

Pedestrian Flag Types

- Orange flag on left is 18" x 18" vinyl material on a 24" x 3/4" diameter wooden dowel. Used with iron pipe holders.
- Orange flag on right is 14" x 14" vinyl material on a 24" x 3/4" diameter wooden dowel. Used with PVC holders.

- Yellow flag is 14" x 14" vinyl material on a 24" x $\frac{3}{4}$ " diameter wooden dowel. Used with PVC holders.

Pedestrian Flag Holder Types

- PVC holder, these are the newest holders and preferred over the original iron pipe holders (see below). Instructions on how to fabricate this holder are located in the next section.

- Iron pipe holder, these are the original style of holder that we used in the past and are still being used at some locations.

Pedestrian Flag Holder Fabrication Instructions

Materials list:

- (1) 6" diameter PVC pipe, approximately 7 $\frac{3}{4}$ " - 8" in length
- (1) 6" black poly drain grate
- (2) $\frac{3}{4}$ " self-drilling #8 screws

The body of the holder (also called the cylinder) is the PVC pipe. The pipe comes in 2' lengths and is cut into three equal parts. The cylinder should be no shorter in length than $7\frac{3}{4}$ ". Both ends of the cylinder are sanded smooth so that there are no rough edges.

Two $\frac{3}{8}$ " dia. holes spaced $4\frac{1}{2}$ " center to center and are drilled on the side of the cylinder. Top of first hole is $\frac{3}{4}$ " from top of cylinder. Holes are placed on "back" of cylinder where black ink lettering is found on pipe. Diameter of holes and spacing can vary depending on the mounting hardware being used.

Black poly drain grate is fully inserted into bottom of cylinder.

With drain grate inserted pre-drill two holes on either side of cylinder $\frac{3}{4}$ " from bottom of cylinder. Secure with two of the self-drilling screws. Decals or other messaging can be applied to the holder.

Completed pedflag holder.
