

Frequently Asked Questions Comprehensive Plan and Transportation Master Plan Update

What is Kirkland 2044? Kirkland 2044 is the update to the City of Kirkland Comprehensive Plan. This update is a chance to think about the kind of city you want Kirkland to become throughout the next 20 years. The updated plan will be adopted by the end of 2024.

What is the Comprehensive Plan? The Comprehensive Plan is a tool that helps the City plan for growth that we know is happening in Kirkland and the whole region. It is a long-term plan that thinks about the needs of current and future residents, workers, business owners, and visitors to Kirkland. The plan is organized into sections about housing, land use, transportation, sustainability, parks, economic development, human services, utilities, and more.

What is the Transportation Master Plan? As part of Kirkland 2044, the City is updating its Transportation Master Plan to create policies and prioritize future transportation projects in Kirkland through 2044. These projects will improve safety, movement, quality of life, and connections for all types of transportation.

How are these plans used? Both the Comprehensive Plan and the Transportation Master Plan are high level plans that state the City's vision and goals, and policy direction to achieve them.

How to Share Your Thoughts about the Kirkland Comprehensive Plan Update

We want to hear from you!

Everyone's voice is important. No matter how long you have been a part of the community, sharing your experience can give us valuable information for the plan. You do not need to live in Kirkland to comment – we also want to hear from people who work, study, visit, or play in Kirkland!

For example, we want to know:

- What types of housing do we need in Kirkland?
- Where should the City allow more housing to be built?
- How do you want to travel around the City in the future? (walk, bike, public transportation, scooter, other)
- What challenges do you experience related to housing, accessibility, and moving around the city?
- How can Kirkland become a more sustainable and environmentally-friendly city?
- What are the community's priorities for human services (social assistance)?
- What types of jobs and businesses should we encourage in Kirkland?
