Funded Transportation Projects

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	ST 0006 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL STREET PRESERVATION PROGRAM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Preservation of roadway system with various techniques including overlay, slurry seal, crack seal and others. The Public Works Department is responsible for approximately 245 miles of asphalt streets throughout the City. The annual program ensures maintenance of this infrastructure and reduces costly repairs resulting from total road failure.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project description changed to reflect additional miles of asphalt street throughout the City and project cost changed to reflect available funding.

PROJECT #	ST 0006 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL STREET PRESERVATION PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minimal, for short periods of time during construction.</i>
Community economic impacts	<i>Preventive maintenance through overlay and other repair strategies will prevent costly roadway reconstruction in the future.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improved vehicular traffic safety by improving roadway surface.</i>
Responds to an urgent need or opportunity	<i>Responds to the need for safe roadways, and as a preventive measure for the possibility of road failure.</i>
Feasibility, including public support and project readiness	<i>There is not a lack of public support or project readiness.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Road maintenance program prevents more costly type of repairs.</i>
Implications of deferring the project	<i>Possibility of roadway failure with increased maintenance and safety problems.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

2013 TO 2018**

PROJECT #	ST 0006 002
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL STREET PRESERVATION PROGRAM, ONE TIME PROJECT		
PROJECT LOCATION	NE 85th Street from I-405 to 132nd Avenue NE	PROJECT START	PROJECT STATUS
		2014	Modified Project

DESCRIPTION/JUSTIFICATION

The grind, patch, modification of wheelchair ramps and overlay of NE 85th Street (formerly SR 908) at the conclusion of intersection, roadway and other improvements associated with CIP projects NM 0051, ST 0075, TR 0078, and TR 0080. Funds became available through the Washington State Department of Transportation (WSDOT) as a result of the recent jurisdictional transfer of SR 908 from WSDOT to the City of Kirkland.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project start date changed from 2012 to 2014 for coordination with on-going and future capital improvements within the NE 85th Street corridor.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	STREET MAINTENANCE AND PEDESTRIAN SAFETY PROJECT		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

A voter approved levy funded annual project to meet City Council Goals for dependable infrastructure, balanced transportation, neighborhoods, public safety, and financial stability. Specific projects to be included consist of: 1.) Preventative street maintenance through repair and resurfacing (\$2.7 M), 2.) Pedestrian safety through enhancements to Kirkland crosswalks, the installation of new ADA ramps and the providing of various improvements addressing transit, pedestrian, bicycle and other neighborhood transportation safety issues (\$150 K), and, 3.) Project funding (\$150 K) available as City matching funds for state and federal Safe Routes to School grants.

PROJECT #	ST 0006 003
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	STREET MAINTENANCE AND PEDESTRIAN SAFETY PROJECT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minimal, for short periods of time during construction.</i>
Community economic impacts	<i>Preventive maintenance through overlay and other repair strategies will prevent costly roadway reconstruction in the future.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improved vehicular traffic safety by improving roadway surface.</i>
Responds to an urgent need or opportunity	<i>Responds to the need for safe roadways, and as a preventive measure for the possibility of road failure.</i>
Feasibility, including public support and project readiness	<i>There is not a lack of public support or project readiness.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Road maintenance program prevents more costly type of repairs.</i>
Implications of deferring the project	<i>Possibility of roadway failure with increased maintenance and safety problems.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input checked="" type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT #	ST 0057 001
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 120TH STREET ROADWAY EXTENSION (EAST SECTION) - PHASE II		
PROJECT LOCATION	NE 120th Street alignment between Slater Avenue NE and 124th Avenue NE	PROJECT START	PROJECT STATUS
		2011	Modified Project

DESCRIPTION/JUSTIFICATION

Install up to 44-foot (curb to curb) roadway with planter strip and concrete sidewalk, new traffic signal at 124th Avenue NE/NE 120th Street, and signal modifications at Slater Avenue NE/NE 120th Street. This is a Phase II project to acquire right-of-way and construct the improvements as grant and/or other funds have become available.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Total costs changed from \$6,402,600 to \$7,357,000 due to updated cost estimate and increased right-of-way costs.

POLICY BASIS	PRIOR YEAR(S) BUDGET TO ACTUALS	METHOD OF FINANCING (%)

PROJECT TITLE	NE 120TH STREET ROADWAY EXTENSION (EAST SECTION) - PHASE II
----------------------	---

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last four to five months, traffic using 124th Avenue and Slater Avenue may experience delays due to construction activity. Adjacent businesses will also experience noise, dust, and equipment impacts.</i>
Community economic impacts	<i>This new roadway will vastly improve traffic circulation in the Totem Lake area and improve exposure to adjacent businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Pedestrian and bicycle facilities to be constructed with the project will encourage non-SOV mobility. Emergency access to surrounding areas will be improved.</i>
Responds to an urgent need or opportunity	<i>During the development of the Infinity car dealership, the City was given first options on purchasing property needed for this new roadway.</i>
Feasibility, including public support and project readiness	<i>Adjacent businesses (Infinity of Kirkland and Verizon) have been involved with preliminary design of the project. The project will require significant facility construction near Slater Avenue, including walls to retain the roadway.</i>
Conforms to legal or contractual obligations	<i>The project will be designed and constructed to comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will continue pedestrian and bicycle facilities planned for Slater Avenue NE and along 132nd Avenue NE/NE 120th Street east of the project.</i>
Implications of deferring the project	<i>The right of way adjacent to Infinity of Kirkland is subject to a 1996 agreement whereby the City agreed to purchase right of way within 10 years at a pre-determined value. In the event the 10 years pass, the additional cost of the right of way could exceed \$230,000.</i>

PROJECT TITLE	JUANITA DRIVE CORRIDOR STUDY		
PROJECT LOCATION	Juanita Drive Corridor	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

A corridor study/master plan to guide future capital improvement construction phases for Juanita Drive. The purpose of the Study is to evaluate existing conditions and recommend a prioritized set of improvements for the Juanita Drive Corridor. Goals for the corridor will be set consistent with established City goals and policies. A substantial public involvement process will be integral to the development of the Study's end product. Improvements will be focused on: bicycle and pedestrian facilities, safety, drainage, signing, marking, lighting, and geometric conditions such as hills, curves and intersections.

PROJECT #	ST 8888 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL CONCURRENCY STREET IMPROVEMENTS		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

This project provides for the construction and re-construction of City roadways to meet concurrency needs to help the City attain the 2022 level of service standards established in the Comprehensive Plan. Candidate projects under this annual program include: ST 0059 - 124th Ave NE Roadway Improvements (North Section), ST 0063 - 120th Ave NE Roadway Improvements with others as deemed appropriate.

REASON FOR MODIFICATION (WHERE APPLICABLE)

An updated priority ranking of the individual projects within the description above. Project timing and costs have been updated. Total project cost changed from \$4,050,000 to \$2,029,900, which reflects available remaining funds after funded projects are identified.

PROJECT TITLE	CROSSWALK UPGRADE PROGRAM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Existing Project

DESCRIPTION/JUSTIFICATION

Install crosswalk improvements at various locations throughout the City. Improvements will include upgrades to existing crossing facilities or construction of new facilities. This program began in 1996 and has been funded every 2 years from current revenue; in the event that other sources become available (such as grants from the Transportation Improvement Board) they will be used to supplement funding levels. Community input into the City's Comprehensive Plan and Active Transportation Plan identified the need for improved pedestrian crossing in the City's pedestrian system.

PROJECT TITLE	CROSSWALK UPGRADE PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minor during construction.</i>
Community economic impacts	<i>Improved pedestrian routes will promote increased safe foot traffic and reduce dependence on vehicular traffic.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Create pedestrian-friendly atmosphere by providing crosswalk upgrades that could reduce potential risk to pedestrians.</i>
Responds to an urgent need or opportunity	<i>Community input has identified the desire for additional pedestrian facilities throughout the City.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high; impacts are dependent upon location and degree of improvements, but project does not present significant difficulties.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Depending on the location selected, these upgrades will link to other sidewalk improvements.</i>
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT #	NM 0024 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	CROSS KIRKLAND CORRIDOR TRAIL (INTERIM)		
PROJECT LOCATION	Former Burlington Northern Santa Fe Rail Corridor right-of-way, between south City limits and a point in the north part of the City, near Totem Lake.	PROJECT START	PROJECT STATUS
		2012	Modified Project

DESCRIPTION/JUSTIFICATION

Construct a multiuse recreational trail within the Kirkland segment of the Cross Kirkland Corridor right-of-way between the South Kirkland Park and Ride and Totem Lake. The compacted gravel path would be constructed generally on the existing rail bed. Existing rails will be removed to accommodate the new trail.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved to funded as per City Council at their August 7, 2012 meeting, with 2012 start date. Total project cost changed from \$3,000,000 in the preliminary CIP to \$3,600,000 due to updated cost estimate. Project received \$3,041,000 in grant funding. Funding for the Cross Kirkland Corridor was recommended by the Park Funding Exploratory Committee (PFEC) funded by the levy approved by voters in November 2012. Staff also continues to seek additional funding through various grant opportunities for future development of the corridor.

PROJECT TITLE	CROSS KIRKLAND CORRIDOR TRAIL (INTERIM)
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Very limited disruption to current operations. Some noise and activity not normally present along Eastside Rail Corridor right-of-way adjacent to residential homes.</i>
Community economic impacts	<i>Provides Class I separated pathway connecting many parts of Kirkland and neighboring cities north and south of Kirkland.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Separated pathway will decrease interaction between pedestrian/bicycle and vehicular traffic. This project will provide a corridor for alternate forms of transportation than SOV.</i>
Responds to an urgent need or opportunity	<i>Helps fulfill annual increase in pedestrian facilities needed to meet the adopted level of service as set forth in the Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>It will be innovative in that a right-of-way agreement will have to be negotiated with Eastside Rail Corridor on an active track. Public support is mixed, however, much involvement has taken place.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed in compliance with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>Follows Vision 2020.</i>
Benefits to other capital projects	<i>This project will tie together many other "feeder" non-motorized facilities along the route.</i>
Implications of deferring the project	<i>Delays the construction of an important and trend-setting element of the non-motorized network.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 5.7 miles of ped/bike facilities <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	CROSS KIRKLAND CORRIDOR MASTER PLAN		
PROJECT LOCATION	Former Burlington Northern Santa Fe (BNSF) Railroad Corridor right of way between south and (approximate) north City limits.	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

The project is part of a larger effort to develop the Cross Kirkland Corridor (former BNSF corridor) as a public asset for future transportation purposes. Stretching almost the full length of the city, its physical location provides unmatched potential for connecting land uses important to Kirkland residents. Program funds will be used to develop and complete a Master Plan and Implementation Program. Development of the corridor is envisioned to include facilities for pedestrians and bicycles, and in the future, transit. Consistent with the Draft Scope of Work approved by City Council (August 7, 2012), the Master Plan will further identify and refine how the corridor should be developed and will set the stage for moving the Cross Kirkland Corridor to the next phase of development. Funding for the Cross Kirkland Corridor was recommended by the Park Funding Exploratory Committee (PFEC) funded by the levy approved by voters in November 2012.

PROJECT TITLE	PARK LANE PEDESTRIAN CORRIDOR ENHANCEMENTS		
PROJECT LOCATION	Park Lane from Lake Street to Kirkland Transit Center at 3rd Street	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

Aged and failing sidewalks along this corridor due to tree roots that have impacted the sidewalk panels between Lake Street and Main Street are a continuous maintenance issue. With development of the new Downtown Transit Center on Third Street by Sound Transit and a focus on enhancements along this pedestrian connection, this project will implement a new design standards along the corridor after an extensive public process. Additionally, the existing tree canopy which is a valued commodity along this corridor will be evaluated and possible solutions to the urban trees will be developed. This is a Phase 2 Project following a Phase 1 Pre-design and temporary sidewalk repair completed in 2010.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from Unfunded due to receipt of \$739,000 DOE grant funding with Project start in 2013. Project total cost changed from \$1,300,000 to \$2,238,900 with updated cost estimate produced in conjunction with an application for a new State Pedestrian and Bike Safety Grant Program. The final list of recipients for the State grant will be announced on December 15, 2012.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL NONMOTORIZED PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, pedestrians, adjacent residents and drivers using this roadway will experience typical construction impacts and delays.</i>
Community economic impacts	<i>Will encourage non-motorized forms of transportation.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high.</i>
Conforms to legal or contractual obligations	<i>Specific projects will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? <i>No</i> Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	100TH AVENUE NE/NE 132ND STREET INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	Intersection of 100th Avenue NE/NE 132nd Street	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

Restripe the northbound to eastbound right-turn lane to a combination of shared through and right-turn. Construct a 250 foot northbound receiving lane on the north leg of the intersection. Extend the westbound left and right turn lanes 500 feet. This candidate project will result in improvements to allow the intersection to maintain a level of service less than the required 1.4 volume to capacity ratio. The Intersection Initiative recommends adding a southbound to westbound right-turn lane to improve capacity. This is a candidate project included as a component of the Annual Concurrency Traffic Improvements Program Project, TR 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from unfunded due to funding availability. Total Project cost changed from \$2,991,000 to \$3,201,000 due to updated cost estimate. Project is on the city's concurrency list, and a viable grant candidate.

PROJECT LOCATION	NE 132nd Street, 120th Avenue/124th Avenue NE in Totem Lake	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

Implementation of ITS upgrades at 15 intersections formerly on King County's network (six of which are located in the newly annexed area) to integrate them into Kirkland's Phase I ITS (presently under design) and implementation of ITS improvements at 11 signals located at NE 132nd Street and 120th Avenue - 124th Avenue NE corridors to connect these in the Phase I ITS project. Includes system engineering analysis, design, plans and specifications for the procurement and construction/installation of ITS devices such as controllers, cabinets, detection, CCTV and other related devices and for the fiber optic communication system that will allow devices to communicate to Kirkland's central traffic management facility presently under design.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	KIRKLAND CITYWIDE SAFETY AND TRAFFIC FLOW IMPROVEMENTS		
PROJECT LOCATION	Central Way/NE 85th St, Lake St to 132nd Ave NE; NE 124th St, 100th Ave NE to Willows Road; and LWB/Market St/100th Ave NE, Northup WY to NE 145th	PROJECT START	PROJECT STATUS
		2013	Existing Project

DESCRIPTION/JUSTIFICATION

Improvements to safety and traffic flow on Kirkland's main arterial corridors through signal timing optimization, signal interconnection enhancements and communication improvements. The optimized signal timing will include updating parameters for vehicle and pedestrian change intervals through the development of new signal timing plans for AM, PM and Noon peak periods, for up to 32 signalized intersections. The Project will also enhance signal interconnection and improve communication with the NE 124th Street ITS corridor.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from unfunded due to receipt of grant funding, with new start year of 2013.

CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	ST 0055 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	98TH AVENUE NE BRIDGE PROJECT		
PROJECT LOCATION	98th Avenue NE crossing of Forbes Creek	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

This project calls for the replacement of the 98th Avenue bridge due to its seismic vulnerability. The exact location and appearance as well as traffic distribution during construction would be determined in the pre-design report. The seismic vulnerability analysis completed for this bridge indicated that the center pier supports will fail, causing the collapse of the bridge. This is a critical link in a major north/south corridor. The seismic vulnerability assessment of the 98th Avenue bridge (Forbes Creek Bridge) indicated that to decrease the probability of structural collapse, seismic retrofit measures are necessary at several key locations. As a more immediate remedy, retrofit measures including the installation of a horizontal strut, soil anchors and drilled shafts at key locations may be considered as a viable alternative with significant cost savings.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Title and description changed to be consistent with 2012 grant application.

