

Houghton Park and Play Update

04.07.25

Jodie Galvan - Interim Park Planning and
Development Manager

[Jgalvan@kirklandwa.gov](mailto:jgalvan@kirklandwa.gov) 425.587.3305

Current Features Include

- Community gardens with 28 plots
- Four pickleball courts
- Skate park
- Bicycle pump track and bike park

What will happen to these features if the City partners with the Kraken to develop an iceplex and community center at this location?

The City of Kirkland is committed to maintaining existing service levels by relocating these features to new locations when or if that becomes necessary!

No features will be removed until necessary.

Community Gardens

The community garden plots will be relocated to a new addition to Rose Hill Meadows Park in 2026 upon Council approval of a property donation adjacent to the park.

Pickleball

The City of Kirkland is partnering with the Lake Washington School District to dual stripe eight existing tennis courts at Kirkland Middle School and Finn Hill Middle School this summer. Kirkland Parks and Community Services is assessing community interest in (and costs for) converting one of our existing tennis courts at Peter Kirk Park to up to three pickleball courts in fall 2025.

Please respond to this [survey](#) to let us know what you think!

Bike Features

We are in the process of identifying locations throughout the City that can accommodate the bike pump track and bike park features without significant site preparation.

One idea is to add the features to the north end of Terrace Park which is conveniently located adjacent to the Cross Kirkland Corridor! See one possible layout in the top photo.

Please respond to this [survey](#) to let us know what you think!

Skate Park

We are also in the process of identifying locations throughout the City that can accommodate the skate park features without significant site preparation.

One idea is to renovate the current skate park located at Peter Kirk Park which is also the site of the newly renovated Kirkland Teen Union Building! See one possible layout in the top photo.

Please respond to this [survey](#) to let us know what you think!

Questions or Suggestions?

Please contact the Interim Park Planning and Development Manager, Jodie Galvan, at jgalvan@kirklandwa.gov or 425.587.3305.

Please share your thoughts about relocating the features at the Houghton Park and Play to other locations in Kirkland by completing this community [survey](#).

Thank you!
