Comments labeled as Project Requests may become a future candidate through the city's capital improvement program. Those labeled as a Service Request will be managed through the city's day to day programs such as site distance evaluations, speeding concerns, street maintenance, etc. All ideas will require additional transportation and engineering review.		
ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
1	Need traffic calming at ! This is a Safe Routes to School but it is not safe for pedestrians or bikes. Children often walk to/from Kirkland Middle School and walk/bike to/from downtown. There are stop signs on 6th St W but they are so far back from the intersection that drivers either don't stop or they stop but can't see the cross traffic. The shrubs are trimmed, but visibility is still difficult. A 4-way stop might help, but a traffic calming circle would be even better.	95	93	2	Service Request	Speeding/ Traffic Calming	traffic circle
2	We need the Lake Washington Blvd Promenade! Give us good safe connections from downtown to the 520 bike trail! Let's show off our waterfront and bring people in to business! Let's use our waterfront Blvd for more than just a cheater route for commuters avoiding 405.	73	68	5	LAKE WASHINGTON BLVD NE415	Active Transportation Network	Project support - LWB promenade
3	This crossing is often difficult even with the RRFB activated, as drivers come through here so quickly. Central Way is a big part of our downtown we should treat it like a place to go and not just a place to speed through. There's no need for the road to be this wide or the traffic to be this fast.	58	52	6	Service Request	Speeding/ Traffic Calming	
4	There's a "No Turn On Red" sign here which is routinely ignored, because it's set back of the stop line. If we're serious about people not turning on red, there should be additional signage hanging with the actual stop light. Or the "No Turn On Red" sign should be removed, as it doesn't seem to do much anyway.	52	49	3	Service Request	Vehicle Network/ Operations	Signs/signals
5	Eliminate Right Turn on Red at Central Way and Lake Street. Vehicles often turn right on red from Central Way without regard to pedestrians who have the "Walk" signal to cross Central. I've almost been hit several times by turning vehicles.  Also eliminating right turn on red at this intersection will improve traffic flow.	51	41	10	Service Request	Pedestrian Safety	Signal Operations

ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
6	Juanita drive is the main artery of the Finn Hill area. The fact that there is no bus route connecting Juanita with Kenmore means the Hill essentially has no public transportation access aside from the 225, which is slow and doesn't provide good coverage for the Hill. It would be so nice to have a bus route introduced going from Juanita beach to Bothell Way and with it the bus routes 255 on the south with 225, 337, 331 on the north. This would give a viable alternative to driving.	47	46	1	Transit request	Transit	New Service
7	Bring Light Rail to Kirkland. You are already adding a big bus stop, LR will help massively with Commute to Bellvue/Seattle	43	35	8	Transit request	Transit	New Service
8	Design Kirkland's core to adhere to policies stated in the Greater Downtown Kirkland Urban Center Plan. Including: Policy MB 7: Pedestrian activity in the core area is to be enhanced. The core area should be enhanced as the pedestrian heart of Downtown Kirkland. Land uses should be oriented to the pedestrian, both in terms of design and activity type. This includes road design. Policy MB 9 includes surface parking lots to be eliminated in favor of nearby structured parking.	41	35	6	Design Standards	Active Transportation Network	Pedestrian
9	Crossing Central Way in the downtown corridor is hazardous for pedestrians, and that includes the new RRFP crossing at the Wingdome corner which give pedestrians a false sense of security since many cars ignore the flashers. Central Way should be un-designated as an arterial, which would allow more effective traffic calming measures such as raised crosswalks.	41	36	5	Project Request	Vehicle Network/ Operations	Functional Classification

	Comment made by dropping a point on the map and making a comment.	These are votes in response to the initial comment.			Comments labeled as Project Requests may become a future candidate through the city's capital improvement program. 10	People speed up this hill so quickly! They come around the corner and then rev their engines at all hours of the day, but especially between 7pm and midnight. I have almost been run over at the 4th Ave crossing many times, even with the lights flashing. We need traffic calming and speed control on Market Street between Central Way and 7th Ave.	41	36	5	Service Request	Speeding/ Traffic Calming	
11	West of this spot there's a protected bike lane, hundred yards east of this spot there's a protected bike lane, but on the crossing, we decided to paint an island instead for the cars that are turning left onto 6th from Kirkland way. Reclaim that dead space and paint a protected bike lane instead	40	37	3	CIP_NMC1590000	Bicycle Network	Protected Bike Lanes
12	Please provide a safe path for pedestrians to reach the Waverly Park waterfront without sharing the narrow and downward-sloping entrance road with cars. There is no safety guardrail on the left side of the road going downward. There is no sidewalk either. It would be beneficial to build a staircase at the entrance to reach the middle parking lot level. This would separate cars from pedestrians and lead to higher usage of the existing staircase from the middle parking lot level to the waterfront.	39	39	0	Project Request	N/A - Parks	
13	Create a walking trail under the power lines to connect students to the east entrance of Juanita High School.  This new trail would allow students coming from NE 124th (at about 108th Ave NE) to walk to the east entrance of Juanita High School on 128th.  Students would be able to safely walk this short path away from cars and would avoid traveling 1.5 miles out of their way to get to school.	38	37	1	Project Request	Active Transportation Network	Juanita Public Pathway