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During the anticipated six-month construction period, all businesses along the project will experience driveway closures, dust, and noise associated with construction.</i>
Community economic impacts	<i>Increased congestion in and around the Totem Lake area has the potential to impact local business patronage.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Additional pedestrian elements will be added with the project in an attempt to encourage safe pedestrian use of surrounding areas.</i>
Responds to an urgent need or opportunity	<i>Significant development and congestion in the Totem Lake area jeopardize the Comp Plan adopted level of service.</i>
Feasibility, including public support and project readiness	<i>Commercial driveways and Seattle City Light transmission lines will add significant challenges to the design and construction of the project.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed in accordance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Works in combination with a number of other street improvements to increase capacity in Totem Lake area.</i>
Implications of deferring the project	<i>Higher cost of future construction and a continued decline of the area level of service.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake, South Rose Hill</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes</i></p> <p>How does the project conform to such references? <i>Project on the 20-yr list/map</i></p> <p>Attachments: <input type="checkbox"/> (Specify)</p>
LEVEL OF SERVICE IMPACT	<p><input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation).</p> <p><input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <i>25%</i></p> <p><input type="checkbox"/> Project assists in meeting/maintaining adopted level of service.</p> <p><input type="checkbox"/> Project required to meet concurrency standards.</p>

----------------------	-----------------------------------

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minimal impacts due to roadway construction. Signal construction at the intersection with NE 116th Street may lead to minor traffic delays.</i>
Community economic impacts	<i>Improved circulation in and around the Totem Lake area may lead to higher patronage of local businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Sidewalks added with the project will provide more opportunities for non-SOV transportation such as walking.</i>
Responds to an urgent need or opportunity	<i>Significant development and congestion in and around the Totem Lake area have the potential to jeopardize the Comp Plan adopted LOS.</i>
Feasibility, including public support and project readiness	<i>Significant retaining walls will be required with the project; surrounding residents will be involved in the design and layout of the project configuration.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed in accordance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Works in combination with a number of other street improvements and Interstate 405 widening to increase capacity in Totem Lake area.</i>
Implications of deferring the project	<i>Continued congestion in and around Totem Lake business district</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	120TH AVENUE NE ROADWAY IMPROVEMENTS		
PROJECT LOCATION	North of the Totem Lake Mall from approximately NE 128th Street to NE 132nd Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Widen 120th Avenue to a 5 lane cross section between north of the Totem Lake Mall at approximately NE 128th Street and NE 132nd Street; final alignment has not yet been determined south of NE 128th Street. Project includes two travel lanes in each direction and a two-way left turn lane along with landscaped median islands, curb, gutter, sidewalk and bicycle lanes. Three signalized intersections will be reconstructed. Project length is approximately 1,650 feet. This project will help the City to attain the 2022 level of service standard established in the Comprehensive Plan. This is a candidate project included as a component of the Annual Concurrency Street Improvement Project, ST 8888.

PROJECT TITLE	120TH AVENUE NE ROADWAY IMPROVEMENTS
----------------------	--------------------------------------

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Construction will cause interruptions to normal business for periods. Some substantial disruptions may occur during certain phases of construction.</i>
Community economic impacts	<i>Project will improve the major access to Evergreen Hospital/Totem Lake area from the south.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Provides increased pedestrian crossing opportunities at median islands and provides bicycle lanes.</i>
Responds to an urgent need or opportunity	<i>This project was identified in the Totem Lake Plan and was determined to be essential to the success of the mall redevelopment.</i>
Feasibility, including public support and project readiness	<i>Results of the Totem Lake Study (both land use and desired transportation improvements) will have important implications for this project.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed in accordance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Works in combination with a number of other street improvements, including the NE 128th Street/I-405 Overpass, to increase capacity in Totem Lake area. Will serve the future transit center planned for this area.</i>
Implications of deferring the project	<i>Development in the area; expansion of Evergreen Hospital, etc. continue to cause a need for a fully developed transportation system. Deferring the project will continue this problem.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes</i></p> <p>How does the project conform to such references? <i>Project is identified on the 20-year list/map</i></p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	120TH AVENUE NE/TOTEM LAKE PLAZA ROADWAY IMPROVEMENTS		
PROJECT LOCATION	120th Avenue NE: from Totem Lake Blvd to north of the Totem Lake Mall; Totem Lake Plaza: from Totem Lake Blvd to the eastern end of the Totem Lake Mall	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

120th Avenue NE currently separates the upper and lower Totem Lake Mall campus providing access to Evergreen Hospital and is the more heavily used of the two major north/south arterials through Totem Center. Roadway improvements planned on 120th Ave NE will include treatments such as landscaping, reconstruction of the street alignment and on-street parking, all of which will improve pedestrian comfort and safety and eliminate vehicular conflicts using the numerous driveways along the corridor. In addition to traffic calming measures, new pedestrian facilities will be installed along the west side of the roadway and a new signal will be constructed at the intersection of the new Totem Lake Plaza. However, until the mall redevelopment occurs this project will remain in the unfunded category.

PROJECT TITLE	120TH AVENUE NE/TOTEM LAKE PLAZA ROADWAY IMPROVEMENTS
----------------------	---

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, temporary detours and traffic control will be in place. Depending on the final configuration, driveways along the corridor may be consolidated or closed leading to a change in traffic patterns; business patrons will need to modify current travel patterns.</i>
Community economic impacts	<i>This measure was identified in the Totem Lake Plan with the explicit intent of improving pedestrian comfort and access, while tying the upper and lower malls together. The intent of the project is to improve the business opportunity in this area.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will improve pedestrian and vehicular circulation and lead to less potential safety issues.</i>
Responds to an urgent need or opportunity	<i>The Totem Lake Plan centers around improvements in this area.</i>
Feasibility, including public support and project readiness	<i>Supported by the Totem Lake Plan, does not present significant design or construction related issues.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed to professional and legal standards.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Redevelopment of the Totem Lake Mall will improve the financial ability for the City to fund other projects.</i>
Implications of deferring the project	<i>Potential for increased accidents, business impacts and increased cost. Potential loss of CERB grant funding if not undertaken in a timely manner..</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes</i></p> <p>How does the project conform to such references? <i>Comp Plan Policy TL-13.3 "Calm Traffic 120th Ave"</i></p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	120TH AVENUE NE ROADWAY EXTENSION		
PROJECT LOCATION	NE 116th Street north to NE 120th Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install 1,450 feet of new roadway along an alignment north of the NE 116th Street/I-405 off-ramp. The new roadway will begin approximately 200 feet east of the intersection of NE 116th Street/I-405 off-ramp, extend north approximately 1,000 feet to the Cross Kirkland Corridor right of way, turn northeast and terminate at the future NE 120th Street (assumed to be constructed prior to this project). The project will include signal modifications at the intersection of NE 116th Street/I-405 off-ramp, sidewalks and planter strip along the entire alignment; it is anticipated that there will be no parking along the 24'-28' roadway. Significant right of way acquisition will be required (or redevelopment activity to preserve the corridor).

PROJECT TITLE	NE 132ND STREET ROADWAY IMPROVEMENTS - PHASE I (WEST SECTION)		
PROJECT LOCATION	East leg of 100th Ave NE & NE 132nd Street intersection to the west terminus of DOT I-405 interchange/intersection improvements.	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

The addition of landscaped median islands, the repair of concrete sidewalks, and the overlay and restriping of NE 132nd Street, between 100th Ave NE and I-405 to provide 5-foot bicycle lanes and improved pedestrian access along a portion of the NE 132nd Street Corridor, as outlined within the NE 132nd Street Roadway Masterplan Study completed in 2008. The improvement will help the City attain the 2022 level of service standards established in the Comprehensive Plan.

PROJECT TITLE	116TH AVENUE NE (SOUTH SECTION) NON-MOTORIZED FACILITIES – PHASE II
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, anticipated to last four months, traffic will experience possible delays and congestion along 116th Avenue while traffic control is utilized.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians, horses, and bicycles.</i>
Responds to an urgent need or opportunity	<i>The project will contribute to achieving federal clean air standards in the Seattle/Tacoma area by encouraging alternative modes of transportation.</i>
Feasibility, including public support and project readiness	<i>The project has been designed based on significant public input.</i>
Conforms to legal or contractual obligations	<i>Construction will be in compliance with legal and professional guidelines.</i>
Responds to state and/or federal mandate	<i>The Federal Clean Air Act mandated certain air quality standards. The Seattle/Tacoma area has been classified as a non-attainment area and this project is intended to contribute to achieving required standards.</i>
Benefits to other capital projects	<i>The bike facilities will connect with bike lanes recently completed along NE 70th Street and with pedestrian/bicycle I-405 overpasses at NE 60th Street and NE 80th Street. Equestrian facilities will support the network of trails in and around the Bridle Trails State Park.</i>
Implications of deferring the project	<i>Continued sub-standard shoulders along 116th Avenue for equestrian /pedestrian/bicycle travel.</i>

DESCRIPTION/JUSTIFICATION

Construct pedestrian and bicycle bridge across I-405. The bridge will be approximately 12 feet wide (WSDOT requirement), 400 feet long, and include approaches on the west and east end. The bridge will connect the Highlands neighborhood with commercial areas east of I-405 and provide an alternate route for bikes/peds crossing I-405 that currently utilize NE 85th Street. Both the North Rose Hill and South Rose Hill neighborhood plans support the goals of this project to provide bike/ped facilities through this area.

PROJECT TITLE	NE 90TH STREET/I-405 PEDESTRIAN/BICYCLE OVERPASS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, freeway traffic on I-405 will have possible impacts due to staging of support structures. Construction of east approach will impact Costco parking lot.</i>
Community economic impacts	<i>Will provide non-motorized link between neighborhoods and link Highlands with NE 85th Street commercial area.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will alleviate need for non-motorized traffic to travel along NE 85th Street corridor under I-405.</i>
Responds to an urgent need or opportunity	<i>Follows the non-motorized goals as set forth in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>The construction of this bridge will present significant engineering and construction challenges, including coordination with WSDOT.</i>
Conforms to legal or contractual obligations	<i>This pedestrian/bicycle facility will be designed and constructed in compliance with professional and legal requirements/guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will contribute to the establishment of the overall ped/bike network for Kirkland.</i>
Implications of deferring the project	<i>Continued use of congested, high volume arterial (NE 85th Street) for bicycle and pedestrian travel.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Highlands, North Rose Hill</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i></p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>
LEVEL OF SERVICE IMPACT	<p><input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation).</p> <p><input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 500 feet of ped/bike facilities</p> <p><input type="checkbox"/> Project assists in meeting/maintaining adopted level of service.</p> <p><input type="checkbox"/> Project required to meet concurrency standards.</p>

PROJECT TITLE	CRESTWOODS PARK/EASTSIDE RAIL CORRIDOR PED/BIKE FACILITY
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, pedestrians who currently use the existing gravel path and informal stairway would be required to use other routes.</i>
Community economic impacts	<i>Will provide significant non-motorized link between neighborhoods, Kirkland Jr. High, and Crestwoods Park.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Encourage non-motorized transportation, improve existing pedestrian route, and diminish potential conflicts with Eastside Rail Corridor.</i>
Responds to an urgent need or opportunity	<i>Follows goals established in the 2001 Non-Motorized Transportation Plan.</i>
Feasibility, including public support and project readiness	<i>The construction of these improvements would pose significant challenges due to slopes, grades, and Eastside Rail Corridor. Would require coordination with Eastside Rail Corridor.</i>
Conforms to legal or contractual obligations	<i>The improvements would be designed and constructed to comply with professional and legal requirements/guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will provide key link in overall ped/bike network, including I-405 overpass at NE 100th Street.</i>
Implications of deferring the project	<i>Continued use of steep pathway by pedestrians, including erosion of hillside, potential for conflicts with BNSFRR.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Highlands, Norkirk</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	93RD AVENUE NE SIDEWALK		
PROJECT LOCATION	East side of 93rd Avenue NE from Juanita Drive north to NE 124th Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install approximately 1,100 feet of concrete curb, gutter and five-foot planter strip with street trees along 93rd Avenue NE in areas that do not currently have sidewalk. In locations with steep slopes behind the new sidewalk, aluminum handrail, or vinyl-coated chain link fence will be required, and ADA compliant wheelchair ramps will also be required in existing sidewalk. This project will also require the acquisition of right-of-way at the southeast corner of the intersection of 93rd Avenue NE and NE 124th Street to allow the required roadway configuration, sidewalk, and wheelchair ramps. This is a candidate project included as a component of the Annual Nonmotorized Program Project, NM 8888.

PROJECT TITLE	93RD AVENUE NE SIDEWALK
----------------------	-------------------------

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last two months, pedestrians, adjacent residents, and drivers using 93rd Avenue NE will experience construction impacts and delays.</i>
Community economic impacts	<i>Improved pedestrian routes will promote increased foot traffic and potentially more use of local businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Pedestrian-friendly facilities will promote more people to use alternate forms of travel especially to nearby Juanita Beach Park with various activities.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's overall Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high; impacts to apartment complexes by the removal of adjacent landscape screening will need to be mitigated.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will connect the completed NE 124th Street sidewalk with major pedestrian facilities that are under design along Juanita Drive.</i>
Implications of deferring the project	<i>Continued pedestrian use of roadway and gravel shoulder.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>South Juanita</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	NE 100TH STREET BIKELANE		
PROJECT LOCATION	NE 100th Street Ped/Bike overpass at Slater Avenue NE to 132nd Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install five-foot wide Class II (striped) bike lanes along the existing roadway. Improvements will require asphalt widening and modification to existing concrete curb and gutter along the project length and will provide for bike lanes in both the eastbound and westbound direction. Project will complete a critical link in non-motorized facilities between North Rose Hill and Lake Washington. The NE 100th Street Ped/Bike overpass at I-405 is located immediately to the west of this project. This is a candidate project included as a component of the Annual Nonmotorized Program Project, NM 8888.

PROJECT TITLE	NE 100TH STREET BIKELANE
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minimal disruption along the project during construction. Construction activities will be confined to minor concrete curb and gutter relocation and striping.</i>
Community economic impacts	<i>Will improve non-motorized transportation alternatives.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will provide for dedicated bicycle facility where currently bicyclists are forced to use vehicular travel way for biking.</i>
Responds to an urgent need or opportunity	<i>The need for improved bike facilities throughout Kirkland has been identified in neighborhood meetings and in the City's overall Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support is high and project presents only minor design and construction challenges</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will allow bicyclist to better utilize the NE 100th Street ped/bike overpass at I-405.</i>
Implications of deferring the project	<i>Continued use of vehicular travel lanes for bicyclists.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>North Rose Hill, Totem Lake</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	FORBES VALLEY PEDESTRIAN FACILITY		
PROJECT LOCATION	Highlands, Norkirk, South Juanita and Forbes Valley Areas	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

In 1991, a landscape architecture and planning firm was hired to prepare a master plan for development of a public trail through the Forbes Valley connecting the 100th Street Trail, Crestwoods Park, Juanita Bay Park, and Juanita Beach Park. Through a series of public open houses, Parks Board and City Council meetings and community input, it was determined that the originally envisioned trail through the Forbes Valley would instead be added to the City's non-motorized facility list as a sidewalk adjacent to Forbes Creek Drive and be constructed by Public Works. The limits will be determined during preliminary design.

PROJECT #	NM 0046 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	18TH AVENUE WEST SIDEWALK
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last three to four months, pedestrians, adjacent residents, and drivers using this street will experience construction impacts and delays.</i>
Community economic impacts	<i>Provided a separated walking surface for increased safety and access to walking trails in Juanita Bay Park.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Addition of landscape planter strip and street trees will mitigate additional impervious area that will be added with this project.</i>
Responds to an urgent need or opportunity	<i>N/A</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high; impacts are dependent upon location and degree of improvements, but project does not present significant difficulties.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>These improvements will link with other sidewalk/ trails.</i>
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Market</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 2,400 feet of sidewalk <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	116TH AVENUE NE SIDEWALK (SOUTH ROSE HILL)		
PROJECT LOCATION	East side of 116th Avenue NE from NE 70th Street to NE 75th Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install 770 feet of concrete curb, gutter, sidewalk and planter strip for trees. This could possibly be done in conjunction with redevelopment activities with the I-405 widening project. This route is heavily used by Lake Washington High School students and others that use the Houghton Park and Ride Lot.

