

ADA INCLUSIVE FEATURES

NIDO™ SPINNER

The Nido™ Spinner is a soothing space at the playground where all children, including children with autism spectrum disorder (ASD) or other sensory processing differences, can go to find comfort and regroup. The cozy, pod-like design makes children feel sheltered and gives them the option to be spun around and around—an activity that's fun and developmentally rich for everyone and can be soothing for those who experience overstimulation in busy spaces. Thoughtfully designed to be an inclusive event, the Nido Spinner invites everyone inside to give it a whirl!

360° LOOP

Play equity is redefined with the latest play innovation – the 360™ Loop. This slide, transfer, climber combination allows for children of all abilities to have control over their play experience and be able to play and move independently in an all-new way.

FREEDOM SWING SEAT

There's nothing quite like the joy of swinging. The feeling of freedom and flying while the ground fades away and you feel like a bird, like a plane or even a superhero. The Freedom Inclusive Swing Seat allows children of all abilities to enjoy the childhood joy of swinging in a safe and secure swing seat created just for them. Pair it with a standard Burke swing beam and accessible surfacing to create an inclusive play space everyone can enjoy.

PANELS

Panels provide more ways for kids to get creative and use their imagination while providing opportunities for cooperative and social play. Accessible Reach Panels allow children in wheelchairs to comfortably participate in multiple activities, while also developing fine motor skills.

EVOLUTION INCLUSIVE CLIMBER

The Evolution Inclusive Climber offers a flexible, inclusive climbing experience designed to support choice and confidence. Is a universally designed climber that, paired with an optional slide, creates a smooth, continuous play experience for children of differing abilities. Textured handrails and a traction-enhancing rubber belt support balance and efficient movement that feels familiar to a child using a wheelchair. This exciting climber helps create playgrounds where more children can move, explore and play on their own terms.

SERENITY SPOT

Learn. Socialize. Sit. Relax. Play Engage. All this and more are the purpose behind the creation of the Serenity® Spot. A fort-like environment with games, a spinning seat and a variety of activities that can be calming and allow the expression of stimming behaviors, this is a place where everyone is welcome to be themselves.