	Comment made by dropping a point on the map and making a comment.	These are votes in response to the initial comment.			Comments labeled as Project Requests may become a future candidate through the city's capital improvement program. 14	It would be nice if this were an underpass for the CKC the way it's done in Kenmore for the Burke Gilman trail. I have a hard time believing drivers are actually going to stop here consistently, even with a HAWK.	37	37	0	CKC_P1	CKC	New bridge/underpass
15	Drivers frequently speed down this stretch of road at WELL over the posted limit. Some traffic calming here would go a long way to making this connection between the CKC and Everest Park usable for all ages and abilities, including kids riding to school.	36	33	3	Service Request	Speeding/ Traffic Calming	
16	520 Bike Trail to CKC Connection.  We need a better way to connect (on a bike) from the 520 trail to the CKC. They are two great pieces of bicycle infrastructure, but connecting between them feels dangerous.	36	36	0	Project Request	Active Transportation Network	520 Trail Access
17	The Southbound lanes merge, to create a bus-only lane. Sadly, the merge happens as the road bends around the corner, so there is little notice or time to react. moving the merge farther North, and adding Merge ahead signs would help.	34	34	0	Service Request	Sign request	
18	How about running public campaigns to let pediatricians know that they don't have the right to just walk across a street without looking!! Peds in this town think they are immune to the traffic laws which work because they are predictable in every instance.	33	4	29	Education	Pedestrian Safety	
19	NB bike lane needs to continue all the way to the CKC	33	31	2	Project Request	Bicycle Network	Bike lanes

	Comment made by dropping a point on the map and making a comment.	These are votes in response to the initial comment. 20	17th Ave W is becoming a safety hazard. More and more often it is not wide enough for a fire truck or EMT vehicle to pass. The streets in this northern section of the neighborhood were not platted with wide streets. The original gravel parking strips in front of homes are being removed by development, pushing parked vehicles into the street. Big increases in density provide more homes (a good thing), but also sprout many more vehicles parked on street. This safety issue needs to be addressed.	33	32	1	Service Request	Safety	lane widths
21	Close Park Lane to most traffic (deliveries if needed only). All great cities in the world have pedestrian shopping streets that don't have vehicle traffic. Park Lane is the perfect street for this. Not only would it be more attractive to shoppers and restaurant-goers, but it would help the traffic backup on Lake Street.	32	29	3	Project Request	Vehicle Network/ Operations	Pedestrian Streets
22	Create a short trail to connect the east entrance of Juanita High School to 124th, allowing students to walk safely and avoid traveling 1.5 miles out of their way.  The trail could go under the power lines, as shown behind the people in the attached photo.	32	31	1	Project Request	Active Transportation Network	Juanita Public Pathway
23	Reintroducing a direct bus route to downtown Seattle from Kirkland would be a huge help.	31	27	4	Transit request	Transit	Restore Service
24	Central Way should be one-lane west of 3rd street. There are a lot of residential buildings and businesses on the north end that are difficult to access by foot. Central Way already shrinks to one lane once it passes Lake St.	30	27	3	Project Request	Vehicle Network/ Operations	Channelization

ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
25	There is currently no crossing allowed here, forcing users to walk/bike to the main intersection (which is even more unsafe). We desperately need an overpass/underpass to allow safe and proper use of the East Link Trail.	30	30	0	CKC_P1	CKC	New bridge/underpass
26	Roundabout needed. This would allow for safer pedestrian crossings as well as safer U-turns to/from Central. This is a very confusing intersection and a roundabout would make it clearer who has right-of-way without significantly impeding traffic flow. And clarify those turning left and going straight when coming down the hill.	29	21	8	Project Request	Vehicle Network/ Operations	Roundabout
27	This section of Juanita drive is dangerous and needs sidewalks for pedestrians and better separation of bike lanes from the car lanes.	28	27	1	Project Request	Active Transportation Network	Protected Bike Lanes and Sidewalks
28	The crosswalk at the CKC has very poor visibility. All the flowers/greenery are nice, but obscure the sight lines significantly.	28	28	0	Service Request	CKC	Crosswalk visibility
29	16th Ave W is becoming a safety hazard. At times it is not wide enough for a fire truck or EMT vehicle to pass. The streets in this northern section of the neighborhood were not platted with wide streets. The original gravel parking strips in front of homes are being removed by development, pushing parked vehicles into the street. Big increases in density provide more homes (a good thing), but also sprout many more vehicles parked on street. This safety issue needs to be addressed.	27	27	0	Service Request	Safety	lane widths
30	Addendum to: "Please provide a safe path for pedestrians to reach the Waverly Park waterfront". Here is a diagram of a non-motorized path with stairs that was in the Waverly Beach Park Renovation Plan Phase 1 circa 2014. (See bottom right of the diagram.) This path was pushed to Phase 2, but that was 10 years ago. Let's get this done! MANY pedestrians of all ages and abilities mix with vehicles on that scary access road. Let's include runnels for bikes, too. Thank you!	27	27	0	Project Request	N/A - Parks