PROJECT TITLE	116TH AVENUE NE SIDEWALK (SOUTH ROSE HILL)
----------------------	--

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction traffic will experience possible delays and congestion along 116th Avenue while traffic control is utilized.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians and bicycles.</i>
Responds to an urgent need or opportunity	<i>Follows the non-motorized goals as set forth in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>This project will be designed based on public input and DOT requirements.</i>
Conforms to legal or contractual obligations	<i>This project will encourage alternate modes of transportation that enhance air quality.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Connects with sidewalk completed on NE 75th Street.</i>
Implications of deferring the project	<i>Continued pedestrian use of shoulder for travel along 116th Avenue NE.</i>

PROJECT TITLE	112TH AVENUE NE SIDEWALK
----------------------	--------------------------

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>There will be minor disruptions to pedestrian and vehicular travel during construction.</i>
Community economic impacts	<i>Safer and more convenient route to downtown businesses reduces traffic impacts.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Facilities will encourage non-motorized transportation from Highlands to downtown shopping and parks.</i>
Responds to an urgent need or opportunity	<i>Highlands Neighborhood Association has requested link.</i>
Feasibility, including public support and project readiness	<i>Improved walking facilities have been requested by neighbors.</i>
Conforms to legal or contractual obligations	<i>Will be designed and built to comply with professional and legal standards. Permit will be required from Eastside Rail Corridor.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Potentially hazardous pedestrian access from highlands to downtown through this section of roadway.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Highlands, Norkirk</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 112TH STREET SIDEWALK (NORTH SIDE)		
PROJECT LOCATION	Between 117th Place NE and existing sidewalk east of Eastside Rail Corridor	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

Install approximately 440 feet of concrete curb, gutter and sidewalk along NE 112th Street. Project will also require relocation of an existing large rock wall. It may be necessary to eliminate the standard planter strip along all or part of this project. This is a candidate project included as a component of the Annual Nonmotorized Program Project, NM 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Total project cost decreased from \$573,100 to \$424,000 due to recent development activity and an updated engineer's estimate. Project identified as potential candidate for NM 8888 - Annual Nonmotorized Program Project.

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, which is anticipated to last two to three months, pedestrians, adjacent residents, and motorists will experience typical construction impacts and delays.</i>
Community economic impacts	<i>Will encourage the use of non-motorized modes of transportation.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Protected pedestrian facility where currently pedestrians must walk along roadway shoulder will increase safety and promote physical activity.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Project will require relocation of significant rockery, but is technically feasible. This project has been requested by the South Juanita Neighborhood.</i>
Conforms to legal or contractual obligations	<i>Design and construction will comply with professional engineering and legal guidelines.</i>
Responds to state and/or federal mandate	<i>NA</i>
Benefits to other capital projects	<i>Project is along same route as previously completed pedestrian facilities.</i>
Implications of deferring the project	<i>Pedestrians will continue to walk along narrow roadway shoulder.</i>

PROJECT TITLE	NE 104TH STREET SIDEWALK		
PROJECT LOCATION	South side of NE 104th Street from 126th Avenue NE to 132nd Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

Approximately 1700 feet of new curb, gutter and sidewalk along the south side of NE 104th Street between 126th Ave NE & 132nd Ave NE including new ADA ramps, pavement markings and surface water improvements. Use of Low Impact Development (LID) and Planter Strips will be evaluated and implemented where possible. Grant funding is currently being pursued for project.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project total cost changed from \$1,763,500 to \$1,085,000 with updated cost estimate due to project length reduction with a portion of new sidewalk previously constructed by private development.

PROJECT TITLE	NE 140TH STREET - KELLER ELEMENTARY WALK ROUTE ENHANCEMENT - SOUTH SIDE		
PROJECT LOCATION	South side of NE 140th Street from Juanita-Woodinville Way to 113th Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Construct approximately 830 LF of curb, gutter and sidewalk along the south side of NE 140th Street between Juanita-Woodinville Way and 113th Avenue NE. This project will fill in missing links along a school walk route for Helen Keller Elementary. Project identified as potential candidate for NM 8888 - Annual Non-motorized Program.

PROJECT TITLE	NE 140TH STREET - KELLER ELEMENTARY WALK ROUTE ENHANCEMENT - SOUTH SIDE
----------------------	---

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, pedestrians, adjacent residents and drivers using this roadway will experience typical construction impacts and delays.</i>
Community economic impacts	<i>Will encourage non-motorized forms of transportation.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Improvements will provide safer travel for pedestrians.</i>
Responds to an urgent need or opportunity	<i>The need for improved pedestrian facilities throughout Kirkland has been identified in neighborhood meetings and in the City's Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Community support for safe pedestrian mobility is high.</i>
Conforms to legal or contractual obligations	<i>The project will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>N/A</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>North Juanita</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	JUANITA-KINGSGATE PEDESTRIAN BRIDGE AT I-405		
PROJECT LOCATION	Across I-405 at NE 140th Street or NE 145th Street	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Originally planned by King County DOT at NE 145th Street, a bridge at this location provides a non-motorized connection across I-405 with other wooded trail enhancements and roadway infrastructure improvements at the intersection of NE 145th Street and 114th Avenue NE; it serves to link Windsor Vista and Kingsgate Parks.

As an alternative, a bridge at NE 140th Street will connect Robert Frost Elementary and Helen Keller Elementary, as well as Edith Moulton and Kingsgate Parks.

Either location will serve to connect neighborhoods, pedestrians and bicycles of North Juanita and Kingsgate/Evergreen Hill where, currently, pedestrians have to make crossings at NE 132nd or NE 160th Streets.

PROJECT TITLE	NE 85TH STREET HOV QUEUE BYPASS		
PROJECT LOCATION	NE 85th Street at 114th Avenue NE (eastbound NE 85th Street to southbound I-405)	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Provide signal and traffic lane modifications eastbound on NE 85th Street that will allow transit and HOV traffic to enter I-405 in the southbound direction on a preemptive basis. The improvements will allow designated traffic to "by-pass" normal SOV queuing at the intersection. The project ranks high in the City's overall transportation needs as identified by the Ad-Hoc Transportation Criteria. The project will help the City attain the desired mode split level of service that is identified in the Comprehensive Plan. Project is subject to anticipated funding through development activities and related revenues.

PROJECT TITLE	6TH STREET/KIRKLAND WAY TRAFFIC SIGNAL
----------------------	--

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Construction impacts will be minor due to relatively short duration/length of project. Some increased delays will occur at the intersection during certain phases of construction.</i>
Community economic impacts	<i>Reduced congestion at intersection may lead to higher use of local businesses.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Pedestrian actuated controls will afford higher degree of safety for pedestrians using this intersection to cross 6th Street or Kirkland Way.</i>
Responds to an urgent need or opportunity	<i>It is anticipated that private funding will provide 100% of the funds for the project; this is being monitored by City Staff for timing.</i>
Feasibility, including public support and project readiness	<i>Project presents no significant constructability issues.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to comply with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Increased congestion. Potential expiration of private concomitant agreements which will require higher City contribution.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Moss Bay</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes</i></p> <p>How does the project conform to such references? <i>Project is identified on the 20-year list/map</i></p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	KIRKLAND WAY/EASTSIDE RAIL CORRIDOR ABUTMENT/INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	Intersection of Kirkland Way and the Cross Kirkland Corridor crossing	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

The project as currently anticipated will provide for a new railroad undercrossing along Kirkland Way which will allow installation of five-foot sidewalks as well as bike lanes on the north and south side of Kirkland Way. In addition, the clearance between the new roadway surface and the railroad bridge will be increased to alleviate frequent damage by passing vehicles. Site distance and intersection geometrics will also be addressed by the project. The non-motorized facilities along Kirkland Avenue/80th Street ped/bike overpass connect to a regional non-motorized route and the lack of facilities at Cross Kirkland Corridor crossing prevents a continuous route to downtown Kirkland. This project ranks high on the Ad-Hoc evaluation criteria. Due to potential change in use of the corridor by King County's acquisition, solutions to this intersection may be modified in future CIPs.

REASON FOR MODIFICATION (WHERE APPLICABLE)

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	KIRKLAND WAY/EASTSIDE RAIL CORRIDOR ABUTMENT/INTERSECTION IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Construction will significantly impact regular train service on the Eastside Rail Corridor line as well as those motorists using Kirkland Way. Kirkland Way has an estimated average daily trips of 5,000 - 8,000 vehicles per day (1998).</i>
Community economic impacts	<i>Will provide for improved non-motorized facilities which connect to the Central Business District. Potentially lower incidence of vehicular insurance claims.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Sidewalks and bikelanes along this section of Kirkland Way will provide safer passage; site distance and clearance improvements will reduce potential for vehicular conflicts.</i>
Responds to an urgent need or opportunity	<i>Increased popularity and emphasis on non-motorized transportation increases likelihood of injury.</i>
Feasibility, including public support and project readiness	<i>Design and construction of the facility will be difficult due to the lack of alternate routes for trains and vehicles.</i>
Conforms to legal or contractual obligations	<i>The design standards will be established by Eastside Rail Corridor and construction will entail significant coordination and authorization with Eastside Rail Corridor.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will continue non-motorized facilities identified as Kirkland Avenue Sidewalk (NM-0002).</i>
Implications of deferring the project	<i>Potential for vehicle and/or non-motorized user conflicts, however with recent acquisition by King County, the entire BNSFRR corridor is likely to be utilized as a non-motorized facility and would change the possible solutions at this intersection.</i>

PROJECT TITLE	LAKE WASHINGTON BOULEVARD HOV QUEUE BYPASS		
PROJECT LOCATION	Southbound Lake Washington Boulevard onto westbound SR-520 at the south Kirkland city limits	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

This project will add approximately 500 feet of southbound HOV travel lane to Lake Washington Boulevard between the buffer zone of Cochran Springs Creek and the City of Bellevue at SR-520. The project will relocate existing pedestrian facilities, reconfigure the existing traffic signal at the intersection, and will require acquisition of commercial property currently occupied by a cold storage/meat packing facility. This project will require an interlocal agreement with the City of Bellevue and considerable coordination with the Washington State Department of Transportation. These improvements will allow the intersection to maintain a level of service less than the required 1.4 volume to capacity ratio.

PROJECT TITLE	NE 116TH STREET EASTBOUND HOV QUEUE BYPASS		
PROJECT LOCATION	Eastbound NE 116th Street from approximately 118th Avenue NE to Southbound I-405	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install approximately 1,500 feet of new eastbound HOV lane west of the intersection of 120th Ave NE that will allow transit and HOV traffic to enter I-405 in the southbound direction. In addition 1,500 feet of westbound HOV lane from I-405 will be constructed. The project will also provide for Cross Kirkland Corridor overpass widening and signal modifications at the intersection of NE 116th Street and 120th Ave NE which will preempt or allow designated traffic to "by-pass" the normal SOV queuing at the intersection. Washington State Dept. of Transportation constructed significant improvements on I-405 and this HOV improvement will be compatible with those improvements. Coordination with WSDOT is imperative.

PROJECT #	TR 0072 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 116TH STREET EASTBOUND HOV QUEUE BYPASS
----------------------	--

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Temporary interruptions to traffic during construction which is anticipated to last approximately one year.</i>
Community economic impacts	<i>Construction of this and similar facilities will encourage greater utilization of car pools and transit.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will encourage means of transportation which will reduce regional emissions.</i>
Responds to an urgent need or opportunity	<i>The project ranks high in the City's overall transportation needs as an encouragement for non-single occupancy vehicles in the City's transportation system.</i>
Feasibility, including public support and project readiness	<i>The project is technically feasible and is consistent with goals of the community as outlined in the transportation element of the City's Comprehensive Plan.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed to meet legal and professional requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Continued barriers to HOV and transit.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake, South Juanita</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i></p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>
LEVEL OF SERVICE IMPACT	<p><input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation).</p> <p><input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 1,500 feet of HOV capacity</p> <p><input type="checkbox"/> Project assists in meeting/maintaining adopted level of service.</p> <p><input type="checkbox"/> Project required to meet concurrency standards.</p>

PROJECT TITLE	NE 70TH STREET EASTBOUND HOV QUEUE BYPASS		
PROJECT LOCATION	Eastbound NE 70th Street (300 feet to Southbound I-405)	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install approximately 300 feet of new eastbound travel lane west of I-405 that will allow transit and HOV traffic to enter I-405 in the southbound direction. The project will also provide for signal modifications at the I-405 freeway off-ramps which will preempt or allow designated traffic to "bypass" the normal SOV queuing at the intersection.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	CENTRAL WAY/PARK PLACE CENTER TRAFFIC SIGNAL		
PROJECT LOCATION	Intersection of Central Way and the Park Place entrance (between 4th Street and 5th Street)	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install traffic signal to minimize traffic conflict, improve safety and traffic operation. In addition to these vehicular improvements, existing unsignaled crosswalks at 5th Street and 4th Street will be eliminated. It is anticipated that the design and construction timing is concurrent with the development of Park Place, which will be required to install the traffic signal as part of SEPA mitigation. Project is subject to anticipated funding through development activities and related revenues.

PROJECT TITLE	CENTRAL WAY/PARK PLACE CENTER TRAFFIC SIGNAL
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, lane closures on Central Way will occur. Will add delay for vehicles traveling on Central Way.</i>
Community economic impacts	<i>Improved access to retail complex is likely to increase patronage of local businesses. Improved access to community facilities including Kirkland Performance Center, Senior Center, and Teen Center.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Signalized intersection will improve pedestrian crossing safety.</i>
Responds to an urgent need or opportunity	<i>Existing pedestrian conflicts at 5th Street and 4th Street could be avoided with elimination of existing sidewalks at those locations and pedestrians required to use the signalized crosswalk.</i>
Feasibility, including public support and project readiness	<i>The project presents challenges on the north leg of this intersection and will require negotiation and working with the surrounding businesses. Community support for improved pedestrian facilities has been identified at various public forums.</i>
Conforms to legal or contractual obligations	<i>N/A</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Increased costs and possible pedestrian conflicts.</i>

PROJECT #	TR 0090 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	LAKE WASHINGTON BOULEVARD/NE 38TH PLACE INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	Lake Washington Boulevard at NE 38th Place	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Install multiple upgrades to the existing signalized intersection including one additional northbound Lake Washington Boulevard travel lane through the intersection. Replace all existing pedestrian facilities and consolidate commercial driveways where feasible. It is anticipated that the design and construction timing is concurrent with the development of Park Place, which will be required to install the traffic signal improvements as part of SEPA mitigation. This intersection is projected to exceed the City's standard of 1.4 volume to capacity (V/C) ratio as identified in the City's 2022 transportation network modeling analysis. Project is subject to anticipated funding through development activities and related revenues.

PROJECT TITLE	LAKE WASHINGTON BOULEVARD/NE 38TH PLACE INTERSECTION IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, anticipated to last three to four months, traffic impacts and delays are anticipated. Pedestrian facilities that are impacted during construction will be coordinated with transit operations.</i>
Community economic impacts	<i>Intersection improvements will allow continued commercial and residential growth consistent with the Puget Sound Regional Council growth projections thereby leading to the continued prosperous development of Puget Sound.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Congestion resulting from poorly designed transportation systems lead to poor air quality, driver frustration, and possible traffic accidents.</i>
Responds to an urgent need or opportunity	<i>Will be required by the City's planning horizon of 2022.</i>
Feasibility, including public support and project readiness	<i>Intersection improvements at strategic locations throughout the City are favored over additional capacity through the addition of travel lanes that may be more of an impact to neighborhoods. The design and community outreach that will take part with this project will attempt to address local resident and business concerns during construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to meet professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>The Growth Management Act requires that communities develop concurrent development of infrastructure to meet growth; this project allows that concurrency for the transportation network.</i>
Benefits to other capital projects	<i>None at this time.</i>
Implications of deferring the project	<i>City will not meet concurrency goals established for the 2022 transportation network.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Lakeview</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: allows maintenance of 1.4 V/C ratio <input checked="" type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	NE 124TH ST/124TH AVE NE INTERSECTION IMPROVEMENTS		
PROJECT LOCATION	North leg of the intersection	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Widen north (southbound) leg to allow second left-turn lane, extend right-turn-only lane to become a through-right (right of way acquisition at railroad triangle required). Construct new railroad crossings on north leg and on NE 124th Street (west leg) per standards of new ownership of right of way. This is a candidate project included as a component of the Annual Concurrency Traffic Improvements Program Project, TR 8888.

