- g. Any opinions of probable construction cost provided by the Consultant will be on the basis of experience and professional judgment. However, since Consultant has no control over competitive bidding or market conditions, the Consultant cannot and does not warrant that bids or ultimate construction costs will not vary from these opinions of probable construction costs.

- i. Development of construction schedules and/or sequencing, and/or reviewing and commenting on contractor's schedules, is for the purpose of estimating number of days to complete a project, for identifying potential schedule and coordination challenges, and determining compliance with the construction contract. It is not a guarantee that a construction contractor will complete the Project in that sequence or timeline, as means and methods are the responsibility of the construction contractor.
- j. Consultant is not responsible for any costs, claims or judgments arising from or in any way connected with errors, omissions, conflicts or ambiguities in the Contract Documents prepared by others. The Consultant does not have responsibility for the professional quality or technical adequacy or accuracy of the design plans or specifications, nor for their timely completion by others.

- p. Client agrees that Consultant will not be held liable for the completeness, correctness, readability, or compatibility of any electronic media submitted to Client, after an acceptance period of 30 days after delivery of the electronic files, because data stored on electronic media can deteriorate undetected or can be modified without Consultant's knowledge.