31	The Kirkland City Council voted in 2023 NOT to close Park Lane. 100% of the property owners and businesses were against the closure of Park Lane. The City of Kirkland has stated in writing that the decision of the council cannot be appealed. This is a closed case.	26	5	21	Project Request	Vehicle Network/ Operations	Pedestrian Streets
32	Make it possible to reasonable bike and walk down 85th through here (or via an adjacent street) The current routes for bikes to go from Rose Hill are very circuitous and/or extremely steep. Bikes should have as easy a way to get downtown from Rose Hill / 85th street as cars do.	26	23	3	ATP_Pri_7312	Project Support	NE 85th St Interchange
33	Downtown Kirkland needs all ages and abilities bike facilities and safer crossing facilities for pedestrians.	26	23	3	Project Request	Active Transportation Network	Protected Bike Lanes and Crosswalks
34	Please make this a 4 way stop, very dangerous at times car going fast and it's hard to see due to plants.	26	25	1	Service Request	Speeding/ Traffic Calming	Speeding, Sight distances
35	This crossing from the connector trail to 8th is dangerous for bikes, as cars coming from Kirkland way are usually speeding and this is a blind spot right after the truck eating bridge. Suggest adding some warning crossing signal	26	26	0	Project Request	Pedestrian Safety	Crosswalk
36	Please install a four-way stop sign at 16th Ave W and 6th street intersection and trim the overgrown bushes to improve visibility. It's essential for the safety of children crossing after getting off school buses. There have been several close calls with speeding vehicles nearly hitting these children on 16th and 6th streets. Let's not wait for a tragedy before making changes. The City of Kirkland should take proactive steps to prevent accidents and safeguard our community's children.	26	26	0	Service Request	Pedestrian Safety	Speeding, visibility, intersection control
37	Love the greenway idea, but there still needs to be a safe market street crossing with minimal impact to traffic such as a pedestrian crossing. I have seen many cars drive through the blinking yellow pedestrian lights (even though they do make a huge difference so thank you!).	25	25	0	ATP_Pri_3182	Pedestrian Safety	Crosswalk

ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
38	There should be a streetlamp here to light up walkers to the grocery market and other retail destination. There is a turn in from market that is dangerous in the dark hours when drivers cannot see the many pedestrians walking to and from the grocery market along this street. There is currently little or no lighting for those cars pulling into the neighborhood from busy market street.	24	24	0	Project Request	Lighting	
39	Roundabout with dedicated slip-lane for Westbound to Northbound traffic.	23	16	7	Project Request	Vehicle Network/ Operations	New Roundabout
40	Can we remove parking on one side to allow for safer buffered bike lanes for a shared use path on the west side.  Maybe removing the on street bike lanes and making a 16+ foot wide MPP along the water. it would leave the current road section and parking while also providing all ages and abilities facilities.	23	22	1	LAKE WASHINGTON BLVD NE415	Bicycle Network	Protected Bike Lanes
41	Find a way to let bicycles use this ramp. Currently we can only use the ADA ramp which does not work for many bicycles! This is not an expensive project, there must be a way to meet the codes and also let bicycles use the ramp.	22	21	1	ATP_Pri_3157	Bicycle Network	Bicycle Access
42	Can we remove on street parking to provide protected bicycle facilities on this important N-S corridor? It seems like there is sufficient parking on the side streets. Its a shame to use the limited width for cars who stay there multiple days in a row, serving a very small number of residents.  Removing parking for protected all ages and abilities bike lane would serve significantly more member of the public.	21	13	8	ATP_Pri_3363	Bicycle Network	Protected Bike Lanes
43	Current northbound bike lane follows the right hand edge and then crosses perpendicularly to follow the main road. This seems dangerous to me. Would be better to have the lane continue parallel to Lake Wa Blvd as that's where most bicycle traffic will be heading and can maintain speed.	21	18	3	ATP_Cr_45	Active Transportation Network	Bike lanes

ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
44	This street is a disaster and was SO poorly planned. The only one who benefitted was the developer. The original plan was for busses to run on the street, serving the residences and businesses. Sadly, the narrow road is not wide enough for two busses to pass each other safely, so Metro pulled the service off the street and routed it farther farther away, no longer serving the Village. Planners must stop designing these narrow roads, and focus on complete, smart designs. This was a total fail.	21	20	1	ATP_Pri_3101	Transit	Operations/ lane widths
45	<p>We really need a traffic signal and pedestrian crosswalk installed here on the intersection of 85th street and 126th Ave.</p> <p>This intersection is the only one in this block of 85th street which lacks a traffic signal - making it dangerous for drivers entering 85th from 126th and especially dangerous for Pedestrians who need to cross here to access the Bus stops placed on either side of this intersection (Stop ID: 73845)</p>	21	20	1	Project Request	Vehicle Network/ Operations	New Signal
46	The newer implementation of the northbound/left turn bike box here is much worse than the old one. Current design forces a cyclist to wait for two pedestrian crosswalk cycles. The previous large green area allowed for crossing in front of stopped cars to make a left turn and was both safe and much more efficient.	21	20	1	Project Request	Bicycle Network	Bike Boxes
47	There is no pedestrian access to this building at all. No sidewalks and no crosswalk.	21	21	0	Project Request	Private property access	Sidewalk
48	Need pedestrian connection to get from community on Juanita to the top of the hill. Landowner appears to have blocked access on what used to be a public easement.	21	21	0	ATP_Pri_3132	Active Transportation Network	New trail

49	We need a safer crossing option for students and those crossing to go to the little grocery market here. Neighbors have witnessed multiple close encounters specifically with high school students running across market in the dark winter mornings. I am afraid it is matter of time before something terrible happens. We need a better solution such as crossing bridge over market for a safe connect ion of East and West of market that will not impact traffic but keep our community members safe.	20	18	2	Project Request	Pedestrian Safety	Crosswalk
50	A multiuse path should be created in this green space to create a safer walking/biking alternative up Finn Hill. Could also tie into the proposed green loop.	20	19	1	Project Request	Bicycle Network	new trail/ pathway
51	With on-street parking next to businesses, this street through the newish Totem Lake seems narrow & dangerous to drive safely.	19	11	8	StaffRec_3	Vehicle Network/ Operations	Lane widths
52	There should not be unprotected left turns/flashing yellow arrows in any designated urban area, especially in high density or high pedestrian traffic areas such as the Station Area, downtown Kirkland and the Totem Lake Urban area.	18	13	5	Service Request	Vehicle Network/ Operations	Signs/signals
53	If Kirkland is serious about bike mode share, there needs to be a safe connection between the CKC and downtown Kirkland. I think a PBL on 6th to Kirkland Ave would be the cheapest/safest route, and could eventually connect to the Lake Street Promenade	18	15	3	ATP_Pri_6125	Bicycle Network	Project support - 6th St Protected Bike Lanes
54	The proposed left turn lane at NE120th is a ridiculous expenditure and encroachment on park land that benefits a very small number of households. I believe an easier/cheaper/safer option would be to remove the barrier at 80th PL NE and physically prohibit southbound travelers from turning left on to NE120th, similar to what was done at NE155th on the Kenmore side of Juanita drive.	18	16	2	Juanita_R5	Vehicle Network/ Operations	
55	The bike lanes which share a sidewalk with the walking lanes end up being all walk lanes to all the pedestrian traffic at the center. It is difficult to bike through, I have to ask multiple groups of people to vacate the bike lane when I bike down	18	18	0	StaffRec_3	Bicycle Network	Bike lanes

77	Have a pedestrian bridge go from Kingsgate P&R to Totem Lake Freeway Station. Currently transit riders parking at Kingsgate P&R have to walk all the way out to 128th st and back around to get to the bus stop.	14	14	0	Project Request	New Bridge	Transit access/ pedestrian
78	For students with ebikes, getting from the CKC up to Kirkland Middle School is a real challenge. The bike runnels near the frog on the CKC are not feasible for a middle schooler to push an ebike up. As a result, many students choose to ride out past Peter Kirk Elementary and then up this stretch of road. There's no bike lane here at all and students are forced to ride on the sidewalk. We should really address this use case.	14	14	0	Project Request	CKC	School access
79	connection between the street end and the CKC here. There is rail/City right of way between 2 houses here.	14	14	0	Project Request	CKC	New access trail
80	Many homeless individuals loiter at the library, making it feel unsafe to walk there at night. They need to be removed.	13	0	13	Service Request	Safety	Library, Enforcement
81	Obviously, people from the biking community are chiming in on this doc. You have to balance the needs for bikes, peds, and auto traffic to make this work. These street were built mainly for autos and tax money was used for that purpose. How come bike community won't raise some of the money to help in these projects.	13	1	12	Funding	Project funding source	
82	Consider widening the road to include a two-way left turn lane. This would support better access in/out of the neighborhoods and keep traffic from backing up for blocks when someone needs to turn left....but cant.	13	2	11	Project Request	Vehicle Network/ Operations	New turn lanes
83	Kirkland is short on North/South roads for vehicles (limited mostly to Market Street, I405 and 124th Ave NE). Adding additional N/S routes is key to solving road congestion, which is only getting worse each year. In 20 years, we'll need more N/S routes for local access and for the tens of thousands of commuters who travel from the norther cities (Everett, Edmonds, Lynnwood, etc.) to southern cities (Bellevue, Redmond, Kent, etc.). Please plan new N/S routes.	13	4	9	Project Request	Vehicle Network/ Operations	New Roads
84	Put a side walk on NE 110th Pl	13	9	4	Project Request	Pedestrian Network	Sidewalk