PROJECT TITLE	NE 124TH ST/124TH AVE NE INTERSECTION IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction anticipated to last 6-8 months, minor traffic and pedestrian detours and delays can be anticipated.</i>
Community economic impacts	<i>Improvements to this intersection are required to sustain development in the Totem lake area including expansion of Evergreen Hospital.</i>
Health and safety, environmental, aesthetic, or social effects	<i>The improvements will incorporate improved railroad crossing arms and be designed to minimize vehicular conflicts.</i>
Responds to an urgent need or opportunity	<i>Concurrency for surrounding development activity may not be reached if the improvements are not installed.</i>
Feasibility, including public support and project readiness	<i>Project requires acquisition of costly commercial real estate and will present significant design and construction challenges</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to comply with professional and legal guidelines and requirements.</i>
Responds to state and/or federal mandate	<i>Concurrency under the Growth Management Act requires that sufficient facilities be constructed to handle growth.</i>
Benefits to other capital projects	<i>Will improve vehicular level of service in the Totem Lake area in conjunction with other planned improvements in the six-year CIP.</i>
Implications of deferring the project	<i>Continued escalation of costs, potential for the City to not meet concurrency requirements.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake, North Rose Hill</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	NE 116TH STREET/124TH AVE NE NORTHBOUND DUAL LEFT TURN LANES		
PROJECT LOCATION	South leg of intersection	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

This project will reconstruct the south leg (124th Ave NE) of the intersection to allow for two northbound left-turn lanes from 124th Ave NE to NE 116th Street. It will require signal modifications and lane reconfiguration. Due to projected traffic volume increases at this intersection, and in order to remain consistent with a maximum volume to capacity ratio of 1.4, the improvements must be constructed.

PROJECT TITLE	NE 132ND STREET / 116TH WAY NE - TOTEM LAKE BLVD (I-405) INTERSECTION IMPROVEMENTS
----------------------	--

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction by WSDOT, anticipated to last twenty- four to thirty months, traffic impacts and delays are anticipated. Pedestrian facilities that are impacted during construction will be coordinated with transit operations.</i>
Community economic impacts	<i>Intersection improvements will allow continued commercial and residential growth consistent with the Puget Sound Regional Council growth projections thereby leading to the continued prosperous development of Puget Sound.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Congestion resulting from poorly designed transportation systems lead to poor air quality, driver frustration, and possible traffic accidents.</i>
Responds to an urgent need or opportunity	<i>Will be required by the City's planning horizon of 2022.</i>
Feasibility, including public support and project readiness	<i>Intersection improvements at strategic locations throughout the City are favored over additional capacity through the addition of travel lanes that may be more of an impact to neighborhoods. The design and community outreach that will take part with this project will attempt to address local resident and business concerns during construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to meet professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>The Growth Management Act requires that communities develop concurrent development of infrastructure to meet growth; this project allows that concurrency for the transportation network.</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>City will not meet concurrency goals established for the 2022 transportation network.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Totem Lake, North Juanita</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>
LEVEL OF SERVICE IMPACT	<p><input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation).</p> <p><input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: City maintains less than 1.4 V/C at intersection</p> <p><input type="checkbox"/> Project assists in meeting/maintaining adopted level of service.</p> <p><input type="checkbox"/> Project required to meet concurrency standards.</p>

PROJECT TITLE	6TH STREET AND CENTRAL WAY INTERSECTION IMPROVEMENTS PHASE 2		
PROJECT LOCATION	6th Street and Central Way	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Install multiple upgrades to the existing signalized intersection. Phase I was completed in 2011, and resulted in signal improvements, water main upgrade, concrete roadway, pedestrian and bicycle lane improvements, and illumination at the intersection of 6th Street and Central Way. Phase II will result in a new signature "Gateway" to the Central Downtown area of Kirkland, and frontage improvements on 6th Street, additional travel lanes, a bicycle lane, and pedestrian improvements. This project is seeking external funding, and will complement TR 0104 (6th Street & 4th Avenue Intersection Improvements).

DESCRIPTION/JUSTIFICATION

Install traffic signal and associated roadway improvements between Totem Lake Boulevard and NE 120th Avenue NE to minimize traffic conflict, improve safety and traffic operations through the Totem Lake Mall. It is anticipated that the design and construction timing is concurrent with the development of Totem lake Mall which will be required to install the improvements as part of SEPA mitigation.

PROJECT TITLE	TOTEM LAKE PLAZA /TOTEM LAKE BLVD INTERSECTION IMPROVEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Pedestrian and vehicle traffic disruption during construction of individual projects.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Congestion resulting from poorly designed transportation systems lead to poor air quality, driver frustration, and possible traffic accidents.</i>
Responds to an urgent need or opportunity	<i>Will be required by the City's planning horizon of 2022.</i>
Feasibility, including public support and project readiness	<i>Intersection improvements at strategic locations throughout the City are favored over additional capacity through the addition of travel lanes that may be more of an impact to neighborhoods. The design and community outreach that will take part with this project will attempt to address local resident and business concerns during construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed to meet professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>The Growth Management Act requires that communities develop concurrent development of infrastructure to meet growth; this project allows that concurrency for the transportation network.</i>
Benefits to other capital projects	<i>Will improve vehicular level of service in the downtown area in conjunction with other planned improvements in the six-year CIP.</i>
Implications of deferring the project	<i>City will not meet concurrency goals established for the 2022 transportation network.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Totem Lake, North Rose Hill</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? <i>N/A</i> Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: City maintains less than 1.4 V/C at intersection <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	KIRKLAND INTELLIGENT TRANSPORTATION SYSTEM IMPLEMENTATION, PHASE II (CITY WIDE)		
PROJECT LOCATION	Various locations	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Project includes initiatives identified in adopted Kirkland ITS Strategic plan not addressed in Phases I or IIC . Goal is to reduce arterial travel time and accident rates and provide access to I-405 and the rest of the City. It will implement ITS improvements and integrate Phase I and IIC ITS corridors to ensure compatibility with Central Traffic Management, Communication and Traveler's Information Systems. Project will standardize, upgrade and integrate traffic signals and other ITS devices along arterial corridors to allow traffic monitoring, traffic data collection and better traffic management, all vital to City's goals for Totem Lake Urban Center. Its measures include signal interconnection, traffic signal equipment upgrades such as video detection, CCTV, controller cabinet assemblies, service cabinets, system loops/data collection stations, fiber optic communication to/from City's proposed TCC (Traffic Control Center). Additional intersections may also be included in order to complete the ITS strategic plan.

PROJECT LOCATION	NE 132nd Street, 120th Avenue/124th Avenue NE in Totem Lake	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Implementation of ITS upgrades at 9 intersections formerly on King County's network (6 of which are located in the newly annexed area) to integrate them into Kirkland's Phase I ITS (presently under design) and implementation of ITS improvements at 11 signals located at NE 132nd Street and 120th Avenue/124th Avenue NE corridors to connect these corridors to the City's new Traffic Management Center, Communication and Traveler's Information System constructed in the Phase I ITS project. Includes system engineering analysis, design, plans and specifications for the procurement and construction/installation of ITS devices such as controllers, cabinets, detection, CCTV and other related devices and for the fiber optic communication system that will allow devices to communicate to Kirkland's central traffic management facility presently under design.

2013 TO 2018**

PROJECT #	SD 0047 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL REPLACEMENT OF AGING /FAILING INFRASTRUCTURE
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, traffic detours, delays and disruption should be anticipated. These system improvements could also entail the use of "trenchless" technology which could reduce impacts to the public. Design considerations will strive to minimize public disruption.</i>
Community economic impacts	<i>The degradation of surface water infrastructure without appropriate scheduled and proactive repair/reconstruction will increase overall community costs due to repeated maintenance requirements.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Failing surface water infrastructure could lead to roadway, stream bank or other property damage. This damage in turn could lead to a decreased community support level for City services and/or claims, accidents, or high cost failures.</i>
Responds to an urgent need or opportunity	<i>This project is an important recommendation in the Surface Water Comprehensive Plan and will limit unanticipated expenses from the Surface Water operating fund.</i>
Feasibility, including public support and project readiness	<i>Projects have yet to be identified, however the community has historically supported proactive system maintenance.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>The timely replacement of failing infrastructure is consistent with Governmental Accounting Standards Board (GASB) Statement 34 and the Growth Management Act.</i>
Benefits to other capital projects	<i>Unknown specifics at this point, however, the project will reduce potential failure of streets or other above ground facilities if pipes fail while also reducing materials and downstream sedimentation that currently enter the drainage system from broken, separated, or failing pipes.</i>
Implications of deferring the project	<i>Increased maintenance commitment, potential system collapse, sedimentation downstream of failed pipe.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>City-wide</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	COCHRAN SPRINGS / LAKE WASHINGTON BLVD CROSSING ENHANCEMENT		
PROJECT LOCATION	3700 Block of Lake Washington Boulevard at Cochran Springs Creek	PROJECT START	PROJECT STATUS
		2012	Existing Project

DESCRIPTION/JUSTIFICATION

Sedimentation deposits in the channel downstream of this culvert results in backwater conditions and sedimentation presenting an ongoing maintenance task for City crews. The backwater condition impedes the culvert's capacity to convey large peak events. Additionally, sediment deposition downstream of Lake Washington Boulevard increases the risk of overbank flooding water in the Yarrow Bay business park. Improving fish passage at the culvert will allow access to approximately 375 feet of breeding and rearing habitat. Increasing the culvert's flow capacity will reduce the risk of flooding on Lake Washington Boulevard.

2013 TO 2018**

PROJECT #	SD 0048 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	COCHRAN SPRINGS / LAKE WASHINGTON BLVD CROSSING ENHANCEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>The preferred alternative for this project would require closure and detours on Lake Washington Boulevard which handles approximately 25,000 vehicles per day including transit, residential, commuting traffic, and business services. It is anticipated that the installation of the bottomless culvert would require closure of approximately two weeks and require a dedicated detour.</i>
Community economic impacts	<i>The closure during construction will have a temporary economic impact to drivers and possibly surrounding businesses. The long-term impact of continued sedimentation would contribute to seasonal flooding of the Boulevard which would have disruptive impacts to drivers.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Localized flooding and environmental degradation will continue if the sedimentation along this stretch of Cochran Creek is not addressed. Available fish habitat would be enhanced with the projects.</i>
Responds to an urgent need or opportunity	<i>This project is identified as a high priority in the Surface Water Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>The preferred alternative will require significant permitting, community information, and a significant detour/traffic control plan in order to be successful.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>Environmental and habitat enhancement for fish including native cutthroat and other species is consistent with the Endangered Species Act.</i>
Benefits to other capital projects	<i>None identified.</i>
Implications of deferring the project	<i>Continued sedimentation, loss of habitat, and potential flooding of Lake Washington Boulevard and surrounding commercial properties.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Lakeview</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	FORBES CREEK / KING COUNTY METRO ACCESS ROAD CULVERT ENHANCEMENT		
PROJECT LOCATION	Adjacent to the 11100 block of Forbes Creek Drive at Forbes Creek	PROJECT START	PROJECT STATUS
		2006	Modified Project

DESCRIPTION/JUSTIFICATION

An existing 12-foot-wide bottomless arch culvert conveys Forbes Creek under a King County sewer easement access road, approximately 145 yards upstream of Forbes Creek Drive and is in need of repair. The stream is eroding under the culvert footings, a hanging outfall at the downstream end of the culvert has created a fish blockage and the gabion walls on the upstream end of the culvert are collapsing. Corrective measures include the installation of log-boulder grade controls to promote channel aggradations up to and inside the culvert, placement of aggraded gravel to protect the eroding footings, repair to the gabion wall and stabilization of the adjacent streambanks.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project re-start date changed from 2013 to 2017 due to State permitting challenges and timelines. Project cost changed from \$965,900 to \$1,290,900.

PROJECT TITLE	FORBES CREEK / KING COUNTY METRO ACCESS ROAD CULVERT ENHANCEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>None. This project is located outside of the public right of way and is not adjacent to any private residents or commercial activity.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Project will stabilize the existing footings that support an existing 12' culvert, improve fish passage, and stabilize the bank on the upstream end of the culvert that if unchecked could fail at a future date.</i>
Responds to an urgent need or opportunity	<i>This project is identified as a high priority in the Surface Water Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>During the design development and community involvement process, the access and delivery needs of the neighbors will be addressed. This project does not present significant engineering issues. Permitting and environmental issues will be addressed during design.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>Environmental and habitat enhancement for fish including native cutthroat and other species is consistent with the Endangered Species Act.</i>
Benefits to other capital projects	<i>A number of projects are identified in the Forbes Creek basin; this is one element of those improvements.</i>
Implications of deferring the project	<i>Possible erosion leading to failure of existing facilities; failure of King County Sewermain.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>South Juanita</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	FORBES CREEK / COORS POND CHANNEL GRADE CONTROLS		
PROJECT LOCATION	South side of Forbes Creek Drive between 115th Ct NE and 113th Ct NE	PROJECT START	PROJECT STATUS
		2006	Modified Project

DESCRIPTION/JUSTIFICATION

Existing structures in the stream have created barriers to fish passage while channel downcutting continues. Install grade control structures, cut down height of structures and install habitat structures. These improvements will raise the channel, improve the fish passage and improve the instream habitat.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project re-start date changed from 2013 to 2018 due to State permitting issues and coordination with SD 0051. Project cost changed from \$1,227,200 to \$1,621,000

POLICY BASIS	PRIOR YEAR(S) BUDGET TO ACTUALS	METHOD OF FINANCING (%)

PROJECT TITLE	SURFACE WATER SEDIMENT POND RECLAMATION (PHASE II)		
PROJECT LOCATION	Southwest corner of the intersection of NE 128th St and 100th Ave NE	PROJECT START	PROJECT STATUS
		2012	Modified Project

DESCRIPTION/JUSTIFICATION

Phase I of the Sediment Pond reclamation project took place in 2004/2005. Phase II will consider flood plain development as an alternative. Project may include additional planting along Juanita Creek. Review potential for converting pond into a flood plain, improve riparian understory vegetation. Plant trees and understory shrubs on City-owned parcel downstream of NE 128th Street. Planting will provide shading for the stream, which will reduce water temperature.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project phased construction year moved from 2013 to 2015 due to State permitting challenges and timelines. Project cost changed from \$832,800 to \$851,000 due to updated cost estimate.

PROJECT TITLE	TOTEM LAKE BOULEVARD FLOOD CONTROL MEASURES		
PROJECT LOCATION	Totem Lake Boulevard between 120th Avenue NE and 124th Avenue NE	PROJECT START	PROJECT STATUS
		2007	Modified Project

DESCRIPTION/JUSTIFICATION

Totem Lake Boulevard has a history of flooding during mid to large storm events. Evaluation of the storm drainage system previously completed under this project has identified options for implementing flood control improvements. The improvements include emergency pumping and removal of sediment and vegetation along the conveyance channel. This work will reduce the frequency and magnitude of flooding on Totem Lake Boulevard.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project cost increased from \$585,400 to \$1,936,200 due to updated cost estimate for required work efforts (sediment and vegetation removal). Project completion date moved to 2014 for coordination with SD 0075.

