum
63 ranging from "mostly community benefit" to "mostly individual
64 benefit." Cost recovery ranges will be identified by "community"
65 versus "individual" benefit tier levels guided by the Pyramid
66 Model, which will be periodically updated as a supplement to this
67 fiscal policy.
- 68
- 69 v. If the benefit is to the community as a whole, it is appropriate
70 to use tax revenues to completely or primarily fund the services
71 where practicable. Examples of services that primarily benefit
72 the community as a whole are play areas, parks, trails and large
73 natural areas. The Department may also seek grants, donations
74 and commercial sponsorships for these community benefit
75 services as appropriate to help sustain these services.
- 76
- 77 vi. As the benefit moves along the spectrum towards primarily
78 benefitting an individual or identified group of individuals, it is
79 appropriate to charge fees for the service at an increasing rate
80 of cost recovery. Supervised or instructed programs, facilities
81 that visitors can use exclusively and products and services that
82 may be purchased are examples where user fees are
83 appropriate.

- 84 vii. The Department shall also consider available resources,
85 alternative service providers, public need, the community
86 economic climate and market rate when establishing fees and
87 charges. Fees and charges may utilize a non-resident rate
88 differential in recognition of the taxpayer resources provided by
89 Kirkland residents. Other fee differentiations may be used where
90 appropriate, including, but not limited to, "youth", "adult",
91 "premium" and "non-profit" categories.
92
- 93 viii. Fees and charges can be set to recover costs in excess of direct
94 and indirect costs where appropriate as a method of supporting
95 other parks and recreation services desired by the community.
96 Revenue generated through fees and charges will be returned
97 to the Department to enhance its ability to meet the programs
98 and services desired by the community in accordance with this
99 fiscal policy, unless otherwise allocated during the biennial
100 budget process.
101
- 102 ix. The Department may employ incremental periodic fee increases,
103 typically annually, as a best practice in the parks and recreation
104 industry to help keep up with increasing expenses. Smaller, more
105 frequent increases are less impactful on program participants
106 than larger increases that occur less frequently. When
107 substantial changes are necessary, they may be implemented
108 over a reasonable period of time.
109
- 110 x. The Department will provide transparency on fees and charges
111 for programs and services by notifying the City Council of
112 anticipated changes prior to the semi-annual publication of the
113 recreation program guide. Fee schedules will be posted on the
114 City's website and other designated publicity media. The
115 Department shall utilize key user groups and the City's Park
116 Board to educate and engage the community in developing
117 proposals on fees and partnerships, and to discuss general policy
118 implementation.
119
- 120 xi. The Department may subsidize, in whole or in part, the cost
121 recovery targets for persons with economic need or other
122 appropriately targeted populations through tax-supported fee
123 reductions, scholarships, grants or other methods. The
124 Department Director may also approve lower fees or fee waivers
125 upon determination the fee arrangement will primarily benefit
126 the public interest.
127
- 128 xii. The City shall adopt a scholarship policy to ensure easy access
129 for those in economic need, establishing eligibility requirements,
130 allowable uses, and individual and family limits. User groups,

131 contractors, concessionaires and vendors will be encouraged to
132 also adopt scholarship policies.

133 xiii. The Department may enter into commercial sponsorship or
134 partnership agreements that create a reduced need for taxpayer
135 support of programs and services.

136
137 xiv. The City shall adopt sponsorship and partnership policies to
138 provide guidelines for agreements, approval processes, and
139 operating procedures that create equity and consistency while
140 maximizing and leveraging resources of the Department.
141

142 Section 2. This Parks and Community Services Department fiscal
143 policy shall hereafter be included in the City's fiscal policy section of
144 each City biennial budget.

145
146 Passed by majority vote of the Kirkland City Council in open meeting
147 this 11th day of December, 2018.

148
149 Signed in authentication thereof this 11th day of December,
150 2018.

Amy Waler, Mayor

Attest:

Kathi Anderson, City Clerk