	Comment made by dropping a point on the map and making a comment.	These are votes in response to the initial comment.			Comments labeled as Project Requests may become a future candidate through the city's capital improvement program. ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
85	There is no sidewalk on 19th and it is extremely dangerous for pedestrians, many of whom are middle school children on their way to/from KIMS. This is a HIGH priority and involves the safety of our kids.	13	12	1	Project Request	Pedestrian Network	Sidewalk
86	The alley between 16th and 17th needs attention. Ideally, it would get paved but at least repair the potholes properly, the size of gravel used the last several times seems to just wash out on the next rain.	13	13	0	Service Request	Maintenance	Alleys
87	Complete missing sidewalk segment on two parcels along the south side mid-block of NE 140th Street to make a more pedestrian safe and continuous walkway for children and families as they walk to and from Helen Keeler Elementary School. This will eliminate the need to maintain the existing striped on-street walkway segment.	13	13	0	Project Request	Pedestrian Network	Sidewalk
88	Design a safe pedestrian crossing of 7th Ave S and 5th Pl to the CKC. This is a major walking route of kids to and from Lakeview as well as the community at-large to access the CKC. Should also install speed bumps along 5th Pl.	13	13	0	Project Request	Pedestrian Safety	Crosswalk
89	What all ages and abilities connections do we have between parks with play structures and the greater neighborhood communities? connections between points of interests like a park and the neighborhood would be great to see.	13	13	0	Project Request	Active Transportation Network	Connections
90	If Kirkland is no longer going to allow bus routes through Totem Lake Village (which is a shame) then we should no longer allow for through traffic at the intersection near salt and straw. This road is used as a through street for those exiting 405 NB towards Evergreen and Kingsgate. Access to parking should remain but removing this as a convenient through street for cars would create a safe and enjoyable pedestrian only space.	12	8	4	Transit request	Transit	Restore service
91	The park needs a sidewalk next to it. There are so many pedestrians walking in the road here, including small children since this is the only way to walk to the playground from the north part of the neighborhood. I even saw an older man with a walker walking in the road here. A sidewalk here would really improve safety.	12	8	4	Project Request	Pedestrian Network	Sidewalk
92	Culvert work at I-405 at NE 145th street should include future Juanita Public Pathway (to connect the CKC to Burke-Gilman via JHS and three parks)	12	8	4	Project Request	Active Transportation Network	Juanita Public Pathway

93	Another insanely wide road in a neighborhood. Can this road be made narrower for cars, but better for pedestrians and cyclists?	12	11	1	Project Request	Speeding/ Traffic Calming	Roadway widths
94	Dangerous intersection with no marked crosswalk. Kids walking to school have to cross from the north side of the street to the south side of the street through an intersection with no crosswalk, while distracted drivers are on their way to work in the mornings. Also, is a blind corner that many drivers roll through without completely stopping.	12	12	0	Project Request	Pedestrian Safety	Crosswalk
95	Cars routinely speed through here around many pedestrians. We need physical traffic calming like raised crosswalks.	12	12	0	Project Request	Pedestrian Safety	Crosswalk
96	Some of the school bus stops along Holmes Point feel pretty dangerous in the dark of winter: kids are standing in the mud and rain on the side of the road at or near semi-blind corners. Recent restriping has been a nice improvement. Curbs or even large rocks at bus stop corners would further help to separate the grade from where children are congregating.	12	12	0	Project Request	Pedestrian Safety	School bus stops
97	Put a sidewalk on the east side of Urban Plaza where the Vinason/parking entrance is. I see people walking up the road all the time because it's the natural path to Central Way. Yes, they could cross to the west sidewalk but then they'd just have to cross again at the crosswalk over Central Plz at the top of the hill.	12	12	0	Project Request	Private property access	
98	Additional request for sidewalks here. It is very dangerous turn for pedestrians and so many in the neighborhood use it to get to the Juanita parks and public transportation.	12	12	0	Project Request	Pedestrian Network	Sidewalk