PROJECT TITLE	TOTEM LAKE TWIN 42-INCH CULVERT REPLACEMENT		
PROJECT LOCATION	Totem Lake Blvd and 120th Avenue NE	PROJECT START	PROJECT STATUS
		2012	New Project

DESCRIPTION/JUSTIFICATION

This project will replace two segments of 42-inch twin corrugated metal pipe (cmp) culverts at approximately 350 lineal feet in length for each segment (700 lineal feet total). The culverts are 40 years old and have exceeded their useful life. The pipe material has deteriorated and has failed at two locations causing sink holes. The culverts are full of sediment and cannot meet flow requirements. The twin culverts will be replaced with one large diameter culvert that will be designed to meet fish passage requirements. This project will involve acquiring a permanent maintenance easement where the culvert runs through private property and obtaining all necessary permits. This project was approved by City Council at their regular meeting of April 17, 2012.

PROJECT LOCATION	NE 141st Street and 111th Avenue NE	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

An existing 48" storm pipe has partially filled with sediment and the reduced flow capacity has created backwater conditions at the inlet resulting in channel aggradation, erosion and undermining of adjacent trees, with partial structural failure of the inlet headwall. Fish were observed in the downstream reach and WDFW permitting will likely be required.

PROJECT TITLE	GOAT HILL STORM DRAINAGE REPAIR		
PROJECT LOCATION	Between NE 117th Place and 91st Place NE (hillside drainage channel)	PROJECT START	PROJECT STATUS
		2014	New Project

DESCRIPTION/JUSTIFICATION

Stream channel delivers sediment to the bottom of the slope where it impacts existing drainage structures and periodically overflows onto private property during high flow events. Project will evaluate and implement the best drainage alternatives including, but not limited to a tight-line stream channel and installation of a drainage structure for ease of maintenance.

PROJECT TITLE	BILLY CREEK RAVINE STABILIZATION PHASE 2		
PROJECT LOCATION	87th Court NE	PROJECT START	PROJECT STATUS
		2014	New Project

DESCRIPTION/JUSTIFICATION

Construct additional erosion control measures in an upper reach of Billy Creek that has experienced severe erosion from a failed drainage pipe. Phase I was constructed in winter of 2011/12 and completed to adjacent property where easement is required. Phase 2 will complete the original design as negotiations with property owner are completed.

PROJECT TITLE	PUBLIC SAFETY BUILDING STORMWATER TREATMENT/REUSE DEMONSTRATION PROJECT		
PROJECT LOCATION	11831 120th Avenue NE	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

Provide a water quality treatment component to the City of Kirkland Public Safety Building project. The City plans to renovate and existing structure for use as new Police Department, Court and Jail. The scope of work does not trigger storm water treatment permitting requirements; however, the opportunity to showcase innovative and effective ways to treat and reuse storm water is possible with this project. The project will install a 10,000 gallon cistern to collect roof water runoff for reuse as landscape irrigation, as well as providing storm filters and a rain garden for treatment of parking lot runoff.

PROJECT TITLE	NEIGHBORHOOD DRAINAGE ASSISTANCE PROGRAM (NDA)		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2013	New Project

DESCRIPTION/JUSTIFICATION

Design and construct small-scale flooding solution occurring outside the public right of way. Projects qualifying for assistance include those situation that are too small to rank highly in the regular Surface Water CIP, will benefit several homes or businesses while serving a general public benefit, and are primarily caused by the cumulative impacts of upstream development. Individual projects will be evaluated and those that qualify will be prioritized. Staff will produce a report each year summarizing the number type and priority of problems that qualify for NDA fixes, and a list of NDA projects completed in the previous year.

PROJECT TITLE	ANNUAL STREAMBANK STABILIZATION PROGRAM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Goals of the streambank stabilization program are to provide the public benefits of improved water quality and decreased flooding by stabilizing and restoring stream channels which may in many cases be located on private property. Most common stabilization methods will be upstream detention and in-stream stabilization/restoration using bioengineering techniques. Candidate projects under this Annual Program include: SD 0063 - Everest Creek - Slater Ave at Alexander St, SD 0061 - Everest Park Stream Channel/Riparian Enhancements, SD 0045 - Carillon Woods Erosion Control Measures, SD 0062 - Street Flood Control Measures at Kirkland Post Office, SD 0056 - Forbes Creek Ponds Fish Passage/Riparian Plantings and SD 0052 - Forbes Creek/ Slater Ave Embankment Stabilization.

REASON FOR MODIFICATION (WHERE APPLICABLE)

An updated priority ranking of the individual projects within the description above. Project timing and costs have been updated. Total project cost changed from \$835,400 to \$1,125,000, which reflects available remaining funds after funded projects are identified.

PROJECT TITLE	ANNUAL STREAMBANK STABILIZATION PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Variable - most of the project will be located off City streets.</i>
Community economic impacts	<i>Would protect adjacent and downstream properties from erosion and/or flood damage.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Would improve water quality and reduce potential for flooding.</i>
Responds to an urgent need or opportunity	<i>Project on private property may in many cases provide more cost effective solutions to City-wide problems than solutions constructed entirely within City right of way.</i>
Feasibility, including public support and project readiness	<i>Most projects will require easements from private property owners, and will require Fisheries and Corps of Engineers permits in addition to SEPA review.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>Consistent with the intent of the Puget Sound Water Quality Management Plan.</i>
Benefits to other capital projects	<i>Would protect and improve the effectiveness of publicly owned surface water infrastructure by reducing sedimentation and flooding.</i>
Implications of deferring the project	<i>Continued erosion that may cause sedimentation and flood damage.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	CARILLON WOODS EROSION CONTROL MEASURES		
PROJECT LOCATION	Carillon Woods, NE 55th Street at 105th Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

The new Carillon Woods (formerly the King County Water District #1 property) requires further evaluation and the possible establishment of erosion control measures to handle the re-direction of ground water into an established drainage basin situated on the west side of the property. This is a candidate project included as a component of the Annual Streambank Stabilization Program Project, SD 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SD 8888 - Annual Streambank Stabilization Program Project.

Amount of public disruption and inconvenience caused	<i>None; project entirely within Park area that is currently off limits to the public.</i>
Community economic impacts	<i>Depending on solution will reduce maintenance costs.</i>
Health and safety, environmental, aesthetic, or social effects	<i>If allowed to go unchecked, existing spring water could lead to erosion and/or other environmental issues.</i>
Responds to an urgent need or opportunity	<i>The results of removing this source of water for the Point communities is not yet known. Monitoring will establish the need and scope of the improvements.</i>
Feasibility, including public support and project readiness	<i>Design/solution is pending.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>A more monitored and consistent water supply was required for the Point communities; the resulting surplus of ground water from these springs will revert to natural conditions. Alternative solutions will need to meet the Department of Ecology requirements.</i>
Benefits to other capital projects	<i>None at this time.</i>
Implications of deferring the project	<i>Unknown at this time.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Central Houghton</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT #	SD 0046 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	REGIONAL DETENTION IN FORBES AND JUANITA CREEK BASINS		
PROJECT LOCATION	Various locations along Forbes and Juanita Creeks	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

The establishment of in-line ponds within both Forbes and Juanita Creeks to provide for detention, sediment control and flood prevention in connection with both public construction and private development activities. Siting of these facilities will be dependent on development patterns and will require that staff monitor private and public development. This is a candidate project included as a component of the Annual Storm Drain Replacement Program Project, SD 9999.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SD 9999 - Annual Storm Drain Replacement Program Project.

PROJECT TITLE	REGIONAL DETENTION IN FORBES AND JUANITA CREEK BASINS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Depending on actual siting of facilities.</i>
Community economic impacts	<i>Detention will improve overall drainage system by reducing flooding, erosion and overall degradation of the system. Partnership opportunities will be available that could allow private development and public resources to coordinate and reduce overall cost to system improvements.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Depending on actual siting of facilities.</i>
Responds to an urgent need or opportunity	<i>Continued development and the reduction of open space limits and or eliminates the opportunity to reduce surface water flows. Current standards can only be incorporated during redevelopment and or new construction – this project will allow implementation of community goals as outlined in the Surface Water Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>Depending on actual siting of facilities.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>Detention standards are mandated and enforced by the Department of Ecology along with other regulatory agencies; drainages into Lake Washington are critical in the overall efforts to enhance fish and environmental habitat.</i>
Benefits to other capital projects	<i>Depending on actual siting of facilities.</i>
Implications of deferring the project	<i>Continued degradation of drainage system and potential loss of opportunities for retrofit of outdated systems.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>City-wide</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	FORBES CREEK / 108TH AVENUE NE FISH PASSAGE IMPROVEMENTS		
PROJECT LOCATION	108th Ave NE, between Forbes Creek Drive and NE 108th Street at Forbes Creek	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

108th Avenue NE is elevated above Forbes Creek and the adjacent wetlands. Curbs on both sides of the road appear to prevent street runoff from draining to the stream resulting in standing water on the road during storm events. The existing dual 36-inch corrugated metal pipe culverts also have created a barrier to fish passage. The culverts are located in a depositional area of Forbes Creek resulting in one of the two culverts filling with sediment, restricting fish passage. This is a candidate project included as a component of the Annual Storm Drain Replacement Program Project, SD 9999.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SD 9999 - Annual Storm Drain Replacement Program Project.

PROJECT TITLE	NE 95TH STREET / 126TH AVENUE NE FLOOD CONTROL MEASURES		
PROJECT LOCATION	9400 block of 126th Ave NE	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

Water in a tributary to Forbes Creek backs up under NE 95th Street during storm events causing minor flooding within the crawl space of a home located at 9432 126th Ave NE. The most cost-effective solution to alleviate the flooding is to construct a berm that extends along the low lying area adjacent to the affected property. The length of the berm must be long enough to ensure that water will not flow around it. This is a candidate project included as a component of the Annual Storm Drain Replacement Program Project, SD 9999.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SD 9999 - Annual Storm Drain Replacement Program Project.

PROJECT TITLE	STREAM FLOOD CONTROL MEASURES AT KIRKLAND POST OFFICE		
PROJECT LOCATION	Post Office Creek, adjacent to the Post Office parking lot near 10th Street at 5th Avenue	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

Flooding of business park property along Post Office Creek, above the Kirkland Post Office property, has occurred due to heavy weed/grass growth in the channel, a 90-degree channel turn and an undersized culvert. The channel also has poorly vegetated banks and requires ongoing dredging. This project will improve or remove the culvert under the Post Office property fence, improve riparian vegetation along the reach upstream of the culvert, remove blackberries and weeds, and replant native vegetation in an effort to reduce the frequency and magnitude of flooding, and eliminate the need for future dredging. This is a candidate project included as a component of the Annual Streambank Stabilization Program Project, SD 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SD 8888 - Annual Streambank Stabilization Program Project.

PROJECT TITLE	STREAM FLOOD CONTROL MEASURES AT KIRKLAND POST OFFICE
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>This creek runs adjacent to a public pedestrian pathway that would necessitate closure during construction that is anticipated to last approximately three to four weeks; alternate routes are located nearby.</i>
Community economic impacts	<i>Would reduce the potential for property damage, loss of business and road closures due to localized flooding, channel migration/incision, and sedimentation of stormwater infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Localized flooding and environmental degradation will continue if the sedimentation along this stretch of an unnamed creek is not addressed. Proposed riparian and channel enhancements would provide aquatic, terrestrial and avian habitat benefits as well as aesthetically pleasing community green/open space. The location of this project would provide the opportunity for public education relating to natural resources stewardship and stormwater quality.</i>
Responds to an urgent need or opportunity	<i>This project is identified as a high priority in the Surface Water Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>During the design development and community involvement process, the access and delivery needs of the neighbors will be addressed. This project does not present significant engineering issues. Permitting and environmental issues will be addressed during design.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>Environmental and habitat enhancement for fish including native cutthroat and other species is consistent with the Endangered Species Act.</i>
Benefits to other capital projects	<i>None identified.</i>
Implications of deferring the project	<i>Continued flooding, sedimentation, channel migration/incision, habitat degradation, reduction of downstream conveyance capacity, damage to downstream capital projects and possible violations of state and/or federal stormwater regulations.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Moss Bay</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	EVEREST CREEK - SLATER AVENUE AT ALEXANDER STREET		
PROJECT LOCATION	Slater Avenue and Alexander Street	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

Flow enters this small ravine from an approximately 135 acre upstream basin via a pipe. Severe erosion around the pipe outlet has de-stabilized a road near the ravine, and sends large quantities of sand to downstream reaches of the creek, which results in increased maintenance needs in Everest Park. Installation of a highflow bypass and/or other stabilization features will prevent further damage to the road, and will reduce delivery of sediment to downstream areas thus reducing maintenance needs. This project is a potential candidate for the Annual Streambank Stabilization Program Project (SD 8888).

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SD 8888 - Annual Streambank Stabilization Program Project.

PROJECT #	SD 0063 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	EVEREST CREEK - SLATER AVENUE AT ALEXANDER STREET
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction of this project, adjacent property owners and motorists will be impacted by construction equipment and possible traffic detours.</i>
Community economic impacts	<i>Would reduce the potential for property damage and road closures due to localized flooding, channel incision, and sedimentation of stormwater infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Would reduce flooding, sedimentation, channel migration/incision associated health, safety and the above community impacts.</i>
Responds to an urgent need or opportunity	<i>Ravine is inherently unstable as it has highly erosive soils in a high seismic hazard area. It is difficult to predict when or if the walls of the ravine will collapse, but the damage that would occur if this were to happen is significant. Because of this uncertainty, there is a somewhat urgent need for this project.</i>
Feasibility, including public support and project readiness	<i>Access to the project area is relatively easy, and public support would likely be high. Permitting and environmental issues will be addressed during design.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines.</i>
Responds to state and/or federal mandate	<i>Project improves water quality. Several species listed under the Federal Endangered Species Act live in Lake Washington. The City is obligated to protect these species by improving the quality of water that flows to Lake Washington.</i>
Benefits to other capital projects	<i>May reduce the required scope of SD-0061 as sediment delivery will be reduced.</i>
Implications of deferring the project	<i>Ravine is unstable. Deferring the project may increase the likelihood of ravine collapse.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Moss Bay</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT TITLE	JUANITA CREEK WATERSHED ENHANCEMENT STUDY
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>None</i>
Community economic impacts	<i>May identify projects where public habitat restoration funds can be leveraged through partnerships with private land owners</i>
Health and safety, environmental, aesthetic, or social effects	<i>Would identify projects to improve fish habitat and water quality.</i>
Responds to an urgent need or opportunity	<i>Many land owners along Juanita Creek experienced bank erosion during the December 2007 storm, and are interested in pursuing stabilization projects.</i>
Feasibility, including public support and project readiness	<i>Project is a study. Public support would be one criteria used in prioritizing projects identified through the study.</i>
Conforms to legal or contractual obligations	<i>Addresses fish habitat restoration, which is a City obligation under the WRIA 8 Chinook Salmon Conservation Plan as adopted by the City Council.</i>
Responds to state and/or federal mandate	<i>Project is consistent with State and Federal mandates to protect and restore fish habitat.</i>
Benefits to other capital projects	<i>Project will unify an approach and goals for projects, leveraging City funds through grants. Project will coordinate with Juanita Basin Retrofitting Ecology grant project being conducted in partnership with King County and WSDOT.</i>
Implications of deferring the project	<i>Project list will be more fractured, and opportunities for partnering with private land owners may be lost.</i>

PROJECT TITLE	NE 86TH STEET STREAMBANK STABILIZATION		
PROJECT LOCATION	NE 86th Street east of 128th Avenue NE, and NE 86th and NE 87th Street, west of 128th Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Two small unnamed tributaries to Forbes Creek flow north from NE 86th Street at approximately 126th and 128th Avenues NE. In their current condition, these unstable channels are eroding and the material is clogging downstream drainage systems, leading to flooding. Stabilization using bioengineering techniques will reduce the frequency and severity of flooding and will improve water quality. Project will occur over approximately 500 feet of stream on private property.

