

**Addendum # 2
City of Kirkland**

**Lease or Purchase of Electric Vehicles RFP (Job # 10-23-PW)
Answers to Questions**

For questions 1-23, please see [Addendum #1 – Answers to Questions](#)

24. How many miles a year should be included with the bid?

Please quote with 10,000 miles 12,000 mile, and 15,000 mile packages.

25. According to the lease price point and other context clues such as residential charging stations, we've assumed that the vehicle type is a smaller medium size vehicle for city operations employees. Would it be safe to say that this would be a vehicle with the ability to park at home or in normal sized parking spots around the community? So, no passenger vans, logistics vans, cargo vans or passenger buses? Strictly 2-4 passenger vehicles?

Vehicles will be considered that can park at home or in normal sized parking around the community. No logistics vans, cargo vans or buses will be considered.