	Comment made by dropping a point on the map and making a comment.	These are votes in response to the initial comment.			Comments labeled as Project Requests may become a future candidate through the city's capital improvement program. 143	98th Ave NE has become a dangerous speedway, Vehicles traveling this section of road consistently travel at excessive speeds and produce noises that exceed levels normally found in a residential and park setting. Because of the lack of pedestrian and biking facilities it is dangerous and a barrier of access to the neighborhoods it borders. More police monitoring or photo enforcement is required.	7	5	2	Service Request	Speeding/ Traffic Calming	
144	Please get rid of these little bike lane side paths. The only thing they accomplish is making it so that street sweeper vehicles can't keep the bike lane clear of debris. <a href="https://www.google.com/maps/@47.6447102,-122.1855946,3a,75y,181.52h,74.16t/data=!3m6!1e1!3m4!1sAD2Zx2ECyAQWmqogt5zwMQ!2e0!7i16384!8i8192?entry=ttu">https://www.google.com/maps/@47.6447102,-122.1855946,3a,75y,181.52h,74.16t/data=!3m6!1e1!3m4!1sAD2Zx2ECyAQWmqogt5zwMQ!2e0!7i16384!8i8192?entry=ttu</a>	7	5	2	Project Request	Bicycle Network	Maintenance
145	Recommend speed bumps on 10th Ave W around 3rd and 4th streets. Cars frequently driving over speed limit causing safety concerns for residents especially children.	7	6	1	Service Request	Speeding/ Traffic Calming	
146	The corner of 3rd st. west and 8th has a yield sign. No one uses it. There should be a stop sign. There have been many accidents at this corner with people not knowing how to yield to traffic on 3rd Ave. Put speed bumps along 7th or make it a four way stop.	7	6	1	Service Request	Pedestrian Safety	Speeding, FTY
147	This would be a great spot for light rail. Right in the middle of moss bay with walkability to anywhere and bus access. It would be just like a european town! If we had that, I would ditch my car!	7	6	1	Transit request	Transit	New Service
148	The speed increases to 35mph as you cross into Kirkland. With such high traffic this creates more noise and danger for pedestrians and bicyclists. Also makes it more difficult for driveways that line this road. Can we drop to 30mph like the rest of Bellevue way and lake Washington blvd?	7	7	0	Service Request	Speeding/ Traffic Calming	Speed Limit Policy

ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
149	124th Ave is a speedway outside of peak hours. It desperately needs traffic calming: medians, narrower lanes, a lower speed limit. Maybe even a roundabout at 140th to slow traffic. I've seen people nearly get run down on multiple occasions.	7	7	0	Project Request	Speeding/ Traffic Calming	
150	We need speed bumps. People consistently go very fast and that's right near the middle school bus stop. I've almost been hit in the crosswalk because people are speeding and not paying attention.	7	7	0	Service Request	Speeding/ Traffic Calming	
151	115th and 124th could use a crosswalk. Cars frequently turn blind on to 115th at 25 mph+ speeds and only see people crossing at the last minute. This area has foot traffic from the apartments above Visible Coffee, the kids' music studio and the coffee shop itself.	7	7	0	Project Request	Pedestrian Safety	Crosswalk
152	Add a sidewalk between 104th Ave NE and 108th PL NE. In some sections there is basely any shoulder, and there are regularly people walking along this very busy road, including children going to bus stops. When traffic is not backed up cars can be moving well over the speed limit down 145th in both directions. Connecting the existing sidewalks on the East and West ends of the road is not just practical, but a safety issue.	7	7	0	Project Request	Pedestrian Network	Sidewalk
153	Crosswalk across 112th	7	7	0	ATP_Pri_3153	Pedestrian Network	Crosswalk
154	I think some directional signage at the new bridge (and other crossings) would be a helpful addition -- let people know they can cross it and get to Totem Lake Village and Evergreen Hospital, advertise the loop walk around Totem Lake, promote the connection to Woodinville and the Sammamish River Trail. Someone who had taken the bus stopped me to ask where the trail went in this vicinity.	7	7	0	Project Request	Pedestrian Network	Wayfinding
155	Add BikeLink lockers at the transit center so that people can secure their bike when they catch a bus. This will encourage people to bike instead if drive (and park) downtown.	7	7	0	ATP_Pri_3291	Bicycle Network	Bicycle Parking