PROJECT TITLE	REGIONAL DECANT AND CITY MAINTENANCE FACILITY		
PROJECT LOCATION	TBD	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

The project will construct a regional eductor truck decant facility for use by multiple local agencies and possibly private businesses, together with a city maintenance annex to serve the north Kirkland area. The facility will utilize recycling technologies to recover accumulated materials (rock & sand, etc.) through regular storm system cleaning. the collected material is segregated and stockpiled for re-use. Multiple neighboring agencies including, but not limited to, WSDOT, Redmond, Woodinville, Bellevue and Northshore Utilities, have expressed interest in financially participating in the project as it will serve to minimize the truck hauling times and dumping disposal costs for each, while maximizing reductions in carbon emissions. The recycled material will be available for city capital project and maintenance uses, and possible re-sale generating operational cost off-setting revenues. The Project is a prime candidate for possible grant funding, together with financial support through regional partnerships.

PROJECT TITLE	EMERGENCY SEWER PROGRAM WATERMAIN REPLACEMENT PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minor disruption to local traffic and pedestrian access is expected during construction.</i>
Community economic impacts	<i>Lower maintenance costs through modernization of the water system infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Benefits area residents through increased fire flow.</i>
Responds to an urgent need or opportunity	<i>Capitalizes on contractor availability and efficiencies through coordinated construction efforts associated with the biennial Emergency Sewer Program.</i>
Feasibility, including public support and project readiness	<i>Project represents scope of work that is typical for water utility construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed per legal and professional guidelines and requirements.</i>
Responds to state and/or federal mandate	
Benefits to other capital projects	<i>Scheduled to coincide with biennial Emergency Sewer Program in order to correct water system deficiencies, as encountered, during the time of the ESP construction.</i>
Implications of deferring the project	<i>Possible disruption in water service and a decrease in fire flow capacity over time.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	WA 0116 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 80TH STREET WATERMAIN REPLACEMENT (PHASE 2)		
PROJECT LOCATION	NE 80th Street, approximately 124th Avenue NE to 132nd Avenue NE; NE 80th Street, 116th Avenue NE to 120th Avenue NE	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

This Phase 2 improvement consist of replacing approximately 2,550 lineal feet of existing watermain with 20-inch ductile iron pipe on NE 80th St, from the eastern terminus of a completed (2008) Phase 1 project to 132nd Ave NE. Also includes approximate 280 feet of 8-inch water main for lateral connections, all associated fire hydrants and water services, etc. This Phase 2 improvement also includes 315 lineal feet of 20-inch, 790 lineal feet of 12-inch, and 120 lineal feet of 8-inch ductile iron pipe on NE 80th St from approximately 116th Ave NE to 270 feet east to the western terminus of the completed Phase 1 improvements. The project shares the cost of the ACP overlay with NE 80th Street Phase 2 sewer improvements under SS0067. This installation is to service the 545 gradient zone.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Total project cost increased from \$2,314,800 based on new construction cost estimates. Project description changed for consistency with Comprehensive Plan and 545 Zone improvement needs, and for coordination with other adjacent CIP projects.

PROJECT #	WA 0140 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 85TH STREET WATERMAIN REPLACEMENT		
PROJECT LOCATION	NE 85th Street from 114th Avenue NE to 132nd Avenue NE	PROJECT START	PROJECT STATUS
		2012	Modified Project

DESCRIPTION/JUSTIFICATION

Replacement of approximately 5,800 lineal feet of 16-inch RCCP transmission watermain with new 24-inch ductile iron pipe along NE 85th Street, from the existing PRV Vault near 114th Ave NE to 132nd Ave NE. Includes the replacement of the existing fire hydrants, existing lateral connections at the intersections of 114th, 120th, 122nd, 124th, 126th, 128th and 132nd Avenues NE.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project name changed from NE 80th Street Watermain Replacement Phase 2; project moved from unfunded to funded with a start in 2012 at City Council meeting of July 17, 2012; total project costs increased from \$2,863,000 due to updated cost estimate.

PROJECT TITLE	ANNUAL WATERMAIN REPLACEMENT PROGRAM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Replacement of existing watermain and water system appurtenances as required to complete the prioritized watermain projects list contained within the Water Comprehensive Plan Update. Candidate projects under this Annual Program include: WA 0103 - NE 113th Place/106th Ave NE Watermain Replacement, WA 0118 - 112th Avenue NE 114th Avenue NE Watermain Replacement, WA 0120 - 111th Avenue Watermain Replacement, WA 0124 - NE 97th Street Watermain Replacement, WA 0130 - 11th Place Watermain Replacement, WA 0136 - NE 74th Street Watermain Replacement and WA 0137 - NE 73rd Street Watermain Replacement, WA 0146 - 6th Street/Kirkland Way Watermain Replacement, WA 0147 - 106th Avenue NE Watermain Replacement.

REASON FOR MODIFICATION (WHERE APPLICABLE)

An updated priority ranking of individual projects was added to the description. Project timing and costs have been updated. Total project cost changed from \$1,000,000 and reflects available remaining funds after funded projects are identified.

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	SS 0064 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	7TH AVENUE SOUTH SEWERMAIN REPLACEMENT		
PROJECT LOCATION	7th Avenue S from State Street to 5th Street S	PROJECT START	PROJECT STATUS
		2016	Modified Project

DESCRIPTION/JUSTIFICATION

Replace up to 880 linear feet of 6-inch diameter concrete pipe with 8-inch diameter PVC pipe. The existing sewermain downstream of the former PACE chemical plant has severely corroded due to caustic chemicals that were dumped in the line. Re-development of the PACE chemical site may replace portions of this main; however, the remaining sections also need to be replaced. This is a candidate project included as a component of the Annual Sanitary Pipeline Replacement Program Project, SS 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from unfunded to funded; total cost changed from \$804,000 due to updated cost estimate to address known contaminated soils issues combined with the calculated start year and respective inflation factor.

PROJECT #	SS 0064 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	7TH AVENUE SOUTH SEWERMAIN REPLACEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Traffic disruptions, detours, and noise will occur during construction, which is anticipated to run approximately one month.</i>
Community economic impacts	<i>Necessary replacement of a portion of the utility infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Necessary sewer system replacement to provide continued sewer service and will reduce potential for sewer surcharges.</i>
Responds to an urgent need or opportunity	<i>Will provide for a more efficient sanitary sewer system compatible with future development and not prone to surcharge and the resultant environmental or social impacts.</i>
Feasibility, including public support and project readiness	<i>This project will not incur any unusual difficulties.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>NA</i>
Benefits to other capital projects	<i>NA</i>
Implications of deferring the project	<i>Although not specifically identified in the City's comprehensive plan, this project is consistent with policy U-3.4 which calls for the correction of deficiencies that present sewage overflow risk.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Moss Bay</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes; see XV.D-29</i> How does the project conform to such references? <i>consistent with</i> Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 75% (6" to 8" pipe diameter) <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	SS 0067 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NE 80TH STREET SEWERMAIN REPLACEMENT (PHASE 2)		
PROJECT LOCATION	124th Avenue NE (north leg) to approximately 128th Avenue NE; East ROW line of I-405 to approximately 122nd Avenue NE.	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

This Phase 2 improvement consists of replacing approximately 1,670 lineal feet of existing sewer main with new 12-inch PVC pipe on NE 80th Street, from the eastern terminus of a completed (2008) Phase 1 project to an existing manhole located in the center of the NE 80th Street/128th Avenue NE intersection. The new 12-inch main will be designed to be below the existing sewer main to allow existing side sewers to stay in service during construction and to allow additional slope on side sewers. The Phase 2 sewer improvements also consist of approximately 1,270 linear feet of 12-inch PVC sewer main on NE 80th Street from an existing manhole in 116th Ave NE (Adjacent to I-405 ROW) to the western terminus of the completed Phase 1 sewer improvements. The Project shares a portion of the cost of the ACP overlay with NE 80th Street Phase 2 water improvements under WA 0116.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project description changed for consistency and coordination with other CIP projects.

PROJECT TITLE	NE 80TH STREET SEWERMAIN REPLACEMENT (PHASE 2)
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction (from four to six months), traffic control will be required along NE 80th Street. Noise and congestion should be anticipated by residents and schools adjacent to NE 80th.</i>
Community economic impacts	<i>None anticipated.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will reduce potential for surcharging and the need for high maintenance.</i>
Responds to an urgent need or opportunity	<i>Addressed in the Sanitary Sewer Comprehensive Plan and ranked 16th of 26 City-wide capital projects.</i>
Feasibility, including public support and project readiness	<i>The project, an element of the City Council-adopted Sanitary Sewer Comprehensive Plan, presents no significant difficulties.</i>
Conforms to legal or contractual obligations	<i>The project will be designed and constructed to meet professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will improve overall system reliability and free up maintenance resources currently required on the line. This project is Phase III of the NE 80th Street Sewermain Replacement overall project.</i>
Implications of deferring the project	<i>Potential for system failure, possible surcharging, and above average requirement for maintenance and inspection.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>South Rose Hill</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes; see XV.G-15 (now Kirkland owns these /</i></p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	SS 0073 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ROSE POINT SEWER LIFT STATION REPLACEMENT		
PROJECT LOCATION	18th Avenue W near 10th Street W	PROJECT START	PROJECT STATUS
		2014	Modified Project

DESCRIPTION/JUSTIFICATION

Relocation/reconstruction of the existing lift station due to age and insufficient pumping capacity at peak flows during major storm events. The station improvements include a new wetwell/drywell layout compatible with the surrounding area, new system control, new 8-inch overflow line from the new station to adjacent top-of-the Waverly Basin manhole (if feasible), an emergency generator set (if new overflow line is not feasible) and 1,800 linear feet of 8-inch ductile iron or C900 PVC forcemain.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project moved from unfunded to funded; Total project costs increased from \$1,811,000 due to updated cost estimates in March 2012 and a one to two year sewer project inflationary increase for this previously unfunded project, now shown to begin in 2013.

DESCRIPTION/JUSTIFICATION

Installation of sewermain replacements to improve overall system reliability and to reduce maintenance and I & I (Infiltration and Inflow) costs. Candidate projects under this Annual Program include: SS 0062 - NE 108th St Sewermain Replacement/Rehabilitation, SS 0070 - 5th Street Sewermain Replacement, SS 0069 - 1st Street Sewermain Replacement, SS 0052 - 108th Avenue NE Sewermain Replacement, and SS 0062 - NE 108th Street Sewermain Replacement/Rehabilitation.

REASON FOR MODIFICATION (WHERE APPLICABLE)

An updated priority ranking of the individual projects within the description above. Project timing and costs have been updated. Total project cost changed from \$112,300 and reflects available remaining funds after funded projects are identified.

PROJECT #	SS 8888 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	ANNUAL SANITARY PIPELINE REPLACEMENT PROGRAM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction traffic control will be required. Noise and congestion should be anticipated by residents and motorists in the area.</i>
Community economic impacts	<i>None anticipated.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will reduce potential for I & I, surcharging and the need for high maintenance.</i>
Responds to an urgent need or opportunity	<i>Addressed in the Sanitary Sewer Comprehensive Plan.</i>
Feasibility, including public support and project readiness	<i>The project, an element of the City Council-adopted Sanitary Sewer Comprehensive Plan, presents no significant difficulties.</i>
Conforms to legal or contractual obligations	<i>The projects will be designed and constructed to meet professional and legal requirements and guidelines.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will improve overall system reliability and free up maintenance resources currently required on the line.</i>
Implications of deferring the project	<i>Increased maintenance, possible disruption in service.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>No</i> How does the project conform to such references? <i>No</i> Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	108TH AVENUE NE WATERMAIN REPLACEMENT		
PROJECT LOCATION	NE 60th Street to NE 68th Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Replacement of approximately 2,620 linear feet of 8-inch asbestos concrete watermain with new 12-inch ductile iron pipe on 108th Avenue NE, between NE 60th Street and NE 68th Street. The existing watermain serves a large area and system modeling shows that this watermain is at 60% to 69% of desired flow capacity.

PROJECT #	WA 0067 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	NORTH RESERVOIR PUMP STATION REPLACEMENT		
PROJECT LOCATION	Mark Twain Park at North Reservoir, 132nd Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

The existing below-grade pump station does not have heating or ventilation. The poor layout of piping and equipment inside the station makes it difficult and unsafe to perform maintenance and operation tasks. The reliability and remaining service life of the existing 2,500 gpm pump is unknown. The pump does not have adequate capacity to meet the supply requirements of the future. This project will replace the existing station with a new station that resolves the deficiencies and has a capacity of 5,000 gpm. This joint facility improvement will require participation by the City of Redmond at their established proportionate share of the total project cost. This is a candidate project included as a component of the Annual Water Pump Station/System Upgrade Program Project, WA 9999.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for WA 9999 - Annual Water Pump Station/System Upgrade Program Project.

PROJECT TITLE	NE 113TH PLACE/106TH AVENUE NE WATERMAIN REPLACEMENT
----------------------	--

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minor disruption to local traffic and pedestrian access is expected during construction.</i>
Community economic impacts	<i>Lower maintenance costs through modernization of the water system infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Benefits area residents through increased fire flow and improved system reliability.</i>
Responds to an urgent need or opportunity	<i>Represents a timely replacement of a portion of the water system and a reduction in potential for property damage claims.</i>
Feasibility, including public support and project readiness	<i>Project represents scope of work that is typical for water utility construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed per legal and professional guidelines and requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Possible disruption in water service and a decrease in fire flow capacity over time.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>South Juanita</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity?</p> <p>How does the project conform to such references?</p> <p>Attachments: <input type="checkbox"/> (Specify)</p>
LEVEL OF SERVICE IMPACT	<p><input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation).</p> <p><input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 30%</p> <p><input type="checkbox"/> Project assists in meeting/maintaining adopted level of service.</p> <p><input type="checkbox"/> Project required to meet concurrency standards.</p>

PROJECT TITLE	116TH AVENUE NE/NE 100TH STREET WATERMAIN REPLACEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minor disruption to local traffic and pedestrian access is expected during construction.</i>
Community economic impacts	<i>Lower maintenance costs through modernization of the water system infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Benefits area residents through increased fire flow and improved system reliability.</i>
Responds to an urgent need or opportunity	<i>Represents a timely replacement of a portion of the water system and a reduction in potential for property damage claims.</i>
Feasibility, including public support and project readiness	<i>Project represents scope of work that is typical for water utility construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed per legal and professional guidelines and requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Possible disruption in water service and a decrease in fire flow capacity over time.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>South Juanita</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 30% <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT TITLE	KIRKLAND AVENUE WATERMAIN REPLACEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Minor disruption to local traffic and pedestrian access is expected during construction.</i>
Community economic impacts	<i>Lower maintenance costs through modernization of the water system infrastructure.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Benefits area residents through increased fire flow and improved system reliability.</i>
Responds to an urgent need or opportunity	<i>Represents a timely replacement of a portion of the water system and a reduction in potential for property damage claims.</i>
Feasibility, including public support and project readiness	<i>Project represents scope of work that is typical for water utility construction.</i>
Conforms to legal or contractual obligations	<i>Project will be designed and constructed per legal and professional guidelines and requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>N/A</i>
Implications of deferring the project	<i>Possible disruption in water service and a decrease in fire flow capacity over time.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Everest</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 30% <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	6TH STREET SOUTH SEWERMAIN REPLACEMENT		
PROJECT LOCATION	NE 68th Street to approximately 8th Avenue South	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Preliminary design will examine feasibility of slip lining the existing sewer line or the need to replace the existing 10-inch concrete sewer line from NE 68th Street to approximately 8th Avenue South, with approximately 950 linear feet of 12-inch to 15-inch PVC pipe. Capacity issues with this sewer line that were identified in the 1992 Sewer Comprehensive Plan were alleviated with the installation of a new sewer main in NE 68th Street between 6th Street S/108th Avenue NE and Cross Kirkland Corridor in 1997.

