

Improve path along the
east side of 132nd Ave NE

Kyle Sullivan
SRH / BT Neighborhood Association

Problem Statement

- There is no safe, ADA accessible route connecting the Bridle View neighborhood to sidewalks
 - Requested by Diane Ginthner for her son
 - Neighborhood entrances don't have crosswalks across 132nd Ave
 - Closest crosswalk is 70th Pl
 - Existing path not suitable for power wheelchairs

Why this solution?

- Crosswalk at NE 66th St was discussed in previous NSP
 - Pedestrian crossing volume too low
 - Would likely require new sidewalk construction
- Gravel path falls within NSP budget
- Would improve path for recreational users