ID	Comment	Total Votes	Up Votes	Down Votes	Project/ Service Request	Category Primary	Category Secondary
209	Protected bike facilities are preferred but will take years to implement. In the meantime, as an interim solution, PLEASE at least put sharrows and "Share the Road" signs NB and SB since this segment of the corridor connects segments to the north and south that have bike lanes and is frequently used by cyclists. Drivers seem to think cyclists suddenly shouldn't be on this stretch of road or are supposed to ride on narrow sidewalks frequently occupied by pedestrians, strollers, and dogwalkers.	3	2	1	Project Request	Bicycle Network	share the road
210	Traffic circle here might also be helpful. Cannot tell you how many times I have almost been T-boned or almost hitting someone. Line of sight issues and the fact that a lot of people must not see the stop signs on 6th St W. My husband drives through that intersection with his hand on the horn ever time.	3	3	0	Service Request	Speeding/ Traffic Calming	traffic circle
211	Traffic goes too fast on NE 145th St. Sometimes it sounds like a race track. Speed limit signs do nothing; people drive as fast as they feel comfortable doing. Besides sidewalks and bike lanes, traffic-calming features are needed, such as extending sidewalks at intersections to narrow the street.	3	3	0	Service Request	Speeding/ Traffic Calming	
212	Improve sightlines on 103rd Ave Ne, looking west down NE 124th St. Vegetation often blocks visibility of oncoming traffic	3	3	0	Service Request	Safety	Sight distance
213	These pedestrian crossings at the 405 offramps are bad news slash terrifying to cross at night. Also walking under 405 there is *grim* with just fake rocks and pavement but at least it's well lit :)	3	3	0	Project Request	Pedestrian Safety	Crossing Improvement
214	Drivers make u-turns, park the wrong way, and park in the pedestrian path every school morning. It is dangerous for students. Sidewalk needs a curb and KPD should target area for traffic enforcement.	3	3	0	Service Request	Pedestrian Safety	School pick up/drop off
215	Improved continuity of sidewalks along this major walking corridor	3	3	0	Project Request	Pedestrian Network	Sidewalk

216	Continuity of sidewalks along this major walking corridor	3	3	0	Project Request	Pedestrian Network	Sidewalk
217	The sidewalk is difficult to walk on because the tree roots are lifting it up. This is a major walking route for the neighborhood to go downtown.	3	3	0	Service Request	Pedestrian Network	Sidewalk Maintenance
218	Redevelopment of the Kingsgate commercial area should include a mini transit center along 124th, and the pre-2020 route of Metro 255 should be restored. The lack of transit accessibility in Kingsgate is a direct driver of both the failure of the Kingsgate commercial center and the increased traffic congestion in the neighborhood. Nonresidents should have convenient transit to the neighborhood for access to amenities, and residents need non-transit options for travel.	3	3	0	Transit request	Transit	New/ restored service
219	Please increase bus frequency to/from downtown Kirkland, Bellevue, and Seattle. Decreasing the number of lanes in this area without an improvement to public transit will make this area less accessible.	3	3	0	Transit request	Transit	New/ restored service
220	I don't know how to make this intersection better but what's here now doesn't work great. Maybe some warning to cars that bikes merge with them on 7th Ave (both directions but especially eastbound)? Drivers are rushing to get to the elementary school or to catch the light at 85th. It becomes dangerous when 6th St is backed up from the light and cars don't have room to turn, so they're watching for a gap instead of people crossing.	3	3	0	ATP_Pri_7482	Vehicle Network/ Operations	Safety
221	There are some very large bumps in the bike lane on the East side of J-W road just North of 108th. It is extremely dangerous for cyclists to use the bike lane for that short stretch, forcing them into the road, where drivers get upset the bikes are not in the bike lane.  If no large scale project is happening on the street in the near future, it should be a very inexpensive and fast fix. (if caused by roots impact to trees TBD)	3	3	0	Service Request	Bike Lane Maintenance	Tree roots

254	we need a flagged crosswalk from Bridleview Neighborhood north entrance to the shopping center. It should have flags.	1	0	1	Service Request	Pedestrian Safety	Crosswalk Flags
255	The hardened centerline here is intended to eliminate left turns in/out of the LWHS driveway, but the observed behavior is that vehicles drive in the oncoming lane to make a left turn in/out of here. I'm not sure what needs to be done to fix this, but it seems less safe as currently implemented.	1	1	0	Service Request	Vehicle Network/ Operations	Enforcement
256	extend NE100th st down to Willows commerce park and road there.	1	1	0	Project Request (within Redmond)	Vehicle Network/ Operations	New Road
257	This road frequently backs up with traffic. Please improve capacity and safety.	1	1	0	Project Request	Vehicle Network/ Operations	Vehicle delay
258	Small traffic circle might help this intersection. Every day, people from the "lower" part of 16th Ave W speed up and down. I know it is residents; I see the same cars zoom by every day.	1	1	0	Service Request	Speeding/ Traffic Calming	traffic circle
259	Create a traffic circle to slow high speed drivers leaving Juanita high school and commuters cutting through the neighborhood	1	1	0	Service Request	Speeding/ Traffic Calming	traffic circle
260	Now that sidewalk has been installed on both 16th Ave west and 7th- this has created a very dangerous blind spot especially when cars are parked on the street. Since sidewalk installed a couples months ago, have almost been t- bones 5 times. You have zero visibility of cars coming down 16th from 7th if cars are parked on street and the house being built has minimal parking on driveway for a 2 dwelling residence. As other neighbor stated, 16th is now so narrow that only one car can safely drive.	1	1	0	Service Request	Safety	Sight distance
261	This whole plaza area, including 120th Ave NE, should be pedestrian, cyclist, and transit only. Parking should be limited to the garages and lots facing Totem Lake Blvd. If it were easier to get here by bus and felt safer to walk and bike here, fewer people would drive and need places to park.	1	1	0	StaffRec_3	Active Transportation Network	walk, bike, transit