PROJECT TITLE	6TH STREET SOUTH SEWERMAIN REPLACEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction, traffic control will be required on 6th Street; local businesses near construction area can anticipate noise and congestion during construction.</i>
Community economic impacts	<i>Will reduce maintenance requirements.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Reduce potential for sewer line backups due to collapsing pipe.</i>
Responds to an urgent need or opportunity	<i>Addressed in the Sanitary Sewer Comprehensive Plan and ranked 14th of 26 City-wide capital projects.</i>
Feasibility, including public support and project readiness	<i>The project has been identified in the City-wide Comprehensive Plan adopted by City Council. The replacement poses no unusual difficulties.</i>
Conforms to legal or contractual obligations	<i>Will be designed and constructed per professional and legal standards and guidelines</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will free up manpower resources currently required for maintenance and inspection of the line.</i>
Implications of deferring the project	<i>Higher than usual maintenance costs due to poor structural condition of the sewer line.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>Everest</i> Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes; see XV-E-9</i> How does the project conform to such references? <i>Water/sewer svcs inadequate to support development</i> Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 20% <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

DEPARTMENT CONTACT	Dave Snider

PROJECT TITLE	108TH AVENUE NE SEWERMAIN REPLACEMENT		
PROJECT LOCATION	NE 68th Street to NE 53rd Street	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Replace and/or rehabilitate approximately 4,000 linear feet of 8-inch concrete pipe with 8- to 12-inch PVC pipe. Perform video inspection to determine extent and priority of section improvements; preliminary design will examine the feasibility of installing replacement sewer line at a shallower depth than currently exists along this line (specifically between NE 59th Street to NE 53rd Street). This trunk line requires high maintenance due to significant structural deficiencies.

PROJECT TITLE	108TH AVENUE NE SEWERMAIN REPLACEMENT
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction of this sewer line (from four to six months), traffic control will be required, which will lead to possible delays and congestion. Adjacent residents and commercial properties should anticipate noise and congestion.</i>
Community economic impacts	<i>Construction adjacent to business area may have potential disruptive impact to business due to congestion and traffic delays.</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will improve capacity and diminish potential for surcharge of existing line.</i>
Responds to an urgent need or opportunity	<i>Addressed in the Sanitary Sewer Comprehensive Plan and ranked 20th of 26 capital improvements City-wide.</i>
Feasibility, including public support and project readiness	<i>The project presents no significant engineering or constructability difficulties. The project was an element of the City Council-adopted Sanitary Sewer Comprehensive Plan.</i>
Conforms to legal or contractual obligations	<i>All improvements will be designed and constructed in conformance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Will reduce manpower requirements for inspection and maintenance of the existing concrete trunk line.</i>
Implications of deferring the project	<i>High maintenance of the existing line.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>Central Houghton</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes; see XV.B-10</i></p> <p>How does the project conform to such references? <i>Mentions sewer/water facility upgrades/extensions</i></p> <p>Attachments: <input type="checkbox"/> (Specify)</p>

PROJECT TITLE	NE 108TH STREET SEWERMAIN REPLACEMENT/REHABILITATION		
PROJECT LOCATION	108th Avenue NE to approximately Forbes Creek at 100th Avenue NE	PROJECT START	PROJECT STATUS
		Undetermined	Modified Project

DESCRIPTION/JUSTIFICATION

Replace and/or rehabilitate the existing trunk line with approximately 3,000 linear feet of 12-inch to 18-inch diameter PVC pipe. Perform video inspection to determine the extent of the improvements. The existing trunk line, a likely source of inflow and infiltration (I/I), experiences minor storm event surcharging and does not have adequate capacity for full development within the basin. This is a candidate project included as a component of the Annual Sanitary Pipeline Replacement Program project, SS 8888.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project identified as potential candidate for SS 8888 - Annual Sanitary Pipeline Replacement Program project.

PROJECT TITLE	NE 108TH STREET SEWERMAIN REPLACEMENT/REHABILITATION
----------------------	--

CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>During construction of this sewer line (from four to six months), minor traffic control will be required. Adjacent residents should anticipate noise from normal construction activity.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Will improve capacity and diminish potential for surcharge of existing line.</i>
Responds to an urgent need or opportunity	<i>Addressed in the Sanitary Sewer Comprehensive Plan and ranked 24th of 30 projects.</i>
Feasibility, including public support and project readiness	<i>Project is adjacent to existing METRO sewer force main pipelines which presents a need for careful construction techniques. The project is an element of the City Council-adopted Sanitary Sewer Comprehensive Plan.</i>
Conforms to legal or contractual obligations	<i>All improvements will be designed and constructed in conformance with professional and legal requirements.</i>
Responds to state and/or federal mandate	<i>N/A</i>
Benefits to other capital projects	<i>Reduction of infiltration and inflow reduces the load on the Juanita Lift Station which is currently under design for replacement.</i>
Implications of deferring the project	<i>Continued occurrences of storm surcharging and eventual capacity shortfall with continued property development within the drainage basin.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	<p>Name of Neighborhood(s) in which located: <i>South Juanita</i></p> <p>Is there a specific reference to this project or land use in the immediate vicinity? <i>Yes; see XV.I-44</i></p> <p>How does the project conform to such references? <i>consistent with</i></p> <p>Attachments: <input type="checkbox"/> (Specify)</p>
LEVEL OF SERVICE IMPACT	<p><input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation).</p> <p><input checked="" type="checkbox"/> Project provides new capacity. Amount of new capacity provided: 30%</p> <p><input type="checkbox"/> Project assists in meeting/maintaining adopted level of service.</p> <p><input type="checkbox"/> Project required to meet concurrency standards.</p>

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	PK 0049 000
DEPARTMENT	Parks
DEPARTMENT CONTACT	Michael Cogle

PROJECT TITLE	OPEN SPACE, PARK LAND & TRAIL ACQUISITION GRANT MATCH PROGRAM		
PROJECT LOCATION	Undetermined	PROJECT START	PROJECT STATUS
		2013	Existing Project

DESCRIPTION/JUSTIFICATION

This project would establish a park and trail acquisition fund to assist with or provide funding for acquisition of key sites as they become available. Acquiring more sites would fill gaps in the City's park system, provide open space contiguous to existing parks or provide important linkages. This project allows the City to remain eligible for State-funded grant programs.

PROJECT TITLE	PARK PLAY AREA ENHANCEMENTS		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Design, purchase, and construction of new or replacement playground/play area equipment and surfacing. This project provides for the regular and on-going improvement to worn-out equipment in City parks. Parks are determined on an annual basis as funding is available and based on a safety and quality inspection of existing equipment and play areas in City parks. Preliminary schedule: 2015: Van Aalst Park; 2016: Forbes Creek Park; 2017-2018: sites to be determined based on on-going assessment and inspections of existing infrastructure.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Overall schedule revised to reflect no playground replacement in 2013 as originally planned due to no anticipated need within the park system. No playgrounds scheduled to be enhanced/replaced in 2014 as per original schedule.

PROJECT TITLE	JUANITA BEACH PARK DEVELOPMENT (PHASE 2)		
PROJECT LOCATION	Juanita Beach Park	PROJECT START	PROJECT STATUS
		2003	Modified Project

DESCRIPTION/JUSTIFICATION

Implementation of park master plan improvements. Funding for 2017/2018 targeted for second phase of improvements, which may include select improvements to the park's north side, as described in the park master plan. City funding would be utilized to match a maximum \$500,000 required grant from either State or Federal sources.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Phase 2 project implementation moved from 2013 to 2017/2018 due to lack of State grant availability in 2013.

PROJECT TITLE	JUANITA BEACH PARK BATHHOUSE REPLACEMENT (PARK LEVY)		
PROJECT LOCATION	Juanita Beach Park	PROJECT START	PROJECT STATUS
		2015	New Project

DESCRIPTION/JUSTIFICATION

Replacement of existing bathhouse facility with new structure to accommodate restrooms, showers, maintenance, and non-motorized boating concession. Design and placement as specified in adopted park master plan. Site-related costs include demolition of existing structure, site restoration and landscaping, new electrical service for entire park, reconfigured pathways, and relocation of playground area. Project triggers 1% for art requirement. Project recommended by Park Funding Exploratory Committee (PFEC) to be funded by proposed voted levy to potentially be placed on the November 2012 ballot. If ballot measure passes, project will be moved to funded status.

PROJECT TITLE	GREEN KIRKLAND FOREST RESTORATION PROGRAM			
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS	
		Ongoing	Modified Project	

DESCRIPTION/JUSTIFICATION

Implementation of 20-year urban forest restoration plan (which began in 2006) in City parks, including removal of invasive plants such as English Ivy and Himalayan Blackberry. Planting of new trees and native shrubs/groundcover. Parks to include, but not limited to, Watershed Park, Carillon Woods, Juanita Bay Park, Everest Park, Kiwanis Park and Crestwoods Park.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project funding increased per year from \$50,000 to \$75,000 to reflect growth in program to more restoration sites.

DEPARTMENT	Parks
DEPARTMENT CONTACT	Michael Cogle

PROJECT TITLE	LEE JOHNSON FIELD SYNTHETIC TURF AND LIGHTING (PARK LEVY)		
PROJECT LOCATION	Peter Kirk Park	PROJECT START	PROJECT STATUS
		Undetermined	New Project

DESCRIPTION/JUSTIFICATION

Replacement of playing surface at Lee Johnson Field with new synthetic turf. New turf will increase playability and expand use for a variety of community sports programs, including baseball, softball, soccer, and lacrosse. Replace field lighting with new efficient lighting to reduce glare to surrounding neighborhood and reduce operation costs.

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	PS 0071 000
DEPARTMENT	Fire & Building
DEPARTMENT CONTACT	Jack Henderson

PROJECT TITLE	SELF-CONTAINED BREATHING APPARATUS (SCBA)		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

Replace self-contained breathing apparatus (SCBA) on fire department emergency response vehicles. Current SCBAs were purchased in 2003. The existing equipment has had extensive use in firefighting/training and will be nearing the end of the useful, efficient life. As the equipment becomes worn it is increasingly expensive to repair and maintain, along with new updated technology for firefighter survivability and safety being available. The project cost covers new SCBA tanks, units, extra masks, and a "buddy breathing system" for each unit.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Changed project years from 2015 to 2016 to 2013 per instructions based on sinking funding. Changed base price to 741,600

DEPARTMENT	Fire & Building
DEPARTMENT CONTACT	Helen Ahrens-Byington

PROJECT TITLE	LOCAL EMERGENCY AND PUBLIC COMMUNICATION AM RADIO		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

The ability of the City to communicate to the public before, during and after a disaster is critical; having multiple avenues to communicate is an integral part of that. A local Advisory Radio will allow the City to communicate critical information to any person in the area with an AM radio. It will also allow the City to communicate emergency information or directions to those that are passing through our community. An important added benefit to this equipment is that it will allow the City another form of communication with the community about non-emergency events or public education messages on an ongoing basis. This way citizens will be familiar with getting information on the Kirkland AM station and during a disaster they will already know to listen for information.

PROJECT TITLE	NETWORK SERVER REPLACEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	
Community economic impacts	
Health and safety, environmental, aesthetic, or social effects	
Responds to an urgent need or opportunity	<i>The city's network and application servers host the systems used by all departments for day to day business activities. Servers that are too slow, overloaded, or unreliable cause down time and lost productivity.</i>
Feasibility, including public support and project readiness	
Conforms to legal or contractual obligations	
Responds to state and/or federal mandate	
Benefits to other capital projects	<i>Almost all IT CIP projects depend on the network servers for staff to get work done. Some directly depend on it.</i>
Implications of deferring the project	<i>Unstable network servers could cause significant disruption city-wide, including interruption in services for citizens.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT #	IT 0110 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	NETWORK INFRASTRUCTURE			
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS	
		Ongoing	Modified Project	

DESCRIPTION/JUSTIFICATION

Provides for upgrades/replacements of network routers, switches, firewalls, wireless access points and other hardware security appliances (e.g. email and internet monitoring and filtering). This equipment connects City outbuildings, network servers, network storage, the phone system and staff computers to our core network, which is split between Kirkland City Hall and Bellevue City Hall. It provides secure connections to networks outside of the City's internal network. This project also funds the City's share of the capital costs associated with the Community Connectivity Consortium (city/schools/hospital fiber optic network). Previously included in the Local and Wide Area Networks project.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

POLICY BASIS

PROJECT #	IT 0120 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	NETWORK STORAGE		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Provides for upgrades/replacements of the Storage Area Network (SAN), which stores most city data, and the network backup infrastructure. Equipment replacements/upgrades occur on a cyclical basis and funding in 2013 finishes equipment replacement that started in 2012. Handling the SAN and the backup infrastructure together will allow staff to price multiple options including off-premises (cloud) and on-premises solutions and provides more options for switching to a new and possibly better and less expensive technology family. The projects are again being grouped in the 2017/2018 time frame for the same reason. Previously included in the Local and Wide Area Networks project.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

PROJECT #	IT 0120 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	NETWORK STORAGE
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	
Community economic impacts	
Health and safety, environmental, aesthetic, or social effects	
Responds to an urgent need or opportunity	<i>The city's network storage holds the daily work output of all city staff, the databases for most of our applications, shared files, and electronic records. The current backup and storage technology is over four years old, will soon be unsupported, and we are nearing the available capacity.</i>
Feasibility, including public support and project readiness	
Conforms to legal or contractual obligations	
Responds to state and/or federal mandate	
Benefits to other capital projects	<i>Almost all CIP projects depend on the network storage for staff to get work done. Some directly depend on it. For example, all electronically stored city data resides on network storage.</i>
Implications of deferring the project	<i>Instability in the network storage could cause significant disruption to all automated systems city-wide, including interruptions of service for citizens. The inability to adequately backup and protect data could also have significant repercussions.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)

PROJECT #	IT 0130 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	NETWORK PHONE SYSTEM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

Provides for upgrades/replacements of the City's phone system. In 2015, the City's current phone system will be due for its regularly scheduled software upgrade and hardware replacement. Phone system technology has been rapidly evolving and staff expects to replace the current system, which the City has used since 2004, at this time. It is likely that an all-software solution that integrates with our other desktop tools will be selected. The move into the new public safety building is scheduled close to this project. Timing should be evaluated to combine efforts and minimize costs.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

PROJECT #	IT 0130 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	NETWORK PHONE SYSTEM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	
Community economic impacts	
Health and safety, environmental, aesthetic, or social effects	
Responds to an urgent need or opportunity	<i>The city's phone system is used for day to day internal and external communication.</i>
Feasibility, including public support and project readiness	
Conforms to legal or contractual obligations	
Responds to state and/or federal mandate	
Benefits to other capital projects	
Implications of deferring the project	<i>A failure of the phone system could cause significant disruption city-wide, including interruptions of services for citizens. The inability to place or receive calls could reduce levels of service city-wide and have a significant impact in an emergency.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

PROJECT #	IT 0140 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	NETWORK SECURITY			
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS	
		Ongoing	Modified Project	

DESCRIPTION/JUSTIFICATION

Provides funding for a regularly scheduled information technology security assessment by a third party. Often the findings from these assessments will recommend additional safeguards for information technology systems. The 2013 funding in this project reflects the findings of the 2012 security assessment. Additional staff or consultant resources may be required to actually accomplish this work. The final results of the security study are due in April: these 2013 numbers are based on the draft report.