271	<p>This section of 108th ave between 116th st and 121st st sees low traffic and still retains it's original country lane character. It is designated for a future greenway.</p> <p>Rather than adding sidewalks (and removing many large trees on the east side to make room), a better option would be to save money and add traffic control devices where cars and pedestrians could co-exist and the street could also retain its character. An example is a woonerf.</p>	1	1	0	ATP_Pri_3142	Speeding/ Traffic Calming	Greenway design
272	The trees on 6th St. south of the Park Avenue building make walking on the sidewalk difficult. The sidewalk could be widened.	1	1	0	TP_Pri_6125	Pedestrian Safety	Maintenance
273	Add lighting along 90th here. I've seen deers crossing the road, almost too late coming up the turn. Having some lighting would make me feel a bit better about driving up this curve.	1	1	0	ST 10200	Lighting	
274	Implement the Juanita Drive corridor recommendations including roundabouts for traffic management and speed control.	1	1	0	Juanita Drive Master Plan	Speeding/ Traffic Calming	Speeds, roundabouts
275	<p>Has staff walked 124th?</p> <p>There is a 6-ft sidewalk immediately adjacent to a five lane arterial with high speeds and high volumes.</p> <p>It feels uncomfortable and unsafe so my family does not walk on it. With small children it is especially uncomfortable. Having a sidewalk is one thing but having a sidewalk that residents actually want to use is another thing.</p> <p>If we want to reduce SOV trips we need higher comfort pedestrian and bicycle facilities.</p>	1	1	0		Pedestrian Safety	Level of Stress

291	I have asked for help regarding the crosswalk at 132nd Ave NE and 70th St for many years. There are 6 new houses almost completed in that 1/2 block area with many more planned. PLEASE, would somebody meet with me at the intersection? The traffic trying to go from NE 70th St to 132nd Ave NE is horrendous with drivers behaving irresponsibly. The last time I called Kirkland the woman I spoke with said that with more traffic, the slower the cars. WRONG and irresponsible. Please meet with me.	0	0	0	Project Request	Pedestrian Safety	Crosswalk
292	The intersection of 132nd Ave and 126th Pl is dangerous due to the high-speed, frequent traffic on 132nd and drivers attempting to turn onto it from 126th.	0	0	0	Project Request	Speeding/ Traffic Calming	
293	Please add speed bumps to slow the traffic	0	0	0	Service Request	Speeding/ Traffic Calming	
294	The city has parked heavy machinery on 106th Ct NE during sewer expansion projects resulting in degradation of the surface of the private drive and has caused compaction of the land land surrounding above the retaining tank. Consider resurfacing to restore.	0	0	0	Service Request	Maintenance	
295	This path should be publicly accessible for walking and rolling, as it provides the most easy, direct, and safe route for people traveling between Waverly and Downtown Kirkland.	0	0	0	Easement Request (private property)	Active Transportation Network	new trail/ pathway
296	Please DO NOT do this median candlestick thing anywhere else! It was intended to slow traffic, and all it does is push cars toward the bike lane (and many cars swing wide INTO the bike lane to avoid the candlesticks). The density of the candlesticks blocks view of pedestrians entering the intersection from some angles. It was well intentioned but a failure.	0	0	0	Service Request	Active Transportation Network	Delineators
297	Install street lights on NE 110th Pl, it's very narrow with no side walk, adding street lights will increase the safety.	0	0	0	Project Request	Lighting

326	Create a foot path along road that extends east of Juanita - Woodinville Way toward North edge of Fairfax Hospital, that would extend or connect to NE 133rd Lane, create a lovely bridge across the stream and end at north terminus of 105th Ave NE. Benefit: pedestrian access to Juanita Highschool and the Juanita business district.				Project Request	Active Transportation Network	new trail/ pathway
327	Also, the paths toward Thoreau Elem School and Finn Hill Middle School are suggested because walking along NE 134th St (west of 90th Ave NE), then south along 87th Ave NE, and then along NE 132nd St is very scary, has very poor air quality, and many loud vexations to hearing! Oodles of gas-powered vehicles (cement, trucks, trucks, trucks, garbage trucks, CARS galore, school buses, King County metro 225 (only one per hour now) travel this road route, which makes this pedestrian pathway horrible. Yes, I know that pedestrians are supposed to be polite and deferential to gas-powered vehicle drivers, however, I really resent the gas-powered vehicle world for the domination of the public space.				Project Request	Active Transportation Network	new trail/ pathway
328	The extreme curve on Juanita Drive starting just after Woodland Park needs immediate safety attention on the water side. Future improvements should prioritize adding a sidewalk to Juanita Beach and better separation between car and bike lanes.				Juanita_R2	Active Transportation Network	bike/ ped separation