This project also provides additional funds for strong authentication, also known as dual factor authentication. Strong authentication provides an extra layer of security for those wishing to remotely access the City's network and is a requirement for public safety and PCI certification. This is the second phase of a strong authentication project that is scheduled to begin in 2012. Previously included in the Local and Wide Area Networks project.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

PROJECT TITLE	NETWORK SECURITY
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	
Community economic impacts	
Health and safety, environmental, aesthetic, or social effects	
Responds to an urgent need or opportunity	<i>The city has a moral – and in many cases legal – requirement to protect the data that it stores for and about its citizens and customers. Certain data, such as public safety, credit card, and health data has very stringent security requirements.</i>
Feasibility, including public support and project readiness	
Conforms to legal or contractual obligations	
Responds to state and/or federal mandate	
Benefits to other capital projects	<i>The stability of the network depends on our ability to protect it from potential security threats. Almost all CIP projects depend on a secure environment for network servers and network storage.</i>
Implications of deferring the project	<i>A significant network security breach could result in lost productivity and/or significant fines.</i>

PROJECT TITLE	GEOGRAPHIC INFORMATION SYSTEMS			
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS	
		Ongoing	Modified Project	

DESCRIPTION/JUSTIFICATION

GIS projects are grouped by biennium (e.g., 2013-14, 2015-16, etc.), funded by both capital project and general fund sources, and subject to oversight by a director-level GIS steering committee. The City's GIS administrator works closely with the steering committee and finance to ensure that GIS program priorities and performance are aligned with the City's work plan, City Council goals, and resource constraints. Community initiatives such as transportation, economic development, public safety, and regional collaboration are all reflected in particular GIS program tasks and products. A GIS work plan is prepared each year to help manage the enterprise-wide GIS effort, including ongoing database maintenance, special projects, technical program enhancements, and workgroup-specific support. The GIS program directly benefits at least two-thirds of City staff with an easily accessible intranet GIS browser, multiple standard products, high quality spatial data repository, training, and advanced technology tools tailored to meet identified business needs. Through regional projects like NWMAPS, GIS also benefits citizens and businesses in Kirkland directly.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	FINANCE AND HR SYSTEM MODULES			
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS	
		Ongoing	Modified Project	

DESCRIPTION/JUSTIFICATION

The City's core financial systems are used to help all departments manage and report on their budgets, to assist and facilitate purchasing and to perform accounts payable, payroll, and human resources functions. As policy, law, and other factors change, changes also need to be made to these systems in order to accurately and properly collect and report data and to assure adequate audit trails exist. Projects include business process improvements for core financial and HR/Payroll systems, banking interface improvements, Springbrook cashing and billing system upgrade and IFAS system upgrade to Windows/SQL platform.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project costs changed to reflect current state of upgrades on software and anticipate hardware replacement needs. Project also modified for new numbering system.

PROJECT #	IT 0402 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	FINANCIAL SYSTEM REPLACEMENT		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2016	Modified Project

DESCRIPTION/JUSTIFICATION

The estimated system life in current long-term systems replacement planning is ten years. Since real life often results in systems lasting a different amount than ten years, we will carefully analyze when is the correct time for replacement next time we prepare a six-year CIP. At the moment, the system and the vendor are working sufficiently to survive past the ten year mark. The high cost of replacing this system includes some contingency for backfill staff in Finance and possibly also in IT, due to the sheer volume of work related to testing and implementing a new finance system. This project should be linked with the scheduled project to replace the utility billing system since many vendors offer both Finance and utility billing systems.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated. Project moved from unfunded.

PROJECT #	IT 0601 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Donna Gaw

PROJECT TITLE	HELP DESK SYSTEM REPLACEMENT PHASE 2		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

The Information Technology department implemented a new service desk application in 2011. The second phase of the project is to enhance our ability to meet IT best practice standards by moving our change management process from a home-grown custom solution into the service desk application (also a recommendation of our recent security audit) and implement workflows for common approval and task processes. A workflow to lead managers/directors and HR personnel through common IT activities will benefit all parties as information will be captured up front and IT can respond to the events in a more timely manner. A workflow for security requests will standardize requests for access to folders, groups and applications. The approval can be stored in the workflow so that administrators of the folders, groups and applications do not have to print and store them separately.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated. Project moved from unfunded.

PROJECT #	IT 0602 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Karen Friesen

PROJECT TITLE	STANDARD REPORTING TOOL		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

The Standard Reporting Tool is designed to improve how staff access and report on data and to support better management decisions. Currently many different report writing software products are used. Standardizing with one product would develop IT and business experts on that product and enable more users in the enterprise to develop skills to create their own reports. This will provide better access to information by staff and management and allow IT to spend less time creating basic reports and be more available for complex reports. The current reporting tools require extensive training in order for an average user to be able to write their own report. Significant IT Applications time is spent training, assisting or creating reports for application users.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project funds for a reporting tool were previously allocated as part of the finance system upgrade. Moving to a stand alone application allows usage by several city systems, not just the finance/HR application.

PROJECT #	IT 0702 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	MAINTENANCE MANAGEMENT SYSTEM REPLACEMENT		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2013	Modified Project

DESCRIPTION/JUSTIFICATION

The Hansen maintenance management system helps manage inventory, repair history and work orders relating to public works infrastructure such as the water and sewer systems. Hansen is undergoing a major restructuring, which will change the product to more of a web-based tool. Although the system support funding pays for the actual software upgrade, this project funds services from the vendor to help implement the revised system and to train users.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project start date moved from 2012 to 2013-14 and total project cost reduced from \$250,000 to \$182,000 due to change in scope. Licensing and professional services included to integrate Parks dept. so they can leverage system to track work orders and time. Project number changed to reflect new numbering convention for technology projects.

PROJECT #	IT 0901 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	DISASTER RECOVERY SYSTEM IMPROVEMENTS		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		2007	New Project

DESCRIPTION/JUSTIFICATION

The current server room and City network infrastructure is very disaster-resistant. It is not, however, very recoverable. If there is a disaster of such magnitude that it damages the equipment at City Hall, Bellevue city hall, or makes the building unusable, the City is not effectively prepared to bring up major applications in another location and keep the business of the City running. This project will help develop a more robust and testable plan, as well as purchase needed hardware and software. This means the City would have to operate in an emergency without access to GIS, in-ground public works inventory in GIS and maintenance management, finance, the City website, email, or other critical systems. The current funding level does not complete this project but should help get the most critical systems set up to work in a disaster. An IT disaster recovery plan is also a requirement for PCI compliance.

PROJECT #	GG 0008 000
DEPARTMENT	Public Works
DEPARTMENT CONTACT	Donna Burris

PROJECT TITLE	ELECTRICAL, ENERGY MANAGEMENT AND LIGHTING SYSTEMS		
PROJECT LOCATION	All City Buildings	PROJECT START	PROJECT STATUS
		Ongoing	Modified Project

DESCRIPTION/JUSTIFICATION

The funds will cover the cost of replacing electrical, energy management and lighting systems such as: alarm panels, interior and exterior lighting, and direct digital control energy management systems at the end of their useful lives. The following buildings are included in the Life Cycle Model: City Hall, all Fire Stations, Peter Kirk Community Center, North Kirkland Community Center, Kirkland Teen Union Building, City Hall Annex, Heritage Hall, Kirkland Performing Arts Center, the Municipal Parking Garage, and all of the structures at the Maintenance Center. The life cycle is 15 years for a typical exterior or interior light fixture and 20 years for an energy management system. Any facility in this group that has one of these items scheduled to occur from 2013-2018 is included in this request.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Updated projects, project timing, and project costs for City Hall, all Fire Stations, Peter Kirk Community Center, North Kirkland Community Center, Kirkland Teen Union Building, City Hall Annex, Heritage Hall, Kirkland Performing Arts Center, the Municipal Parking Garage, and all of the structures at the Maintenance Center.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	Donna Burris

PROJECT TITLE	FLOORING REPLACEMENTS
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	<i>Some areas of buildings will need to be closed during replacement of floors or the work will be done after hours, when buildings are not open to the public, or when staff has left for the day.</i>
Community economic impacts	<i>N/A</i>
Health and safety, environmental, aesthetic, or social effects	<i>Replacement of worn out flooring will eliminate safety hazards and maintain a reasonable aesthetic standard at all of the City facilities.</i>
Responds to an urgent need or opportunity	<i>Some flooring materials are worn out and need to be replaced. Wood floors are beginning to fail and preventative measures and maintenance cannot sustain the heavy use of these floors any longer.</i>
Feasibility, including public support and project readiness	<i>N/A</i>
Conforms to legal or contractual obligations	<i>N/A</i>
Responds to state and/or federal mandate	<i>Meets state, federal and local building codes.</i>
Benefits to other capital projects	<i>Protection of City assets.</i>
Implications of deferring the project	<i>Deferring flooring replacement will result in a lower aesthetic standard and an increased safety hazard in City facilities.</i>
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input checked="" type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. PROJECT #	GG 0013 103
DEPARTMENT	Public Works
DEPARTMENT CONTACT	D. Burris/M. Beard

PROJECT TITLE	PUBLIC SAFETY BUILDING PHASE III		
PROJECT LOCATION	11831 120TH AVE NE Located in the Totem Lake area	PROJECT START	PROJECT STATUS
		2012	Modified Project

DESCRIPTION/JUSTIFICATION

The present City Hall facility, including the Public Safety portion, was originally built in 1982 and expanded in 1994. The 1994 expansion was expected to accommodate ten years of growth. The City Hall facility is now at capacity and departments were relocated to other facilities (505 Market and City Hall Annex) to relieve overcrowding in City Hall. Over the years, the City was able to acquire the properties to the south of City Hall (now rental properties) with the intent of completing a future expansion of the City Hall/Public Safety campus. When the City Council accepted the annexation of Finn Hill, North Juanita and Kingsgate neighborhoods, further studies were conducted to determine how best to provide court, police and jail services. The decision was made to purchase an existing commercial building to design and remodel to fit the needs of police and court services. Design work began in 2011 and will continue through 2012. Construction will begin in 2013.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Design/Permitting, Construction, Internal Professional Services - Updated Project Costs and Project Timeline. Project completion extended by 3 months into 1st Quarter of 2014. \$3,190,087 originally planned in Phase II will be utilized in Phase III. Phase III total project costs updated from \$23,255,000 to \$30,716,352. Projected ongoing O&M costs added.

DEPARTMENT	Public Works
DEPARTMENT CONTACT	M. Beard/D. Burris

PROJECT TITLE	CITY HALL RENOVATION		
PROJECT LOCATION	City Hall and properties to the south	PROJECT START	PROJECT STATUS
		2012	Modified Project

DESCRIPTION/JUSTIFICATION

The present City Hall facility, including the Public Safety portion, was originally built in 1982 and expanded in 1994. The 1994 expansion was expected to accommodate ten years of growth. The City Hall facility is now at capacity and two departments were moved to another facility (505 Market) to relieve overcrowding in City Hall. Over the years, the City was able to acquire the properties to the south of City Hall (now rental properties) with the intent of completing a future expansion of the City Hall/Public Safety campus. It is anticipated that the construction of this project would occur in 2014. After police are relocated to the new Public Safety Building, City Hall will be remodeled to accommodate departments currently in 505 Market and the City Hall Annex.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project cost increased from \$9,000,000 to \$10,000,000 and matches information presented to City Council on 2/10/2012. Project moved from unfunded to funded. Begin pre-design work in October 2012.

PROJECT #	IT 0401 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	UTILITY BILLING/CASHIERING SYSTEM REPLACEMENT		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

The estimated system life in current long-term systems replacement planning is ten years. Since real life often results in systems lasting a different amount than ten years, we will carefully analyze when is the correct time for replacement next time we prepare a six-year CIP. At the moment, the system and the vendor are both working well. This project should be linked with the scheduled project to replace the Finance System since many vendors offer both Finance and utility billing systems.

The utility billing system manages utility accounts for water, sewer, and other metered services, produces bills, and manages the payment cycle. This complex system accepts payment via cash or check (mail or in-person), via direct transfer from a bank account, or via the web.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

**CITY OF KIRKLAND
CAPITAL IMPROVEMENT PROGRAM
2013 TO 2018**

PROJECT #	IT 0902 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	CUSTOMER RELATIONSHIP MANAGEMENT SYSTEM		
PROJECT LOCATION	City-wide	PROJECT START	PROJECT STATUS
		Undetermined	Existing Project

DESCRIPTION/JUSTIFICATION

Currently, when citizens contact the City of Kirkland, they must be able to determine who to contact about what issue. A customer relationship management system (CRM) will provide a single point of contact for citizens - the same number to call for a pothole, a complaint about a dog off a leash, or a question about a street project. A CRM system requires significant business process alignment and highly integrated back-end systems.

REASON FOR MODIFICATION (WHERE APPLICABLE)

Project numbering convention for technology projects has changed and project costs and timing have been updated.

PROJECT #	IT 0902 000
DEPARTMENT	Information Technology
DEPARTMENT CONTACT	Brenda Cooper

PROJECT TITLE	CUSTOMER RELATIONSHIP MANAGEMENT SYSTEM
CRITERIA	PROJECT IMPACTS (RESPOND TO ALL SECTIONS WHICH APPLY)
Amount of public disruption and inconvenience caused	
Community economic impacts	
Health and safety, environmental, aesthetic, or social effects	<i>A CRM system can enhance the citizens feelings of connectedness in their community (will close the loop on communication, so that a citizen who reports a pothole will know it has been fixed) and safety (it increases the transparency of all our operations) and will save time (they will have a one-stop place to contact city staff).</i>
Responds to an urgent need or opportunity	
Feasibility, including public support and project readiness	<i>Larger cities such as New York and Baltimore have had significant success implementing CRM systems. They are beginning to be deployed in medium-sized cities as well with the technology and best practices becoming well-enough developed to make successful implementation possible.</i>
Conforms to legal or contractual obligations	
Responds to state and/or federal mandate	
Benefits to other capital projects	
Implications of deferring the project	
CONFORMANCE WITH ADOPTED COMPREHENSIVE PLAN	Name of Neighborhood(s) in which located: <i>City-wide</i> Is there a specific reference to this project or land use in the immediate vicinity? How does the project conform to such references? Attachments: <input type="checkbox"/> (Specify)
LEVEL OF SERVICE IMPACT	<input type="checkbox"/> Project provides no new capacity (repair, replacement or renovation). <input type="checkbox"/> Project provides new capacity. Amount of new capacity provided: <input checked="" type="checkbox"/> Project assists in meeting/maintaining adopted level of service. <input type="checkbox"/> Project required to meet concurrency standards.

Equipment Rental

Capital Improvement Program

City of Kirkland 2013 to 2018 Capital Improvement Program Equipment Rental Section

The Equipment Rental section includes all replacement vehicles costing \$50,000 or greater. All replacement vehicles are 100% funded by accumulated reserves in the Equipment Rental Fund. Included in this section is a summary chart listing the vehicles to be replaced over the six-year period of 2013–2018.

The vehicles planned for replacement costing \$50,000 or more are subject to the same process as the entire fleet with respect to replacement standards. In June of each year, each vehicle whose normal accounting life expires in the coming six budget years is examined to determine whether extending its service life beyond the original replacement date is a financially sound decision. Considerations include engine hours, mileage, maintenance history, structural wear, declining resale value, and future intended use of the proposed replacement vehicle. If a determination is made that a vehicle is to be replaced, “right-sizing” of the vehicle for its intended use will be conducted. A vehicle will normally be replaced in kind, and “right-sizing” often results in a lesser cost. Upgraded vehicles for specific functions may require an approved Service Package in order to cover the difference between the replaced vehicle’s Replacement Reserve account and the cost of the proposed replacement vehicle.

Savings are incurred when the operational life of vehicles can be extended beyond their normal accounting life. This is usually due to low engine hours, mileage, or major repairs that have been performed to the vehicle. The vehicles on the six-year CIP schedule are analyzed using these factors and their replacement reserve reflects anticipated normal usage. If a vehicle that has reached its normal accounting life is evaluated to have ongoing functionality, the useful life of that vehicle may be extended.

There are thirteen vehicles costing in excess of \$50,000 currently scheduled for replacement in 2013. Four of the thirteen, were extended one year beyond their normal accounting life, F-14, F-15, F-16 (2/3 yard dump trucks), and M-3B (a 16’ wide area mower) due to good condition. One of the thirteen, S06-09 (a corrections van), was extended two years beyond its normal accounting life, which was 2011, due to good condition. An additional vehicle, U-05 (a utility truck) was extended four years beyond its normal accounting life, which was 2009. The other seven vehicles, which include a Fire pumper replacement, are on schedule for the normal replacements in 2014.

There are five vehicles costing in excess of \$50,000 currently scheduled for replacement in 2014. One of the five, was extended one year beyond its normal accounting life, U-06 (a walk-in utility truck), due to the type of use. The other four vehicles are on schedule for their normal replacements in 2014.

The extension of operational use for each of these vehicles has been noted in the comments section of the attached chart.
